Iqaluit, Nunavut**Wednesday, October 21, 2015****Members Present:**

Mr. Tony Akoak, Ms. Pat Angnakak, Hon. Monica Ell-Kanayuk, Mr. Joe Enook, Mr. George Hickes, Mr. David Joanasié, Mr. Pauloosie Keyootak, Hon. George Kuksuk, Mr. Steve Mapsalak, Hon. Johnny Mike, Mr. Simeon Mikkungwak, Hon. Paul Okalik, Hon. Keith Peterson, Hon. Paul Quassa, Hon. George Qulaut, Mr. Allan Rumbolt, Mr. Alexander Sammurtok, Mr. Tom Sammurtok, Mr. Joe Savikataaq, Mr. Isaac Shooyook, Hon. Peter Taptuna, Hon. Jeannie Ugyuk.

>>*House commenced at 13:28*

Item 1: Opening Prayer

Speaker (Hon. George Qulaut) (interpretation): Joe Enook, can you say the opening prayer, please.

>>*Prayer*

Speaker (interpretation): Thank you. Fellow Nunavummiut, members, ministers, and Premier, thank you for being here and good afternoon. This afternoon, I have comments to make.

Speaker's Statement

I am pleased to welcome my colleagues back to the House for this fall sitting. (interpretation ends) I also welcome Nunavummiut who are following our sitting on television and radio.

Last month, I had the honour of participating in a ceremony to mark our new Commissioner taking office.

(interpretation) At that time, I had the honour of announcing this year's recipients of the Order of Nunavut. I am pleased to announce today that the investiture ceremony will be held in this Chamber at 6:30 p.m. on Thursday, October 29, 2015.

(interpretation ends) The ceremony will be open to the public to observe from our Visitors Gallery and will be broadcast live on television.

We are approaching the one-year anniversary of the tragic events that took place on Parliament Hill in October of last year. (interpretation) Every Canadian legislature, including ours, has taken appropriate steps to address security.

(interpretation ends) As I will be absent from the House on Thursday and Friday to share best practices with other legislatures, our Deputy Speaker, the Hon. Member for Tununig, will be taking the Chair for those days. (interpretation) Please go easy on him, at least for his first day.

>>*Laughter*

(interpretation ends) On a happier note, please join me in congratulating our colleague from Iqaluit-Manirajak, Minister Monica Ell-Kanayuk, on her marriage this summer.

>>*Applause*

Money Message

I now wish to read the following message that I have received from the Commissioner of Nunavut. (interpretation) It reads:

(interpretation ends) Mr. Speaker, I wish to advise that I recommend to the Legislative Assembly of Nunavut the passage of the following bills during the Third Session of the Fourth Legislative Assembly:

- Bill 1, *Supplementary Appropriation (Operations and Maintenance) Act, No. 3, 2014-2015*;
- Bill 2, *Supplementary Appropriation (Operations and Maintenance) Act, No. 1, 2015-2016*;
- Bill 3, *Appropriation (Capital) Act, 2016-2017*; and
- Bill 6, *Supplementary Appropriation (Capital) Act, No. 3, 2015-2016*.

Sincerely, Nellie T. Kusugak.

Item 2. (interpretation) Ministers' Statements. (interpretation ends) Hon. Premier, Mr. Taptuna.

Item 2: Ministers' Statements

Minister's Statement 002 – 4(3): Congratulations on Canada Election

Hon. Peter Taptuna: Good afternoon, colleagues, (interpretation) members, and people of Kugluktuk and Nunavut.

(interpretation ends) Mr. Speaker, Canada spoke on October 19 and today, we have a new Prime Minister designate and Member of Parliament-Elect for Nunavut. This is a new page for Canada.

I would like to take this opportunity to congratulate Mr. Justin Trudeau on his election campaign and Mr. Hunter

Tootoo, who now represents us in Ottawa. I look forward to working with the new Prime Minister designate, Justin Trudeau. I also had a good conversation the other night with Hunter Tootoo and I wished him congratulations on behalf of the Nunavut government.

Mr. Speaker, and Members of the Legislative Assembly, please join me in applauding our new leaders as we step forward together to move Nunavut's agenda. (interpretation) Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Ministers' Statements. (interpretation ends) Hon. Minister, Ms. Ugyuk.

Minister's Statement 003 – 4(3): National Foster Family Week

Hon. Jeannie Ugyuk (interpretation): Thank you, Mr. Speaker. Good day, the people of Nunavut and my colleagues. I am happy that it is now fall time.

Mr. Speaker, I am pleased to announce that my department is celebrating National Foster Family Week, which began October 18. As we know, our foster families are the foundation of our child welfare services and ensure that all children have the love and care that they deserve.

Each community in Nunavut has been given special funds to support a local celebration and event for foster families. Even though we give our deepest gratitude to our foster families every day of the year, this is a chance for families to share their experiences and for us to publicly acknowledge their selfless

dedication to our most vulnerable children and inspire other Nunavummiut to become foster parents as well.

(interpretation ends) We have 260 foster families in Nunavut, and without them, we would not be able to ensure a safe, nurturing home for all our children in care and in our very own communities. Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Ministers' Statements. (interpretation ends) The Hon. Minister, Mr. Mike.

Minister's Statement 004 – 4(3): Sport and Recreation/Recreation and Parks Association of Nunavut (RPAN) Awards 2015

Hon. Johnny Mike (interpretation): Thank you, Mr. Speaker. It is my pleasure to congratulate the recipients of the 2015 Sport and Recreation Awards which were presented at the Recreation and Parks Association of Nunavut (RPAN) Sport Awards gala on October 17, 2015.

(interpretation ends) The Sport and Recreation Awards Program recognizes the exemplary commitment and accomplishments of athletes, coaches, officials, and volunteers within Nunavut's sport and recreation system.

(interpretation) The Sport and Recreation Division awards were presented in the following six categories:

- Male Athlete of the Year Hayden Hickey (Iqaluit)
- Female Athlete of the Year Nessa Ann Sallerina (Gjoa Haven)

- Team of the Year Baffin Blizzard Hockey Team (various communities)
- Official of the Year Joey Rhodes (Iqaluit)
- Coach of the Year Todd Gardner (Iqaluit)
- (interpretation ends) Special Recognition Award for outstanding contribution to sport Gary Wong (Iqaluit), Dennis Masson and Ed Sattleberger (Iqaluit), Geoffrey Oliver (Iqaluit).

(interpretation) As well, the Recreation and Parks Association of Nunavut presented three awards recognizing outstanding accomplishments and contributions to community recreation. Those awards were presented to:

- (interpretation ends) Recreation Leadership Award Talia Maksagak (Cambridge Bay)
- Community/Organization Achievement Award Aqsarniit Soccer Association (Iqaluit)
- First Air President's Award of Excellence Mike Courtney (Iqaluit)

(interpretation) On behalf of my colleagues, I wish to acknowledge their accomplishments and congratulate all of the recipients of the 2015 Sport and Recreation Award. Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Ministers' Statements. (interpretation ends) The Hon. Minister, Ms. Ell-Kanayuk.

**Minister's Statement 005 – 4(3):
National Teen Driver Safety Week**

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Speaker. (interpretation ends) October 19 to 25 is National Teen Driver Safety Week. This initiative was created in 2007 following a number of tragic crashes involving Pennsylvania high school students.

Teenage drivers remain at a higher risk of death per kilometre driven than all other age groups in Canada. This is a serious issue that needs attention. We encourage everyone, especially teens, to drive carefully, with their seatbelts buckled and their eyes on the road.

The Department of Economic Development and Transportation has released a brochure called "Your driving attitude counts now more than ever." It outlines how the demerit point system works and encourages people to be good drivers.

Safety messages are helpful, but in the longer term, we need to be looking at changes to the legislation supporting road safety. Nunavut is now the only Canadian province or territory without a graduated licensing system for new drivers.

Our government has committed to amending the *Motor Vehicles Act*. As part of that work, we will give serious consideration to graduated licensing and other changes to improve road safety, such as provisions dealing with distracted driving and the use of handheld devices.

We don't want anyone to get hurt in an automobile accident, especially not our youth. The driving conditions in Nunavut are unique, with many road users operating ATVs and snow machines. Safety is vital no matter the vehicle. Please drive carefully and never drive when you have been drinking. Thank you, Mr. Speaker.

>> *Applause*

Speaker (interpretation): Thank you. Ministers' Statements. I have no more names on my list. Going back to the orders of the day. Item 3. Members' Statements. Member for Iqaluit-Tasiluk, Mr. Hickes.

Item 3: Members' Statements

**Member's Statement 012 – 4(3):
Congratulations to Hunter Tootoo
for Becoming Nunavut's New MP**

Mr. Hickes: Thank you, Mr. Speaker. I would like to welcome all members of Nunavut that are watching the proceedings.

Like our Premier, I would also like to congratulate our newest Member of Parliament, Hunter Tootoo. As most people are aware, he is a relative of mine and I am very proud of his accomplishments of taking his political career to the national level.

At the same time, I would like to recognize the work that the Hon. Leona Aglukkaq has done for this territory over her term and I would like to thank her specifically for always having her door open for myself and I'm sure other Members of this House of bringing forward any concerns that were able to

be addressed by her. I would just like to thank her for her career. Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Members' Statements. Member for Iqaluit-Niaqunngu, Ms. Pat Angnakak.

**Member's Statement 013 – 4(3):
Airline Service in the North**

Ms. Angnakak: Thank you, Mr. Speaker. Welcome, everybody in the House and those on TV.

Mr. Speaker, I rise today to join with my colleagues. Over the last few days, there has been lots of talk about this code share agreement and the impact that the code share agreement between the northern airlines has had on service to our communities.

Mr. Speaker, as you will recall, I took the opportunity earlier this year to deliver a formal reply to the Commissioner's Opening Address. I used this opportunity to identify and highlight a number of concerns regarding the role of our national government in ensuring that food is accessible and affordable to our residents. I also took the opportunity to identify a number of concerns with the design and the administration of the federal Nutrition North Canada Program.

Mr. Speaker, although I fully recognize that the government does not directly run the airline industry, I also think that it's extremely important to recognize that the airline industry provides an essential service to the residents of our territory's 25 communities, large and small. In that

sense, our government does have a compelling interest in doing what it can to ensure that affordable airline service is available to all of our communities.

Mr. Speaker, when I talked about Nutrition North earlier this year, I pointed out that public confidence in the program has always been lacking. One of the main reasons for this lack of confidence has been the lack of transparency regarding such matters as the cargo rates that the retailers have negotiated with the airlines.

Mr. Speaker, I seek unanimous consent to conclude my statement today.

Speaker (interpretation): Thank you. (interpretation ends) The member is seeking unanimous consent to conclude her statement. Are there any nays? (interpretation) I didn't hear any nays. Please proceed, Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Speaker. Thank you to my colleagues.

Mr. Speaker, we have been told that the code share agreement has been made necessary because of the serious financial problems facing our airlines. Mr. Speaker, that may be the case, but try telling that to our constituents, who only see that the cost of a roundtrip ticket between Iqaluit and Ottawa can be more than the cost of a ticket between Ottawa and Paris.

Mr. Speaker, the airlines and their owners need to think hard about being significantly more transparent about their operations.

Mr. Speaker, as you know, I have family and friends in our nation's most remote

community, Grise Fiord. For many years, the territorial government has struggled with the question of transportation in the High Arctic.

Mr. Speaker, it cannot be denied that it's expensive to provide regularly scheduled air service to our most remote communities, all of which have very small populations.

Mr. Speaker, I think that it's very interesting to take a look at how our neighbours to the south deal with the question of air service to remote communities in Alaska.

Mr. Speaker, although the United States is generally seen as being less open to government's involvement in private businesses than we are here in Canada, it's very interesting that the US government actually administers a program called the Essential Air Service program. That involves subsidizing commercial airlines to provide scheduled service at over 160 remote and rural communities.

Mr. Speaker, earlier this week, Canadians voted for a new national government that has a mandate for change. I would like to take this opportunity then to urge the new federal government to work closely with all stakeholders to identify ways that it can help ensure that air service in the north is affordable and accessible to all of our communities. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Quttiktuq, Mr. Isaac Shooyook.

Member's Statement 014 – 4(3): New Health Centre for Arctic Bay

Mr. Shooyook (interpretation): Thank you, Mr. Speaker and my colleagues. Even though things have been happening since last year, we can all be present and we can be proud that it has passed.

I rise today to state that I had difficulties in Arctic Bay to get a new health centre and maybe the priority to get a health centre built. I worked hard on this last year in Arctic Bay.

Mr. Speaker, it is being built today. It is under construction and we're very happy to see that we will have a new health centre. I am happy today that we will be utilizing a brand-new health centre and I would like to celebrate with my fellow MLAs. Thank you, Mr. Speaker.

>>*Applause*

Speaker (interpretation): Thank you. Members' Statements. Member for (interpretation ends) South Baffin, Mr. David Joanasie.

Member's Statement 015 – 4(3): Cape Dorset School Fire

Mr. Joanasie (interpretation): Thank you, Mr. Speaker. Good day to my colleagues and those in the audience. I'm thinking about the people who have lost relatives in the summer. Although family members were lost, there were also newborns and I celebrate with them.

Mr. Speaker, I rise today to address the traumatic impact of the Cape Dorset school fire.

Mr. Speaker, the residents of Cape Dorset were very hurt by the burning of the Peter Pitseolak School. While residents are slowly recovering from this devastating loss, they do not want to see any further destruction and abuse of their community.

Mr. Speaker, unfortunately Cape Dorset is not the only community that has lost a school due to fire. Nunavut has seen three other schools burn down over the past 20 years: in Pangnirtung 1997, Cambridge Bay 1998, and here in Iqaluit 2003.

Mr. Speaker, we need to rebuild our school, but we also need to rebuild our community and our Nunavut. As part of the recovery process, parents need to continue to work together in partnership with local agencies to ensure that taking care and responsibility for our children is an ongoing priority.

I seek unanimous consent to conclude my statement. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. The member is seeking unanimous consent to conclude his statement. Are there any nays? There are none. You may proceed, Mr. Joanasie.

Mr. Joanasie (interpretation): Thank you, Mr. Speaker. I thank my colleagues.

To carry on, I would like to extend thanks to the first responders who were on the scene:

- Firefighters;
- RCMP members;
- The assistant fire marshal;
- CGS technical support crew;
- Municipal staff; and

- Representatives from Mental Health.

There were many individuals, but I cannot say all their names. Mr. Speaker, I would also like to extend a special thanks to all of the individuals as well as organizations from outside the community and the territory who made efforts to support our students in continuing their academic year. While many people contributed, I would like to mention a few specifically:

- Mr. Paul Finkelstein and friends from Stratford who raised \$10,000 online and the Northwestern Secondary School in Stratford, which welcomed and sponsored two Cape Dorset students;
- Iqaluit's Aqsarniit Middle School and Inuksuk High School, which both enrolled a number of Cape Dorset students;
- Nunavut Impact Review Board, which donated \$2,500 to the district education authority;
- Iqaluit's Joamie School for donating school supplies; and
- The GN office in Cape Dorset for donating office supplies.

Mr. Speaker, the loss of the school in Cape Dorset was, indeed, devastating. However, the hard work and goodwill of many has helped to set us on the road to recovery. I would like the students and staff of Peter Pitseolak School to be patient, even though it is going to be difficult, and to stand up for the school for it to go properly. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Rankin South, Mr. Alexander Sammurtoq.

**Member's Statement 016 – 4(3):
Impact of Codeshare Agreement**

Mr. Sammurtok (interpretation): Good day to my fellow residents of Rankin and members.

Thank you, Mr. Speaker. I rise today on behalf of my constituents in Rankin Inlet to talk about the impact of the recent codeshare agreement between the airlines.

(interpretation ends) Mr. Speaker, over the past several months, I have received concern after concern after concern from numerous constituents regarding codeshare.

Mr. Speaker, we know from the recent letters that have been sent by the government to the airlines about such issues as the problems with medical travel and transportation of medical samples. We have also personally experienced problems with cargo and flight schedules.

Mr. Speaker, my constituents feel that they are simply being taken advantage of by the airlines. Ticket prices remain high. Seat sales seem to have disappeared. Baggage allowances have gotten more restrictive. Support for youth to take part in sporting events is harder to come by.

Mr. Speaker, I will be asking questions on this issue at the appropriate time.
(interpretation) Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for (interpretation ends) Hudson Bay, Mr.

Allan Rumbolt.

**Member's Statement 017 – 4(3):
Setting Septentrional Borders**

Mr. Rumbolt: Thank you, Mr. Speaker. Good afternoon to the people of Sanikiluaq and Nunavut.

Mr. Speaker, I rise today to address a longstanding issue regarding the boundary between our jurisdictional neighbour, the Province of Quebec, and the waters and islands that currently fall under the jurisdiction of Nunavut.

Mr. Speaker, in 1912, the coastal borders of Quebec, Manitoba, and Ontario were set at the low-water mark of each province's shoreline. As a result, nowadays, the northern waters and islands off the Quebec coast, including James Bay, Hudson Bay, and the Hudson Strait, do not fall under the Province of Quebec but instead fall under the jurisdiction of Nunavut. The Premier of Quebec has put forward a request to extend the boundary lines of his province beyond the shoreline and into the waters beyond.

Mr. Speaker, you will note that redrawing provincial-territorial borders could have a significant impact on the jurisdictional status of the Belcher Islands, including the community of Sanikiluaq.

Mr. Speaker, the question of which jurisdiction Sanikiluaq should be in has been addressed a number of times in the past. The community has historical links with the Northwest Territories and now Nunavut, as well as family ties with Quebec. However, no matter what decision may be taken in the future, it is

critical that the people of Sanikiluaq be fully consulted in the matter and have their say.

Mr. Speaker, at the appropriate time, I will be asking the Premier and Minister of Executive and Intergovernmental Affairs questions on this issue. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Arviat South, Mr. Joe Savikataaq.

**Member's Statement 018 – 4(3):
Impact of Codeshare Agreement**

Mr. Savikataaq (interpretation): Thank you, Mr. Speaker. I say "good day" to the people of Arviat who are watching the proceedings.

(interpretation ends) Mr. Speaker, I rise today to express the frustrations that my constituents in Arviat have been experiencing as a consequence of the new codesharing agreements between the airlines.

Mr. Speaker, the impact that this had had on airline service to Arviat has been extremely negative. Service is down but prices remain high, despite the recent drop in the price of oil in this world. Cargo service is plagued with problems, not just the cost but just the fact of getting the cargo, and the flight schedule to the community provides less choice to the public.

Mr. Speaker, I am pleased that the Premier took the time to formally write to the airlines about the concerns that all of us in this House have been hearing. The impact that the codesharing agreement has had on our own

operations, such as medical travel, has been severe.

Mr. Speaker, I realize that the airlines are a business and that they have to make a profit to stay in business, but that does not mean that services should have to fall so far down that almost every airline customer in Nunavut speaks of a negative experience since the codesharing agreement has been implemented. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Gjoa Haven, Mr. Tony Akoak.

**Member's Statement 019 – 4(3): 2015
Annual General Meeting of the
Kitikmeot Inuit Association**

Mr. Akoak: Thank you, Mr. Speaker. Good afternoon, fellow MLAs. Good afternoon to Gjoa Haven-miut.

Thank you, Mr. Speaker. Before I begin my Member's Statement, I wish to take a moment to congratulate Hunter Tootoo for his election as our new Member of Parliament. I very much look forward to working with him on issues of concern.

I also want to take this opportunity to publicly thank Leona Aglukkaq for her years of service and achievements.

Mr. Speaker, I rise today to inform the House about the 2015 Annual General Meeting of the Kitikmeot Inuit Association, which was held earlier this month in Cambridge Bay. For the second year in a row, I had the privilege of speaking to the delegates during their deliberations.

Mr. Speaker, a number of important issues were addressed during the annual general meeting and I look forward to tabling, at the appropriate time, copies of formal resolutions that were passed by delegates.

Mr. Speaker, a number of these resolutions address issues that were raised by elders, women, and youth from the Kitikmeot. They address such topics as suicide prevention, homelessness, and language preservation.

Mr. Speaker, the issue of the codeshare agreement between the northern airlines was discussed in detail during the annual general meeting and is also the subject of one of the resolutions that I will be tabling.

The codeshare agreement has had a very negative impact on the Kitikmeot. Medical travel is just one of the areas that have been impacted by the codeshare agreement, and I will have questions for the appropriate minister at the appropriate time on this subject. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Baker Lake, Mr. Simeon Mikkungwak.

**Member's Statement 020 – 4(3):
Appreciation of Cabinet Visit**

Mr. Mikkungwak (interpretation): Thank you very much, Mr. Speaker. I say "good day" to the residents of Baker Lake and Nunavut.

Mr. Speaker, I rise today to say that on October 12, my wife and I celebrated our 25th wedding anniversary, and I was home for that day.

Just recently, on October 14, the Nunavut Premier and his staff were able to go to our community, as well as Minister Kuksuk and his staff. After our spring sitting, I had extended an invitation to the Premier to come to our community of Baker Lake so that he could personally see the issues that I brought up. They had a meeting with the hamlet council.

I am very pleased that we have the largest population of elders in Baker Lake, and he was able to have a meeting with the elders group. They were able to voice their concerns to the Premier personally. At that time, at the Martha Talirug Centre, which is an elders facility, he was able to have a meeting with that group and he had an opportunity to view that centre and hear the concerns of the elders. Before they left for Chesterfield Inlet... .

When I was newly elected, I worked very hard on the subject of search and rescue. He was able to have a meeting with the search and rescue group in Baker Lake and obviously, the concerns that were voiced were not only for search and rescue operations in Baker Lake but for all of Nunavut. I extend huge gratitude to the Premier for being able to come to our community. Thank you very much, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. Member for Tununiq, Mr. Enook. Members' Statements. Member for Uqqummiut, Mr. Pauloosie Keyootak.

**Member's Statement 021 – 4(3):
Grateful for First Grandson**

Mr. Keyootak (interpretation): Thank you, Mr. Speaker. I am very proud to rise today to say that I just got my very first grandson, so we have further work to do on behalf of my grandson. I also extend my love to my daughter. Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Members' Statements. Member for Aivilik, Mr. Steve Mapsalak.

**Member's Statement 022 – 4(3):
Successful Bowhead Whale Hunt
in Naujaat**

Mr. Mapsalak (interpretation): Thank you, Mr. Speaker. I rise today to bring up an issue of the bowhead whale hunt that we had this summer. The ice has finally left and we were finally able to catch a whale with Captain Paul Malliki. They caught a whale and I am very proud that this whale was caught traditionally because the whaling gun didn't work.

I would like my colleagues to join me in congratulating the residents of Naujaat on their successful bowhead whale hunt. The whale they caught was 48 feet long. I would like my colleagues to join me in congratulating the people of Naujaat. Thank you, Mr. Speaker.

>>Applause

Speaker (interpretation): Thank you. Members' Statements. Member for Aggu, Mr. Paul Quassa.

**Member's Statement 023 – 4(3):
Condolences to the Family of
Thomas Kublu**

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker and my colleagues. I am very glad to see you again. I wish my fellow residents a good day.

I rise today to bring up the issue of Inuit elders. Those who know the traditional lifestyle of our ancestors are becoming very few. We feel compassion when we lose an elder who knows the traditional lifestyle of Inuit.

We just recently lost an elder in Igloolik and we extend our condolences to his relatives. He used to be a mayor in Igloolik, he was an instructor/teacher, and he also worked in the church and other voluntary positions. Mr. Thomas Nutarariaq Kublu is from Igloolik, but he had many relatives in Pond Inlet. This loss was great and I extend my condolences to his relatives.

Two people recently passed away in our community, so I would like to think of the people of Igloolik and Pond Inlet.

Our elders, who know the traditional lifestyle, are lowering in numbers, so I urge my colleagues to listen to their elders, to ask questions to them, and to seek their advice because they know a lot more than we do. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Members' Statements. I have no more names on my list. We will move on. Item 4. (interpretation ends) Returns to Oral Questions. Mr. Clerk.

Item 4: Returns to Oral Questions*

>>Applause

**Return to Oral Question 007 – 4(3):
Need for Improved Adult Basic
Education****Speaker:** Welcome to the gallery.
(interpretation) Recognition of Visitors
in the Gallery.
Minister Okalik.**Clerk** (Mr. Quirke): Thank you, Mr.
Speaker. I wish to table a return to Oral
Question 7 – 4(3), which was taken as
notice during the June 2, 2015 sitting of
the House. Thank you, Mr. Speaker.**Hon. Paul Okalik** (interpretation):
Thank you, Mr. Speaker. I would like to
recognize one of my constituents,
Thomas Rohner, across in the gallery
there. Thank you, Mr. Speaker.**Speaker** (interpretation): Thank you.
(interpretation ends) Item 5. Recognition
of Visitors in the Gallery. Hon. Premier,
Peter Taptuna.

>>Applause

**Item 5: Recognition of Visitors in the
Gallery****Speaker** (interpretation): Thank you.
Welcome to the gallery. Recognition of
Visitors in the Gallery. I have no more
names on my list. We will move on.
Item 6. Oral Questions. Member for
Aivilik, Mr. Steve Mapsalak.**Hon. Peter Taptuna:** Thank you, Mr.
Speaker. I would like to recognize
Nunavut Senator, Senator Dennis
Patterson. Welcome to the House.
(interpretation) Thank you, Mr. Speaker.**Item 6: Oral Questions**

**Question 014 – 4(3): School
Replacement for Coral Harbour****Speaker** (interpretation): Thank you.
Welcome to the gallery. Recognition of
Visitors in the Gallery. Mr. Hickes.**Mr. Mapsalak** (interpretation): Thank
you, Mr. Speaker. I will direct my
question to the Minister of Education.**Mr. Hickes:** Thank you, Mr. Speaker. I
see Mr. Jim Bell sitting in the back over
there. I'm sure we will be looking
forward to an interesting editorial
coming out from the paper.Mr. Speaker, after one of the schools
burnt down, some of my constituents in
Coral Harbour became concerned about
the proposed schools to be built in the
community and the fact that they were
delayed.I would also be remiss if I didn't
recognize my lovely assistant, Jessica
Patterson, who I have been keeping quite
busy lately. Instead of watching the
proceedings on TV, she took the
privilege of attending in person today.
Thank you, Mr. Speaker.I would like to ask the minister about the
prospective school in Coral Harbour. Is
it really going to be delayed? Thank you,
Mr. Speaker.*See Appendix for full text of Return to
Oral Question 7 – 4(3).

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Education, Hon. Minister Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. I thank my colleague for that question. I can say that the Coral Harbour school is in the preplanning stage. It is continuing and has not been stopped. It is the first step and we are looking at the construction and it is still under the preplanning stage. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Speaker. Can the minister tell me when the construction will start for the new Coral Harbour school? Thank you, Mr. Speaker.

Speaker: The Hon. Minister of Education, Mr. Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. As I stated earlier, it is still in the preplanning stage. However, I can't say right now when construction will start, but it's in the preplanning stage. We all know there are a high number of students in Coral Harbour and they are at 80 percent capacity. The school is quite old there, but their new school is in the preplanning stage. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Speaker. In regard to the question I had earlier, is the minister

telling me that the prospective school for the Coral Harbour community has not been delayed and that construction will go ahead as scheduled? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Education, Mr. Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. As we are all aware, the schools for Coral Harbour and two other communities, following the increase in the number of students, we're looking at those communities to get them into the preplanning stage. I can say that it has been in the preplanning stage and that hasn't been changed. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for Rankin Inlet-Chesterfield Inlet, Mr. Tom Sammurtok.

Question 015 – 4(3): The Costs of Codeshare

Mr. Tom Sammurtok (interpretation): Thank you, Mr. Speaker. I would like to direct my question to the Minister of Health.

(interpretation ends) Mr. Speaker, as we are all well aware, the airline industry's recent codeshare arrangement is having an alarming impact on travel and freight services both within and outside of Nunavut. The costs associated with medical travel and accommodation comprises one of the government's single largest expense items and it seems clear that problems with the current codeshare arrangement must be adding to those costs. I was pleased to note that

the minister himself has raised concerns in this area.

(interpretation) Can the minister confirm (interpretation ends) whether or not his department is tracking and recording the number of times medical travel clients are unable to make it to their appointments or return home due to scheduling changes or the lack of seats as a result of the codeshare arrangement and how many extra nights of accommodation are being paid for as a result of the disruption in travel for medical clients and medical staff as a result of the codeshare arrangement? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Health, Mr. Paul Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. We are always keeping track of what's happening with this issue. It has become apparent that what the airlines did has caused problems. However, we have been meeting with the airlines and we have been advising them as to how they could make improvements. We will keep on doing that. We're always looking for better solutions and always trying to advise the airlines. We will keep on doing that, but they are independent businesses and do not always follow our suggestion. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Tom Sammurtok.

Mr. Tom Sammurtok (interpretation): Thank you, Mr. Speaker. I forgot to acknowledge my fellow residents of Chesterfield Inlet and Rankin Inlet and

Nunavummiut. Have a good day, everyone.

(interpretation ends) Mr. Speaker, the negotiation of medical travel contracts is a longstanding issue. Yearly expenditures in this area represent over \$40 million of the government's overall budget.

Can the minister clarify whether his departmental officials have taken any recent steps to renegotiate the terms of those contracts, specifically taking into consideration the impacts of the codeshare arrangement? (interpretation) Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Health, Mr. Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. This has been continuing for a number of years. We will be opening up the contract for any other businesses that are interested in trying for the contract because the contract will be ending next year and we will be able to look into that again. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Sammurtok.

Mr. Tom Sammurtok (interpretation): Thank you, Mr. Speaker. (interpretation ends) It is quite clear that the current codeshare arrangement and the resulting lack of services is having a serious impact on the delivery of medical services to Nunavummiut, from disruptions in medical client and staff travel to delays in the transportation of laboratory samples for testing.

Will the minister commit to reviewing the additional financial burden that the codeshare arrangement is imposing on his department's budget and sharing his findings with Members of this House and with officials from the federal government's Non-Insured Health Benefits division? (interpretation) Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Health, Mr. Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. The cost of patients' airline tickets has not increased. For that reason, this [summer], we extended the contract, but for this upcoming year, we will have to look at whether we have to send out an RFP for the contract. However, if we can get another private airline, I'm sure we can look into opening the contract. We will continue work and meet with the airlines. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for Tununiq, Mr. Enook.

Question 016 – 4(3): Status of Decentralized Positions in Pond Inlet

Mr. Enook (interpretation): Thank you, Mr. Speaker. Good afternoon, people of Pond Inlet and Nunavut.

Mr. Speaker, before I ask my question, if you can give me the opportunity, I would like to remind my colleagues that as the Speaker said earlier, he will be out of town. The Speaker's position is very important. Please remember what he stated and make sure you respect me as

the Speaker. It's just a reminder to everyone.

>>*Laughter*

Mr. Speaker, I have some questions for the Minister of Transportation. I have asked this question previously in the House and I have asked questions all year about the positions that had to become vacant or were dissolved in your department in my community. I think the minister is prepared to answer these questions.

This past summer, one of the positions advertised in the newspapers was for a transportation programs officer, which opened and closed this summer. It's based in Pond Inlet. The question I have about it is: what's new with that position? Has it been filled? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Economic Development and Transportation, Ms. Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Speaker. I thank my colleague for asking questions about staffing. To date, I haven't checked into how the staffing is doing in other places. I can say that I will get back to you or take it as notice and get back to you. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for Uqqummiut, Mr. Pauloosie Keyootak.

Question 017 – 4(3): Inuktitut-speaking Mental Health Workers

Mr. Keyootak (interpretation): Thank you, Mr. Speaker. The first question I have will be directed to the Department of Family Services.

Mr. Speaker, we are all aware that we have a big problem in our community and that is people that we lose to suicide. There are so many of them and I know we all want to deal with it and put a stop to it, but we just can't do so.

Mr. Speaker, I would like to ask the Minister of Family Services: do we have an Inuktitut-speaking mental health worker in Nunavut? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Family Services, Ms. Ugyuk.

Hon. Jeannie Ugyuk (interpretation): Thank you, Mr. Speaker. I also thank my colleague for asking about this issue. Some communities have Inuktitut-speaking social workers, but I'm not too sure how many counsellors there are who are bilingual. There are 10 counsellors taking the social service program in Cambridge Bay and this program is a two-year course for social service workers. I urge them to complete their training course because we lack social workers who can speak Inuktitut. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Keyootak.

Mr. Keyootak (interpretation): Thank you, Mr. Speaker. I'm talking about mental health workers because there are

many people in Nunavut that want to get mental health counselling and they can't speak English.

Some individuals think about suicide and they want to get counselling or mental health services, and I have seen people who approach me to ask for help. They tell me that there are no Inuktitut-speaking counsellors and they find Ottawa counsellors to help them. Individuals want to speak their language in Inuktitut and they want to speak with counsellors in Nunavut. There are Inuktitut-speaking counsellors in Ottawa who are stationed there. Why are we not making any plans to have Inuktitut-speaking counsellors?

They say that Inuit have the highest rate of suicide and we have not even received the Inuktitut-speaking counsellors. We don't even have a mental health worker and there are many people in Nunavut, such as elders, who could be used at the local level. Even though they don't speak English, they can deal with life issues. We don't necessarily have to go all the way down south when it's very expensive to go down. There are patients that are required to travel down, even when we have many knowledge-holders who can counsel people.

I was wondering why there are no plans to have that kind of training program, not for social workers. I'm asking in regard to mental health workers. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Family Services, Ms. Ugyuk.

Hon. Jeannie Ugyuk (interpretation): Thank you, Mr. Speaker. I would like to thank my colleague for asking a question

on this very serious issue. The mental health workers are under the Department of Health.

For social services, I can tell my officials to extend an invitation to meet with this men's group and look at ways of how we can resolve some issues. I know that the Department of Family Services knows, when there are families that want help, there are no counsellors that are geared towards men's issues.

For mental health, it is under the jurisdiction of the Department of Health and I am willing to work closely with the responsible minister. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Keyootak.

Mr. Keyootak (interpretation): Thank you, Mr. Speaker. Perhaps it is time to start planning to have a healing centre in Nunavut. Is that within your department to have a healing centre in Nunavut? The number of people receiving counselling out of the territory is increasing. Back in the 1980s and early 1990s, there were over 1,000 people going out of the territory. Some people who leave the territory for counselling services have never come back to the territory. In order to get social and counselling services done properly, does your department have any plans of getting some kind of healing centres in the north? That is my final question. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Family Services, Ms. Ugyuk.

Hon. Jeannie Ugyuk (interpretation): Thank you, Mr. Speaker. I would like to

thank my colleague for asking those questions. Yes, we are now considering how we can provide more support in Nunavut. We are looking at ways to provide support within the Department of Family Services. As a government, we have to treat everyone equally, whether you're a man, a child, a female, or a young person.

The family services department is quite new. We are now settling down and I expect that we can do it some time in the future. That is how I can respond to the member's question, Mr. Speaker. Thank you.

Speaker (interpretation): Thank you. Oral Questions. Member for Iqaluit-Niaqunngu, Ms. Angnakak.

Question 018 – 4(3): Federal-Territorial Relations

Ms. Angnakak: Thank you, Mr. Speaker. My questions are for the Premier.

Less than 48 hours ago, the people of Canada elected a new national government with a clear mandate for change. I would also like to take this time to thank Leona Aglukkaq for her hard work and also to congratulate Mr. Hunter Tootoo.

Can the Premier indicate when he expects to have his first meeting with our new Prime Minister? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Premier, Mr. Taptuna.

Hon. Peter Taptuna: Thank you, Mr. Speaker. I thank the member for that question. Mr. Speaker, as soon as the new Prime Minister is sworn in, I will be contacting my staff and officials to see if there can be a schedule in there to talk about. Of course, in my Minister's Statement, I indicated that we do have an agenda in Nunavut. There are a lot of issues that we face here in Nunavut, a lot of infrastructure deficit, and the list goes on. I'm sure, once the new Prime Minister is sworn in and the cabinet has been selected, there will be opportunities for me to visit the new Prime Minister and discuss our Nunavut issues. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Speaker. I thank the Premier for his response. It's very important, I think, that we hold the federal government to its promises regardless of what political party is in office.

The Premier mentioned the infrastructure projects that we want in Nunavut, but I would like to formally say that I would like him to be seeking a formal commitment, I think, from Ottawa that the planned new marine infrastructure facilities in Iqaluit and Pond Inlet will go ahead as planned. Will he commit to doing that?

An Hon. Member: Hear, hear!

Ms. Angnakak: Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Premier, Mr. Taptuna.

Hon. Peter Taptuna: Thank you, Mr. Speaker. When I do visit our capital city of Canada, I do ask for commitments and I'll certainly be doing that at my first visit down to Ottawa. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Speaker. I thank the Premier for his commitment to be talking about the infrastructure needs of Nunavut.

In my Member's Statement today, I talked about the responsibilities of the national government in ensuring that essential services are available to Canadians citizens living north of 60, including affordable and accessible air services. Will the Premier commit to raising this issue when he meets with the Prime Minister? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Premier, Mr. Taptuna.

Hon. Peter Taptuna: Thank you, Mr. Speaker. Certainly I will be bringing up these issues that we face. Airline transportation in Nunavut is an essential service. There is no connection between our 25 communities. It is essential and I'll be certainly bringing that out. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for Iqaluit-Tasiluk, Mr. Hickes.

Question 019 – 4(3): Energy Initiatives

Mr. Hickes: Thank you, Mr. Speaker. My questions today are for the Minister of Energy.

As this House is well aware, one of the issues that I have raised on many occasions and will continue to raise is the need for Nunavut to end its addiction to burning fossil fuels.

In July of this year, the governments of Yukon, Northwest Territories, Manitoba, Quebec, and Newfoundland announced the establishment of a pan-Canadian task force to reduce the use of diesel fuel to generate electricity in remote communities.

Mr. Speaker, our territory consists of 25 remote communities, all of which are powered by diesel generators. Can the minister explain why Nunavut was not included in this announcement? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Energy, Ms. Monica Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Speaker. In regard to this issue, I believe they were down there in August. I was unable to attend the meeting because I had other commitments. I believe I could have sent an official to that meeting. However, they have the pan-Canadian task force that was established. Our communities are powered by diesel generators and we all want to come up

with ways that we can reduce our dependence on diesel fuel and we will continue to work on that. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Hickes.

Mr. Hickes: Thank you, Mr. Speaker. I thank the minister for that response. One of the objectives of this task force is to, and I quote from the media, “examine approaches that are currently being used or considered for eliminating the use of diesel in remote communities, including grid connection or alternative energy solutions.”

Mr. Speaker, my colleagues from the Kivalliq have been raising the issue of connecting to Manitoba’s power grid for some time and the minister is well aware of the potential for hydro power near Iqaluit.

Can the minister indicate how the Government of Nunavut plans to contribute to the important work of this national task force? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Energy, Ms. Ell-Kanayuk.

Hon. Monica Ell-Kanayuk: Thank you, Mr. Speaker. I would also just like to clarify that I was at that energy and mines ministers’ conference in Halifax. Our name just did not get on the document at that time and several staff were with me when we were in Halifax and we did have these discussions.

(interpretation) Be that as it may, there will be many issues discussed at this task

force. When we have remote communities using diesel, I know that we can't be taking part in the grid connection. We have no highways in the High Arctic. Our strategizing is quite unique from the other Canadian jurisdictions on how to reduce our use of fossil fuels when we live in remote communities.

We will be working on how we can use pilot projects or if we can take part in the pilot projects. We will have to come to a decision on how we can reduce our dependence on fossil fuels and we will start discussions on those. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Hickes.

Mr. Hickes: Thank you, Mr. Speaker. That's a very encouraging response from the minister. I look forward to seeing a lot of progress from this task force.

Keeping in the theme of the day, with the new government that has just been elected at a national level, when the minister's federal counterpart is named, I'm wondering if the minister could indicate what her top priorities will be when she meets her new federal counterpart. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Energy, Ms. Ell-Kanayuk.

Hon. Monica Ell-Kanayuk: Thank you, Mr. Speaker. I thank the member for that question. As you know, we are in remote communities. Every community in Nunavut is dependent on diesel fuel. Our discussions will have to be on how we can move forward on reducing our use

of diesel fuel in Nunavut. As the next steps on making recommendations from our report, Manitoba will be hosting their first meeting of the task force to bring participants together to start sharing information and begin discussions on the use of diesel fuel in remote communities. Our first priority will be to look at what can we do in a remote community when we are not connected by roads, how can we move forward to reduce diesel reliance in Nunavut. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for (interpretation ends) Hudson Bay, Mr. Allan Rumbolt.

Question 020 – 4(3): Addressing Nunavut-Quebec Border Issues

Mr. Rumbolt: Thank you, Mr. Speaker. I would like to direct my question to the Premier, who is the Minister of Executive and Intergovernmental Affairs.

Mr. Speaker, recent media reports have stated that the Government of Quebec has been seeking to meet with representatives from the federal government and the Government of Nunavut to discuss changes in the northern borders of the Province of Quebec.

In fact, the Quebec Premier formally wrote an open letter to the federal party leaders in which he raised this issue. At the appropriate time, I will be tabling that letter and the relevant English language excerpts.

Can the Premier clarify his government's position with respect to

reviewing the Nunavut-Quebec border?
Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Executive and Intergovernmental Affairs, Premier Taptuna.

Hon. Peter Taptuna: Thank you, Mr. Speaker. I thank the member for that question. Mr. Speaker, I am aware of the open letter that was written on August 14 to the party leaders. In the open letter, Premier Couillard wanted to open discussions on the water boundaries and the extension of the water boundaries. Mr. Speaker, in 2010, we concluded with the Quebec Cree and the Inuit of Quebec on jurisdictional boundaries and in the Act of 1912, the *Quebec Extension Act*, it is quite clear there.

Mr. Speaker, with the conclusion of our Nunavut Land Claims Agreement, the boundaries and the islands are in the Territory of Nunavut. Mr. Speaker, at this time, there is no interest from Nunavut to reopen negotiations. This is going to be up to the federal government to decide on the opening up of discussions with Quebec. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Rumbolt.

Mr. Rumbolt: Thank you, Mr. Speaker. I thank the Premier for his response. Mr. Speaker, the Premier of Quebec has indicated that he is interested in having discussions with the federal government and the Government of Nunavut regarding the Nunavut-Quebec transboundary issue. I note that NTI would also have to be a part of to these discussions as the Nunavut Settlement

Area is defined under the Nunavut Land Claims Agreement. Also, it is very important that the people of Sanikiluaq know that no discussion will be made regarding Nunavut's borders, especially in the Hudson Bay region, without the community being consulted.

Will the minister commit today to consulting with the residents of Sanikiluaq before any changes to Nunavut's borders are ever considered?
Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Premier of Nunavut, Mr. Taptuna.

Hon. Peter Taptuna: Thank you, Mr. Speaker. At this time, we see no reason to reopen discussions on this issue. Having said that, as soon as there is any decision made from the federal government, the MLA from Sanikiluaq will be the first to know. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for South Baffin, Mr. David Joanasie.

Question 021 – 4(3): Plans for School Replacement in Cape Dorset

Mr. Joanasie (interpretation): Thank you, Mr. Speaker. My question today is for the Minister of Education.

Before I ask the question, I would like to thank the minister for going to Cape Dorset after the school fire. The Department of Education and the Qikiqtani School Operations staff came in shortly afterwards and I thank them.

I would like to ask the minister. As the minister is aware, the loss of the school in Cape Dorset has been a devastating one for the community. In my Member's Statement earlier today, I mentioned a number of ways in which individuals, organizations, and communities have rallied in support of our students to enable them to continue with their studies this academic year.

Can the minister provide an update on what short-term and medium-term plans for the upcoming year his department has put in place to continue delivering the school program in Cape Dorset? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Education, Mr. Paul Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. I thank my colleague for asking about this. First of all, the residents of Cape Dorset, the students, parents, and teachers are a priority and education is our priority and we will work hard on this.

I can state that I think it was today that there were staff members going to Cape Dorset from the Department of Community Government and Services and the Department of Education. They were going to go into the community today. They will be meeting with the district education authority and I have heard that the district education authority in Cape Dorset will be furthering what they wanted to do to service the students with a gymnasium and other things.

The district education authority is working hard on this and we will find out exactly what they are going to be doing once they have made a decision.

We will be pushing more for this and we will be trying to come up with a decision soon after. Before we make a decision, they will be temporarily housed at the Sam Pudlat Elementary School.

Looking further into the future, we are working closely with the Department of Community and Government Services on how we can settle with what type of school we are presently planning on. It's obvious that the Department of Community and Government Services and our department will be keeping the residents of Cape Dorset informed on what's going on. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Joanasié.

Mr. Joanasié (interpretation): Thank you, Mr. Speaker. Thank you for the response. Mr. Speaker, there are many alternative ways of delivering and receiving educational programming. Can the minister provide an update on what steps his department has taken to explore such options as providing home schooling support or distance education programs online or other means to help Cape Dorset students successfully continue with their studies this academic year so the education continues, thinking of the students this upcoming year and afterwards? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you (interpretation ends) The Hon. Minister of Education, Mr. Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. What he just mentioned, home schooling, according to our legislation in Nunavut, it is always open to those who want to do home

schooling. To date, we haven't had any requests for home schooling. It is possible, but we haven't seen any requests in all of Nunavut, including Cape Dorset.

Perhaps I will mention distant education. For instance, online through television, the Department of Education is looking into how it's going to be set up. I can say right now that all of our schools and perhaps that school was part of this network... It's referred to as Cat 6 to make it possible online. All of our schools are set up on distant education. All of our schools' computers can do that, but the bandwidth is too low to date. It has been utilized in the past, even though it's slow.

From 2011 to date, Cape Dorset has requested on how this is operated. They have received training on it. It's becoming more and more available. As I stated earlier, home schooling is possible as long as we get a request and those other things. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Joanasié.

Mr. Joanasié (interpretation): Thank you, Mr. Speaker. I thank the minister for that response. Mr. Speaker, one of the critical issues facing our students is the lack of classroom space. He just stated that the Sam Pudlat School is being utilized by the higher grades and they're taking shifts. The smaller students go there in the mornings and the students in the higher grades go there in the afternoons.

Has the minister brought forward any proposal to his cabinet colleagues to bring portable classrooms into the

community of Cape Dorset to be used on a temporary basis until a new school is built? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Education, Mr. Quassa.

Hon. Paul Quassa (interpretation): Thank you, Mr. Speaker. I thank the member for that question. As I indicated earlier in regard to the school in Cape Dorset, we're working very closely with the Department of Community and Government Services in order to build a new school as soon as possible. Some of our officials will be going down south to look at some models that can be used by our department. Those officials are with the Department of Community and Government Services and the Department of Education.

Yes, it's very true that we would like to proceed with the construction as soon as possible because we are using the Sam Pudlat School for the senior students. We would like to see the construction of a new school as soon as possible. We're going to be looking at some buildings in order to house the students. That's what I can state, Mr. Speaker. Thank you.

Speaker (interpretation): Thank you. Oral Questions. Member for Rankin Inlet South, Mr. Alexander Sammurtok.

**Question 022 – 4(3): Impact of
Codeshare Agreement on
Government of Nunavut Budget
Development Process**

Mr. Sammurtok (interpretation): Thank you, Mr. Speaker. (interpretation ends) My question is to the Minister of Finance.

The Premier's recent letter to First Air, Canadian North, and Calm Air clearly described the impact that the codeshare agreement has had on individuals, families, communities, and the government itself. For example, the Premier's letter described the significant impact that the codeshare agreement has had on the government's own travel expenditures.

Can the Minister of Finance indicate how this will be taken into account as he works to develop next year's territorial budget? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Finance, Mr. Keith Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I thank Mr. Sammurtok for the question. I'm well aware of the issues with the codeshare. I sat in the meetings with the airline executives when they briefed us all in-camera and made certain promises and commitments, many of which have not unfolded, as we were told.

Being from the Kitikmeot, I'm very aware of the difficulties in travelling east to west. Our airline schedules make it very difficult for my colleagues and/or GN staff to fly from Cambridge Bay to anywhere in the Kitikmeot within our communities. For example, to get from Cambridge Bay to Kugluktuk, you have to fly to Yellowknife to Kugluktuk or something like that. We have limited schedules to get over here. The freight east to west can take six to eight weeks to get from Iqaluit and you pay in advance and your freight waits at the airport for a couple months. I have personally experienced that.

To answer your question, Mr. Sammurtok, our departments are individually going through our main estimates process currently, so departments are working through their departmental budgets. We expect that the managers will work within their departments with their deputy ministers to build their budgets and will be put forward through the Financial Management Board, at which time we will review and then we will continue the process and eventually making it forward to the standing committee for discussion and debate, probably in early January some time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Sammurtok.

Mr. Sammurtok (interpretation): Thank you, Mr. Speaker. (interpretation ends) I have received numerous concerns from my constituents regarding the impact that the codeshare agreement has had. For example, my constituents point out that it can cost more to fly from Rankin to Winnipeg than it does to fly from Winnipeg to Europe. Can the minister clarify if the government is open to increasing the northern allowance that it pays its employees to balance the impact that codeshare has had on our residents? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Finance, Mr. Keith Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. If I understand Mr. Sammurtok correctly, that is an issue that would probably be discussed between the Government of Nunavut and the

collective bargaining units, NEU and NTA. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Sammurtok.

Mr. Sammurtok (interpretation): Thank you, Mr. Speaker. (interpretation ends) I have also received many concerns from constituents regarding the impact that the codeshare agreement has had on the ability of youth to take part in sporting events outside of their home communities. This issue was also addressed in the Premier's letter. Can the minister indicate if there will be increased funding in next year's budget to help offset the increased travel costs that have resulted from the codeshare agreement? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I appreciate that Mr. Sammurtok is speaking on behalf of his constituents and probably all Nunavummiut who are involved in sporting events and other events to try to get them around. I am well aware that it is very expensive to travel to sporting events and other important meetings and gatherings across Nunavut. We understand that the airlines did a lot in the past to donate towards those events.

Again, as I said in my earlier response, it would go through a budgeting process and that would be something that the department that is responsible for recreation would probably consider, and then they would bring forward recommendations to the Financial

Management Board and then ultimately to this House. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Oral Questions. Member for Gjoa Haven, Mr. Tony Akoak.

Question 023 – 4(3): Impact of Codeshare Agreement on Operations of the Department of Health

Mr. Akoak: Thank you, Mr. Speaker. My questions are for the Minister of Health.

As I indicated in my Member's Statement, one of the issues that were discussed at the recent annual general meeting of the Kitikmeot Inuit Association was the codeshare agreement between the major airlines.

The Minister of Health also attended KIA's AGM and spoke to the delegates about his concerns regarding the codeshare agreement and its impact on such things as medical travel and the timely transport of medical samples.

For the benefit of Kitikmeot residents who were not able to attend KIA's AGM, can the minister describe what issues the Department of Health is facing as a result of the codeshare agreement? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Health, Mr. Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. (interpretation ends) There have been a number of issues that we have raised with the various airlines. One is the samples

being missed and not being able to be transported. Others have been the lack of seat availability for some routes. Some routes have increased capacity, but most routes have lost some capacity with the codeshare arrangement.

It has been a combination of issues that we have encountered for medical travel and we have raised these with the airlines. We hope that they will accommodate the concerns that we have raised, but there have been a lot of other issues not related to health that all of us have encountered with this codeshare arrangement. I hope that these airlines can work themselves out, but we will have to continue to raise them for them to try and accommodate us.
(interpretation) Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Akoak.

Mr. Akoak: Thank you, Mr. Speaker. In September of this year, the Department of Health sent formal letters to the presidents of First Air, Canadian North, and Calm Air concerning the codeshare agreement. Have any of the three airlines replied to this letter? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Health, Mr. Paul Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. (interpretation ends) Not that I'm aware of, but if I do get word that they have replied, then I will gladly share the responses. My officials have also met with the three airlines earlier this month from October 5 to 9 to discuss and explain the concerns and issues that we have

identified with this agreement.
(interpretation) Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Akoak.

Mr. Akoak: Thank you, Mr. Speaker. When you receive the letters, will the minister commit to tabling in the Legislative Assembly the replies that his department receives from the three airlines? Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Minister of Health, Mr. Okalik.

Hon. Paul Okalik (interpretation): Thank you, Mr. Speaker. (interpretation ends) Yes.

Speaker (interpretation): Thank you. Oral Questions. Member for Arviat South, Mr. Joe Savikataaq.

Question 024 – 4(3): Western Hudson Bay Polar Bear Management

Mr. Savikataaq: Thank you, Mr. Speaker. I would like to direct my question to the Minister of Environment today. My questions will be about the total allowable harvest for the western Hudson Bay polar bear population.

Mr. Speaker, section 120 of the Nunavut's *Wildlife Act* provides the Nunavut Wildlife Management Board with the authority to establish levels of total allowable harvest. However, in accordance with section 156 of the Act, every decision of NWMB is subject to acceptance, rejection, variation, or disallowance by the minister.

The minister is aware that the total allowable harvest should be given to

RWBs and HTOs by July 1 of every year. Has the Nunavut Wildlife Management Board given their recommendation to the minister of what the total allowable harvest should be for the western Hudson Bay polar bear population, and what is that number? Thank you.

Speaker (interpretation): Thank you. Minister of Environment, Mr. Johnny Mike.

Hon. Johnny Mike (interpretation): Thank you, Mr. Speaker. I thank my colleague for that question. We now have the letter regarding the recommendation made by NWMB. We will have to take it into consideration and once that process is complete... . There are 24 total allowable harvests set for polar bears. Since we got the recommendation from NWMB, I will take it into careful consideration. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your first supplementary, Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. I would like to ask the minister... . Sorry, I'll just take a step back. I believe he said that NWMB has given their recommendation for a total allowable harvest for the western Hudson Bay and the minister is not agreeing with it because he has to think about it. Is that correct? Thank you.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Environment, Mr. Mike.

Hon. Johnny Mike (interpretation): Thank you, Mr. Speaker. NWMB has

given me their decision for the total allowable harvest in western Hudson Bay. They have given me something that I will consider. They have requested to increase the total allowable harvest for polar bears by 14. That's what I was talking about. That is what I have to carefully consider. After I have carefully considered it, I will inform the Nunavut Wildlife Management Board of my decision. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. Your final supplementary, Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Speaker. I understand that the minister is disagreeing with the increase of 14 polar bears for the western Hudson Bay. The current quota was 24 and they have asked for an additional 14, which brings it to 38. My understanding is that NWMB has recommended a TAH of 38 and the minister is obviously not agreeing with the decision currently because he said that he has to study it some more.

Has the minister done that with other polar bear populations? When there was an increase in the Foxe Basin polar bear tags, did he send that decision back for more studying too? It's the same officials that do the population estimates and it's the same NWMB board. Is he singling out the western Hudson Bay polar bear population or is he consistent with all polar bear populations? Thank you.

Speaker (interpretation): Thank you. (interpretation ends) The Hon. Minister of Environment, Mr. Mike.

Hon. Johnny Mike (interpretation): Thank you, Mr. Speaker. I also thank my colleague for asking that question. The polar bear management areas in Nunavut are set up differently from each other and they're dealt with differently.

What I said was that the recommendation from NWMB is what I was given and I have to carefully consider it. I'm not disagreeing with it. I'm not agreeing with it. I just haven't made a decision on it yet. I have to carefully consider as to how much of an increase it will be.

I'm not saying that I agree or disagree with the number that was recommended; I'm just saying that I have to carefully consider it. Mr. Speaker, that's what I can say at this time. Thank you.

Speaker (interpretation): Thank you. (interpretation ends) Oral Questions. Members will note that the time for question period has expired and we will proceed to Item 7. (interpretation) Going back to the orders of the day. Item 7. (interpretation ends) Written Questions. Item 8. Returns to Written Questions. Mr. Clerk.

Item 8: Returns to Written Questions*

Return to Written Question 001 – 4(3): Administration and Enforcement of the Workers' Compensation Act

Return to Written Question 002 – 4(3): Expenditures and Activities under the Strategic Investments Program

*See Appendix for full text of Returns to Written Questions 1 – 4(3), 2 – 4(3), 3 – 4(3), and 5 – 4(3).

Return to Written Question 003 – 4(3): Administration and Enforcement of the Tobacco Tax Act

Return to Written Question 004 – 4(3): Expenditures under Standing Offer Agreements

Return to Written Question 005 – 4(3): Administration and Enforcement of the Public Health Act

Clerk: Thank you, Mr. Speaker. I wish to table returns to Written Questions 1 – 4(3) through 5 – 4 (3), all of which were asked during the June 2, 2015 sitting of the House. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Item 9. Replies to Opening Address. Item 10. Petitions. Item 11. Responses to Petitions. Item 12. Reports of Standing and Special Committees on Bills and Other Matters. Item 13. Tabling of Documents. Hon. Minister Monica Ell-Kanayuk.

Item 13: Tabling of Documents

Tabled Document 006 – 4(3): Nunavut Business Credit Corporation's 2014-2015 Annual Report

Tabled Document 007 – 4(3): Nunavut Development Corporation's Annual Report for 2014-2015

Hon. Monica Ell-Kanayuk: Thank you, Mr. Speaker. I am pleased to table the Nunavut Business Credit Corporation's 2014-15 Annual Report.

Mr. Speaker, I am also pleased to table the Nunavut Development Corporation's

Annual Report for 2014-15. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Tabling of Documents. Hon. Minister Monica Ell-Kanayuk, (interpretation) are you done? (interpretation ends) Hon. Minister Kuksuk.

Tabled Document 008 – 4(3): Inuit Uqausinginnik Taiguusiliuqtiit Annual Report 2012-2013

Tabled Document 009 – 4(3): Inuit Uqausinginnik Taiguusiliuqtiit Annual Report 2013-2014

Tabled Document 010 – 4(3): Inuit Uqausinginnik Taiguusiliuqtiit Annual Report 2014-2015

Hon. Minister Kuksuk (interpretation): Good afternoon, fellow residents of Nunavut and Whale Cove and Arviat.

(interpretation ends) Mr. Speaker, I am pleased to table the *Inuit Uqausinginnik Taiguusiliuqtiit* annual reports for the following years: 2012-13, 2013-14, and 2014-15. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Tabling of Documents. (interpretation) Member Akoak.

Tabled Document 011 – 4(3): Resolutions from the 2015 Kitikmeot Inuit Association Annual General Meeting

Mr. Akoak: Thank you, Mr. Speaker. As I noted in my Member's Statement today, I had the honour of taking part in the 2015 Annual General Meeting of the

Kitikmeot Inuit Association which was held earlier this month.

I wish to table today copies of the resolutions that were adopted at this year's annual general meeting. I encourage all members to review them with care. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Tabling of Documents. (interpretation) Member Rumbolt.

Tabled Document 012 – 4(3): Letter from Premier of Quebec to Federal Party Leaders Referencing Nunavut-Quebec Border

Mr. Rumbolt: Thank you, Mr. Speaker. I would like to table a letter written on August 14, 2015 by the Premier of Quebec to the federal party leaders. The letter refers to reviewing the borders between Nunavut and Quebec. The relevant sections have been translated into English. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Tabling of Documents.

Tabled Document 013 – 4(3): 2014-2015 Annual Report of the Information and Privacy Commissioner of Nunavut

Tabled Document 014 – 4(3): 2015 Annual Report of the Office of the Integrity Commissioner

I have two documents to table today. The first document is the *2014-2015 Annual Report of the Information and Privacy Commissioner of Nunavut*. The

next document is the 2015 *Annual Report of the Integrity Commissioner of Nunavut*. (interpretation) Thank you.

(interpretation ends) Item 14. Notices of Motions. (interpretation) Member Simeon Mikkungwak.

Item 14: Notices of Motions

Motion 004 – 4(3): Extended Sitting Hours and Days – Notice

Mr. Mikkungwak: Thank you, Mr. Speaker. I give notice that on Friday, October 23, 2015, I will move the following motion:

I move, seconded by the Hon. Member for Aggu, that the Speaker be authorized to set such sitting hours and days as the Speaker deems fit to assist with the business before the House during the fall 2015 sitting of the Legislative Assembly.

Mr. Speaker, at the appropriate time, I will seek unanimous consent to deal with my motion today. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Item 14. Notices of Motions. (interpretation) Member Mr. Savikataaq.

Motion 005 – 4(3): Censure of the Member for Rankin Inlet North-Chesterfield Inlet – Notice

Mr. Savikataaq: Thank you, Mr. Speaker. I give notice that on Friday, October 23, 2015, I will move the following motion:

NOW THEREFORE I MOVE, seconded by the Hon. Member for Tununiq, that

the Member of the Legislative Assembly for Rankin Inlet North-Chesterfield Inlet be censured.

At the appropriate time, I will seek unanimous consent to deal with my motion today. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Item 15. Notices of Motions for First Reading of Bills. Hon. Minister of Finance, Mr. Peterson.

Item 15: Notices of Motions for First Reading of Bills

Bill 01 – Supplementary Appropriation (Operations & Maintenance) Act, No. 3, 2014-2015 – Notice

Bill 02 – Supplementary Appropriation (Operations & Maintenance) Act, No. 1, 2015-2016 – Notice

Bill 03 – Appropriation (Capital) Act, 2016-2017 – Notice

Bill 04 – Write-off of Assets Act, 2014-2015 – Notice

Hon. Keith Peterson: Thank you, Mr. Speaker. I give notice that on Friday, October 23, 2015, that Bill 1, *Supplementary Appropriation (Operations and Maintenance) Act, No. 3, 2014-2015*, be read for the first time.

Mr. Speaker, I give notice that on Friday, October 23, 2015, that Bill 2, *Supplementary Appropriation (Operations and Maintenance) Act, No. 1, 2015-2016*, be read for the first time.

Mr. Speaker, I give notice that on Friday, October 23, 2015, that Bill 3, *Appropriation (Capital) Act, 2016-2017*, be read for the first time.

Finally, Mr. Speaker, I give notice that on Friday, October 23, 2015, that Bill 4, *Write-off of Assets Act, 2014-2015*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Notices of Motions for First Reading of Bills. The Hon. Minister responsible for the Workers' Safety and Compensation Commission, Mr. Peterson.

Bill 05 – An Act to Amend the Safety Act – Notice

Hon. Keith Peterson: Mr. Speaker, I give notice that on Friday, October 23, 2015, that Bill 5, *An Act to Amend the Safety Act*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) Item 16. Motions. (interpretation) Member Mikkungwak.

Item 16: Motions

Mr. Mikkungwak: Thank you, Mr. Speaker. I seek unanimous consent to deal with my motion today.

Speaker: The member is seeking unanimous consent to deal with his motion today. Are there any nays? There are none. Please proceed, Mr. Mikkungwak.

Motion 004 – 4(3): Extended Sitting Hours and Days

Mr. Mikkungwak: Thank you, Mr. Speaker and my colleagues.

I move, seconded by the Hon. Member for Aggu, that the Speaker be authorized to set such sitting hours and days as the Speaker deem fit to assist with the business before the House during the fall 2015 sitting of the Legislative Assembly.

Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the motion. All those in favour. (interpretation) Thank you. (interpretation ends) Opposed. The motion is carried.

Item 16. Motions. (interpretation) Member Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Speaker. I seek unanimous consent to deal with my motion today.

Speaker: The member is seeking unanimous consent to deal with his motion today. Are there any nays? There are none. Please proceed, Mr. Savikataaq.

Motion 005 – 4(3): Censure of the Member for Rankin Inlet North-Chesterfield Inlet

Mr. Savikataaq: Thank you, Mr. Speaker. Thank you, my colleagues.

WHEREAS subsection 18(1)(c) of the *Legislative Assembly and Executive Council Act* provides that the Legislative Assembly has the power to discipline its members;

AND WHEREAS it is incumbent upon all Members of the Legislative Assembly to conduct themselves according to the highest standards of behaviour;

AND WHEREAS the Member for Rankin Inlet North-Chesterfield Inlet pleaded guilty in the Nunavut Court of Justice on June 4, 2015 to charges related to impaired driving;

AND WHEREAS subsection 11(2) of the *Legislative Assembly and Executive Council Act* provides that the Legislative Assembly may determine what discipline is appropriate in such circumstances;

AND WHEREAS the Legislative Assembly wishes to affirm its strong opposition to impaired driving;

AND WHEREAS the Legislative Assembly acknowledges that the [member] has taken full responsibility for his actions, taken steps to fulfill the terms and conditions of the court's judgment, and apologized to his constituents and colleagues;

NOW THEREFORE I MOVE, seconded by the Hon. Member for Tununig, that the Member of the Legislative Assembly for Rankin Inlet North-Chesterfield Inlet be censured.

Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the motion. All those in favour. (interpretation) Thank you. (interpretation ends) Opposed. The motion is carried.

Item 17. First Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Item 17: First Reading of Bills

Hon. Keith Peterson: Mr. Speaker, I request consent of this Assembly to waive the two-day notice requirement to allow for the first reading of Bill 1, *Supplementary Appropriation (Operations and Maintenance) Act, No. 3, 2014-2015*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day waiting rule so that Bill 1 can be read today for the first time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

Bill 01 – Supplementary Appropriation (Operations & Maintenance) Act, No. 3, 2014-2015 – First Reading

Hon. Keith Peterson: Mr. Speaker, I move, seconded by the Hon. Member for Pangnirtung, that Bill 1, *Supplementary Appropriation (Operations and Maintenance) Act, No. 3, 2014-2015*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day...

(interpretation) I'm sorry. (interpretation ends) The motion is in order. All those in favour. Opposed. The motion is

carried and Bill 1 has received first reading.

Item 17. First Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I request consent of this Assembly to waive the two-day notice requirement to allow for the first reading of Bill 2, *Supplementary Appropriation (Operations and Maintenance) Act, No. 1, 2015-2016*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day waiting rule so that Bill 2 can be read today for the first time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

**Bill 02 – Supplementary
Appropriation (Operations &
Maintenance) Act, No. 1, 2015-
2016 – First Reading**

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 2, *Supplementary Appropriation (Operations and Maintenance) Act, No. 1, 2015-2016*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. All those in favour. Opposed. The motion is carried and Bill 2 has received first reading.

Item 17. First Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Mr. Speaker, I request consent of this Assembly to waive the two-day notice requirement to allow for the first reading of Bill 3, *Appropriation (Capital) Act, 2016-2017*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day waiting rule so that Bill 3 can be read today for the first time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

**Bill 03 – Appropriation (Capital) Act,
2016-2017 – First Reading**

Hon. Keith Peterson: I move, seconded by the Hon. Member for Pangnirtung, that Bill 3, *Appropriation (Capital) Act, 2016-2017*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. All those in favour. Opposed. The motion is carried and Bill 3 has received first reading.

Item 17. First Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I request consent of this Assembly to waive the two-day notice requirement to allow for the first reading of Bill 4, *Write-off of Assets Act, 2014-2015*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day waiting rule so that Bill 4 can be read today for the first time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

Bill 04 – Write-off of Assets Act, 2014-2015 – First Reading

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 4, *Write-off of Assets Act, 2014-2015*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. All those in favour. Opposed. The motion is carried and Bill 4 has received first reading.

Item 17. First Reading of Bills. The Hon. Minister responsible for the Workers' Safety and Compensation Commission, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I request consent of this Assembly to waive the two-day notice requirement to allow for the first reading of Bill 5, *An Act to Amend the Safety Act*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the two-day waiting rule so that Bill 5 can be read today for the first time. Do members agree?

Some Members: Agreed.

Speaker (interpretation): Thank you. (interpretation ends) There is agreement. Mr. Peterson, please proceed.

Bill 05 – An Act to Amend the Safety Act – First Reading

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 5, *An Act to Amend the Safety Act*, be read for the first time. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. All those in favour. Opposed. The motion is carried and Bill 5 has received first reading.

Item 18. Second Reading of Bills. Hon. Minister of Finance, Mr. Peterson.

Item 18: Second Reading of Bills

Bill 01 – Supplementary Appropriation (Operations & Maintenance) Act, No. 3, 2014-2015 – Second Reading

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 1, *Supplementary Appropriation (Operations and Maintenance) Act, No. 3, 2014-2015*, be read for the second time.

This bill makes supplementary appropriations to defray the operations and maintenance expenses of the Government of Nunavut for the fiscal year ending March 31, 2015. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the principle of the bill. Question has been called. All those in favour. Opposed. The motion is carried and Bill 1 is referred to the Committee of the Whole.

Item 18. Second Reading of Bills. Hon. Minister of Finance, Mr. Peterson.

**Bill 02 – Supplementary
Appropriation (Operations &
Maintenance) Act, No. 1, 2015-
2016 – Second Reading**

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 2, *Supplementary Appropriation (Operations and Maintenance) Act, No. 1, 2015-2016*, be read for the second time.

This bill makes supplementary appropriations to defray the operations and maintenance expenses of the Government of Nunavut for the fiscal year ending March 31, 2016. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the principle of the bill. Question has been called. All those in favour. Opposed. The motion is carried and Bill 2 is referred to the Committee of the Whole.

Item 18. Hon. Minister of Finance, Mr. Peterson.

**Bill 03 – Appropriation (Capital) Act,
2016-2017 – Second Reading**

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 3, *Appropriation (Capital) Act, 2016-2017*, be read for the second time.

This bill authorizes the Government of Nunavut to make capital expenditures for the fiscal year ending March 31, 2017. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the principle of the bill. Question has been called. All those in favour. Opposed. The motion is carried and Bill 3 is referred to the Committee of the Whole.

The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 4, *Write-off of Assets Act, 2014-2015*, be read for the second time.

This bill authorizes the write-off of assets in accordance with section 82 of the *Financial Administration Act*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the one-day waiting rule so that Bill 4 can be read today for the second time. Can I ask the minister to read the bill again? Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by... .

Speaker: We will have a five-minute break. Thank you.

>>*House recessed at 15:45 and resumed at 16:10*

Speaker (interpretation): Thank you. (interpretation ends) Item 18. Second Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Thank you, Mr. Speaker. I thank you for the opportunity to go for an early coffee break earlier. I apologize to my colleagues for the mishap here.

Mr. Speaker, I request consent of this Assembly to waive the one-day notice requirement to allow for the second reading of Bill 5, *An Act to Amend the Safety Act*. Thank you, Mr. Speaker.

Speaker: The minister is seeking consent to waive the one-day waiting rule so that Bill 5 can be read today for the second time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

Bill 05 – An Act to Amend the Safety Act – Second Reading

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 5, *An Act to Amend the Safety Act*, be read for the second time.

This bill amends the *Safety Act* to provide more clearly for occupational health and safety programs, committees, and representatives, and a workplace hazardous materials information system. It also repeals and replaces provisions of the 2003 amendments to the *Safety Act*

which were never brought into force. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the principle of the bill. Question has been called. All those in favour. (interpretation) Thank you. (interpretation ends) Opposed. The motion is carried and Bill 5 is referred to the Standing Committee on Legislation.

Second Reading of Bills. The Hon. Minister of Finance, Mr. Peterson.

Hon. Keith Peterson: Mr. Speaker, I request consent of this Assembly to waive the one-day notice requirement to allow for the second reading of Bill 4, *Write-off of Assets Act, 2014-2015*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The minister is seeking consent to waive the one-day waiting rule so that Bill 4 can be read today for the second time. Do members agree?

Some Members: Agreed.

Speaker: There is agreement. Mr. Peterson, please proceed.

Bill 04 – Write-off of Assets Act, 2014-2015 – Second Reading

Hon. Keith Peterson: Thank you, Mr. Speaker. I move, seconded by the Hon. Member for Pangnirtung, that Bill 4, *Write-off of Assets Act, 2014-2015*, be read for the second time.

This bill authorizes the write-off of assets in accordance with section 82 of

the *Financial Administration Act*. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) The motion is in order. To the principle of the bill. Question has been called. All those in favour. Opposed. The motion is carried and Bill 4 is referred to the Standing Committee on Legislation.

Item 19. Consideration in Committee of the Whole of Bills and Other Matters. Bills 1, 2, and 3, and Tabled Documents 107 – 4(2) and 149 – 4(2) with Mr. Mikkungwak in the Chair.

I ask members to stay at their desks so that we can proceed directly to the Committee of the Whole.

(interpretation) Sergeant-at-Arms.

Item 19: Consideration in Committee of the Whole of Bills and Other Matters

Chairman (Mr. Mikkungwak): Thank you. I would like to call the committee meeting to order. In Committee of the Whole, we have the following items to deal with: one, Tabled Document 107 – 4(2); two, Tabled Document 149 – 4(2); three, Bills 1, 2, and 3. What is the wish of the committee? Mr. Rumbolt.

Mr. Rumbolt: Thank you, Mr. Chairman. We wish to commence with the review of Bill 3, capital appropriation for fiscal year 2016-17, starting with the Department of Economic Development and Transportation and followed by the Nunavut Housing Corporation. Thank you, Mr. Chairman.

Chairman: Thank you, Mr. Rumbolt. Are we in agreement that we first deal with the capital estimates for the Department of Economic Development and Transportation?

Some Members: Agreed.

Bill 03 – Appropriation (Capital) Act, 2016-2017 – Economic Development and Transportation – Consideration in Committee

Chairman: Thank you. I would now like to ask the Minister of ED&T if she has officials that she would like to appear before the committee.

Hon. Monica Ell-Kanayuk: Yes. Thank you, Mr. Chairman.

Chairman: Thank you. Does the committee agree to let the minister's staff go to the witness table?

Some Members: Agreed.

Chairman: Thank you. (interpretation) Sergeant-at-Arms, please escort the officials in.

(interpretation ends) Thank you. For the record, Hon. Minister, please introduce your officials.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. On my left is my Deputy Minister, Pauloosie Suvega, and on my right is Art Stewart, Acting Assistant Deputy Minister, Transportation, and in the gallery is Director of Finance and Administration Tanya Winmill. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. You can now make your opening comments, Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Chairman. I am pleased to be here today to review the Department of Economic Development and Transportation capital plan for 2016-17 with the Committee of the Whole. The department is proposing a \$68,325,000 capital plan for the 2016-17 fiscal year.

Airports

A significant portion of this budget contains funding in the amount of \$59,825,000 for the Iqaluit International Airport Improvement Project. As members know, this project is the largest and most complex project that this government has undertaken. I am pleased to report that this project is proceeding on time and on budget.

Another airport improvement project is the Taloyoak Air Terminal Building, although not as big as the Iqaluit project, which is just as important for community residents. The current facility was constructed in 1980 and is the last of the “freezer” style air terminal buildings in the Kitikmeot region. It has reached the end of its useful life. I am pleased to announce that \$2 million has been allocated to commence the construction of this much needed facility in 2016-17.

Mr. Chairman, in addition to the funding for the Iqaluit International Airport and the Taloyoak Air Terminal Building, there are other airport projects, more precisely airport equipment purchases, under \$250,000 which are grouped

together under the heading of “Small Capital Projects.”

We have allocated \$600,000 to complete seven projects, which will include runway inspection vehicles for Kugluktuk and Resolute Bay, runway compactors for Kugaaruk and Arctic Bay, snow blower attachments for Cape Dorset and Taloyoak, and loader attachments for Rankin Inlet.

Several larger equipment purchases will be made under the “Transportation Equipment and Facilities” project heading. Under this heading, we have allocated \$1.7 million to purchase loaders for Cape Dorset and Sanikiluaq, a plow truck for Baker Lake, a grader for Naujaat, and a self-propelled snow blower for Resolute Bay.

My apologies, I am not sure about the Inuktitut place names. They’re written in the syllabic versions.

Regional Visitor Centres

The Kivalliq is the only Nunavut region without a visitor centre. A final design for the Kivalliq Regional Visitor Centre was prepared during fiscal year 2015-16. Funding in the amount of \$3 million has been identified to begin the construction phase in 2016-17.

Another \$100,000 in small capital funding will be set aside to continue renovations required at the visitor centre in Iqaluit.

Small Craft Harbours

We have included \$500,000 in this capital plan for our Small Craft Harbours Program, which is used to make minor

improvements to community marine facilities across Nunavut. While modest, this investment demonstrates our commitment to the development of marine infrastructure and is essential to our continued efforts to encourage the Department of Fisheries and Oceans to invest in small craft harbours in Nunavut.

(interpretation ends) Mr. Chairman, we propose making the majority of the funding for community marine facilities available to communities under contribution agreements so that communities can work on the priority projects they have identified.

Motor Vehicles

The Motor Vehicle Information System, or MVIS, as we call it, is being developed in close collaboration with the Department of Community and Government Services' Informatics Planning Division. The system's hardware, software, and operating system are now obsolete and have been experiencing periodic failures in recent years. The acquisition of a new MVIS will ensure the protection of this important source of information.

Initially, it was estimated that such a system could be purchased for \$4.5 million. However, following a request for proposals, it is now apparent that the cost of the preferred system will be considerably more than budgeted. The department is currently working with CG&S Procurement and Informatics Planning to evaluate options for this project. Unfortunately, timing issues around the capital planning cycle and the conclusion of the RFP process for the new MVIS meant that an updated budget

could not be incorporated into the department's 2016-17 [capital plan].

We are requesting an appropriation of \$500,000 for 2016-17 as per the original project schedule. If necessary, once a final budget and project plan has been developed, we will be seeking a supplementary appropriation for the balance of the project budget. I ask my fellow members for patience and understanding as we work to replace this important piece of IT infrastructure that supports a very critical public service.

Conclusion

In conclusion, this capital plan was put together with much consideration given to prudent spending and projects that focus on safety, which is our number one concern. I believe that this plan is in line with the department's mandate as we continue to strengthen partnerships with the federal government, with industry, and with our communities to ensure that the investments we make in Nunavut have a lasting impact on the economic and social future of our territory.

I will be glad to answer questions from my fellow members. (interpretation)
Thank you, Mr. Chairman.

Chairman: Does the chair of the standing committee have opening comments? Please proceed, Mr. Rumbolt.

Mr. Rumbolt: Thank you, Mr. Chairman. I am pleased to provide opening comments on behalf of the Standing Committee on Community and Economic Development concerning its review of the proposed 2016-17 Capital Estimates of the Department of

Economic Development and Transportation.

The department's proposed capital budget for 2016-17 is \$68,325,000. The department's capital budget was \$81,426,000 for the 2015-16 fiscal year and \$35,968,000 for the 2014-15 fiscal year.

Mr. Chairman, as you will recall, the need to ensure that Nunavut communities have adequate marine infrastructure has been an ongoing issue of concern for the standing committee. The standing committee notes that the recent federal-territorial announcements concerning new marine infrastructure projects in Iqaluit and Pond Inlet both stated that "funding is conditional on the project meeting applicable federal eligibility requirements with respect to the New Building Canada Fund and the signing of a contribution agreement." Members look forward to the introduction of supplementary appropriation requests to fund the Government of Nunavut's share of these projects.

On June 5, 2009, the government's updated Nunavut Transportation Strategy was tabled in the Legislative Assembly. Some of the objectives of the strategy are to "implement the federal Small Craft Harbours (SCH) Program in Nunavut," "act on the *Nunavut Small Craft Harbours Report*," and "Extend the Small Craft Harbours program to other communities."

In August of 2015, the department's *Community Transportation Initiatives Program Policy* was revised. Schedule A of the policy details departmental support for "access roads and

community marine infrastructure." Schedule B details departmental support for "small craft harbour capital contributions."

The Department of Economic Development and Transportation's proposed 2016-17 capital estimates include \$500,000 in funding for small craft harbour capital contributions. This amount has been included in the department's annual capital estimates since the 2009-2010 fiscal year. Members continue to encourage the department to focus on improvements to community marine infrastructure that will enhance the safety of boaters and the protection of equipment.

During the minister's recent appearance before the standing committee, members posed a number of questions and interventions concerning the methodology by which her department approves applications for capital contributions under its \$500,000 small craft harbour capital contributions budget. Members noted that the department's current practice appears to be based on providing contributions to the greatest possible number of applicants rather than focusing on fully funding a smaller number of projects during each fiscal year. Members recommend that the department reconsider this approach.

Members note that the department's recently revised *Community Transportation Initiatives Program Policy* provides that the "Minister [of Economic Development and Transportation] will table annually in the Legislative Assembly a summary of contributions detailing the amount of each contribution, the type of initiative

being supported and community.” The standing committee looks forward to the timely tabling of departmental annual reports on contributions made under both Schedule A and Schedule B of the policy.

Mr. Chairman, some of the objectives of the current Nunavut Transportation Strategy are to “Assure the integrity of the Nunavut transportation system by ensuring every community has infrastructure adequate for its needs within that system” and to “Enhance the current airport system.” Other objectives are to “Rationalize government use of the transportation system” and “revisit the government Air Services Study.”

The department’s current business plan indicates that a 20-year capital needs assessment for Nunavut airports “has been completed and will be tabled in the Legislative Assembly.” Members continue to look forward to this important document being tabled in the Legislative Assembly.

In June of 2015, the Legislative Assembly approved over \$15,831,000 in capital carryovers for the department, the majority of which were related to airport improvement projects in a number of communities. The standing committee remains concerned about the volume of capital carryovers brought forward by the department in recent years. Members also remain concerned about the inclusion of projects in the capital estimates that remain at the class “X” stage of development.

Members note that local and regional airport projects are eligible for consideration under the federal government’s New Building Canada

Fund. The standing committee supports departmental efforts to obtain federal funding for major airport construction initiatives, including initiatives that require relocation of existing facilities.

The department’s proposed 2016-17 capital estimates include approximately \$59.8 million in funding for the Iqaluit International Airport Improvement Project, which is being undertaken as a public-private partnership.

On July 10 of 2014, the government announced the start of construction of this project. The standing committee encourages the minister to provide regular updates to the Legislative Assembly concerning the status of this project, including the extent to which Inuit employment targets are being met.

Members encourage the department to be mindful of the potential impact of major economic development projects, such as the Mary River mine, on the development of new regional hub airports.

Members also encourage the minister to provide regular updates to the Legislative Assembly concerning her department’s work with NAV CANADA and the Northern Air Transport Association concerning such matters as navigational aids and airport infrastructure.

The standing committee also continues to encourage the Department of Economic Development and Transportation to work closely with the Department of Community and Government Services and municipalities to ensure that adequate supplies of

granular materials are available for use at airports.

The department's 2010-11 capital estimates included \$700,000 in funding for a new Kivalliq Regional Visitor Centre. A number of capital carryovers have been approved by the Legislative Assembly in recent years for this project. The department's current five-year capital plan indicates that it will spend a total of approximately \$5.95 million on this project, with funding resuming in the 2016-17 fiscal year.

The department's proposed 2016-17 capital estimates include \$2.5 million in funding for small capital projects, the majority of which is for the acquisition of mobile equipment for Nunavut airports.

The department's proposed 2016-17 budget for small capital projects also includes \$200,000 for transportation-related studies and upgrades to existing visitor centres. The standing committee also encourages the minister to report annually, in detail, on her department's actual expenditures in these areas.

Mr. Chairman, in June of 2007, \$66,000 in funding for a Manitoba-Nunavut road study was carried over in a supplementary appropriation. At that time, the department's five-year capital plan included funding for this project. However, subsequent years' capital estimates did not include funding for this initiative.

On April 26, 2013, a news release was issued by the Government of Nunavut and the Government of Manitoba following a meeting of the Hudson Bay Neighbours Regional Round Table. The

release announced that "The proposed winter road from Churchill to Rankin Inlet was a major discussion point at the meeting." Members encourage the Minister of Economic Development and Transportation to work closely on this strategic initiative with the Minister of Community and Government Services, who is the Co-Chair of the Hudson Bay Neighbours Regional Round Table.

The department's 2014-15 capital estimates included \$2.8 million in funding for the replacement of the government's Motor Vehicle Information System. The department's 2015-16 capital estimates included \$1.2 million in funding for this project. During the spring 2015 sitting of the Legislative Assembly, the department sought and received approval for \$2.8 million in capital carryovers for this project.

During the minister's recent appearance before the standing committee, members received an update on the project's budget and look forward to the minister clarifying its status during the current sitting of the House.

Mr. Chairman, the importance of ensuring that such documents as driver's licences and general identification cards are issued in a timely manner to Nunavut residents has been raised in the Legislative Assembly on numerous occasions. Members are hopeful that this investment will improve the efficiency with which such documents are issued in the territory.

The department's current business plan indicates that the new Motor Vehicles Information System will "...enhance services and communication between

MVIS and national information management systems.” Members continue to recommend that the minister publicly clarify her department’s plans with respect to the sharing of Nunavut residents’ personal information with other levels of government.

Members also urge the minister to ensure that her department formally consults with Nunavut’s Information and Privacy Commissioner concerning the privacy impact of this initiative.

Mr. Chairman, that concludes my opening comments on the proposed 2016-17 Capital Estimates of the Department of Economic Development and Transportation. Thank you, Mr. Chairman.

Chairman: Thank you, Mr. Rumbolt. Do members have any general comments? I want to remind members that the contents of the minister’s opening comments are covered in the different branches of the department. If you have detailed questions, please ask them under the appropriate branches.

Are there any general comments? I have no members on my list for general comments. We will now proceed to the page-by-page review of the departmental estimates starting on page K-3. Economic Development and Transportation. Branch Summary. Transportation. Mr. Enook.

Mr. Enook (interpretation): Thank you, Mr. Chairman. I would like to ask some questions coming from the committee, talking about the responses regarding driver’s licences and information that has to do with us as people that is taken by the Motor Vehicles Division. I would

like clarification on that. Please feel welcome, Madam Minister and your officials.

These were concerns brought to us by the people of Nunavut and we have relayed them to you. You have stated that personal information will be used by other levels of government. We were always concerned about that. We have asked the Information and Privacy Commissioner to speak with your department to ensure that none of our private information has been released inappropriately. Have you had a chance to speak with the Information and Privacy Commissioner about the matter? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. (interpretation ends) Hon. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. This hasn’t been approved as of yet and this process is moving forward. With respect to the question of what type of (interpretation ends) personal information (interpretation) would be available, I can’t answer as this isn’t yet started and not approved by the Legislative Assembly. Therefore, we didn’t really want to start the negotiations until it has been approved. We would have an implementation plan outlining the best practices. However, if I can ask, perhaps my deputy minister can explain this better. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega (interpretation): Thank you, Mr. Chairman. Yes, any confidential

matters to be kept from prying eyes are areas we can discuss in the future. In looking at the way it will be set up, we currently have agreements with various organizations and government departments and how they can access this private information. That is our foundation and perhaps we can review the set-up in the future. This can be taken into consideration. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Enook.

Mr. Enook (interpretation): Thank you, Mr. Chairman. I have a totally different mindset. I would prefer if we were informed before it was approved. It would be sad if we approved it and then we realized we're opening up private information to everybody. Wouldn't that cause more difficulty?

You probably know right now who you are able to give private information to. (interpretation ends) I'm sure you have an idea. (interpretation) You should know who you would be giving the information to, like the information that you get about me when I'm trying to get my driver's licence. If you already kind of know where they would go, then what's the problem with talking to the Information and Privacy Commissioner now before it becomes law?

To try to change it after it's made into law, you will say that it's too difficult because it was already approved and it went ahead. Why can't we find out the issues first or would that be too difficult? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you

very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. The Motor Vehicles Division agrees with different jurisdictions in Nunavut and also in southern Canada that deal with such things.

For example, we would have an agreement and we already work through agreements with different regions whenever anyone is trying to get a driver's licence using a different last name. People can try that. They would have a driver's licence in one region, for example, in Ontario, that person could have one name, and then he or she would change his or her name and try to use the new name and get another driver's licence. If we had not known the first name, then we may have never known if their licence had been taken away at some point in the past. We need to know about those things.

For example, if I had a driver's licence and I had broken the law and my licence was taken away at some point and then if we don't come up with an agreement with another region, I can move to another region where we don't have an agreement and be able to inappropriately get a new licence. That's why regions agree with other regions and other jurisdictions about these matters and it's very important that we know those things.

I hope I answered your question. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Enook.

Mr. Enook (interpretation): Thank you, Mr. Chairman. Perhaps if I asked it in this way, it will become more understandable. I have no clue as to whom this department wishes to report to, to which departments or regions. I have no clue as to whom you would report this to or if you would forward that personal information about me, such as when I apply for a driver's licence.

However, I think you are pretty well aware of which body requesting the information would be provided with it. Based on your experiences to date, I imagine you have contemplated it and a draft set-up to use examples. In following the procedures, I believe it would be set up so that other jurisdictions would receive this information. In following that process, wouldn't it be easier to discuss these matters with the Information and Privacy Commissioner before this is implemented?

If we followed this protocol, would it make it easier? That was my only question about holding prior discussions with the Information and Privacy Commissioner so that it is easier. I imagine the department already has plans to that effect as to which departments would receive that information. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. I'll get my deputy minister to explain what other jurisdictions we would give the information to. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega (interpretation): Thank you, Mr. Chairman. If these groups were to be included in the future, they would be involved and in this case, it would be acceptable as it wouldn't be too hard. However, we have to remember that once approval has been received, there would be more groups included.

To use an example, which bodies require this information? The RCMP is one that needs information on occasion, especially in conducting criminal record checks or if that person should be known by the police. This is just an example. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Enook.

Mr. Enook (interpretation): Thank you, Mr. Chairman. I believe that process is one I understand a little more and we are now having common understanding, especially in relation to the discussions. I think I heard you will talk to the Information and Privacy Commissioner about your draft writings to ensure that there is no breach of my privacy. If that is how I understand it, I have no further questions. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. I don't think I heard a question. Following my list of names, Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Chairman. Since we're under Transportation, I do want to go back to her opening comments regarding airports. On page 1, for almost \$60 million, I noted in the substantiation

sheet that this project is a class “C.” So why, for \$60 million, would this be a class “C” and not a class “A”? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you, very much. (interpretation ends) Hon. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. I would like my finance official to come to the witness table, Mr. Chairman, Tanya Winmill.

Chairman: Does the committee agree for the official to enter the witness table?

Some Members: Agreed.

Chairman (interpretation): Sergeant-at-Arms, please escort the official in.

Thank you very much. (interpretation ends) For the record, can you please introduce your official? Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. Tanya Winmill is our Director of Finance and Administration. Also, Mr. Chairman, I don’t think she heard the question, so can the member repeat the question? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak, please repeat your question. Ms. Angnakak.

Ms. Angnakak (interpretation): Thank you. (interpretation ends) I was wondering, reading on page 1 of 6 of the opening comments, it says that “A significant portion of this budget

contains funding” for the amount of \$59 million plus for the Iqaluit International Airport Improvement Project.

When I look at the substantiation sheet for that amount of almost \$60 million, it’s a class “C” and not a class “A.” I’m wondering why it would be a class “C.” For that amount of money, you would expect to have the plan a little clearer. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. The minister has already indicated that her official will respond. Ms. Winmill.

Ms. Winmill: Thank you, Mr. Chairman. I’ll have to look into that further, but I would say that’s an error. It’s not class “C.” They’re done. The design and everything is done, so it should be a class “A.” I will confirm that and get back to the member. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Chairman. We look forward to hearing from you on that to confirm that it’s actually a higher class than “C.”

The other thing I noted in the substantiation sheets, when we talk about the Taloyoak Air Terminal Building, this is \$3 million, I believe. Anyhow, it’s a class “X.” I know that we have talked about this before in the House, that when departments are coming to us for money for their budgets, we really don’t like to see class “X” because that tells me that you probably don’t even have a design. I was wondering, while perhaps Tanya

Winmill is there, she can talk about why that would be a class “X.” Thank you, Mr. Chairman.

Chairman: Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Chairman. I’ll ask our Finance and Administration Director, Ms. Winmill, to respond to that question. Thank you.

Chairman (interpretation): Thank you very much. Ms. Winmill.

Ms. Winmill: Thank you, Mr.

Chairman. I think it’s because a detailed project design wasn’t scheduled until the end of September. This would have been, from my understanding, what Community and Government Services or a consultant provided us. It’s just the first estimate of the cost of the air terminal buildings. Once the final design comes in, the class will change. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak.

Ms. Angnakak: Thank you, Mr.

Chairman. Thank you for your answer. Looking at the substantiation sheet, in prior years, this project was awarded \$400,000 for design. The \$2 million right now, I believe, for 2016-17, it says it’s for construction, yet it’s class “X.” I really don’t understand that and I think we should get a better explanation. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr.

Chairman. I would like to thank the member for asking the question. We will ask that question to finance and we will look into it. Thank you.

Chairman (interpretation): Thank you very much. Ms. Angnakak.

Ms. Angnakak: Thank you, Mr.

Chairman. Okay, we will have to wait for that explanation.

I know that this has been communicated to the finance minister several times that when we see projects come our way in the substantiation sheets that we have class estimates of “X,” it really makes us wonder, “What are we approving?” I think all departments should be reminded.

About the Taloyoak air terminal, have you actually identified any other ATB projects across Nunavut? What’s next after Taloyoak? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Chairman. Before I give this to my deputy minister, I’ll explain further on the RFP for the architectural and engineering design. For the engineering part, the RFP was sent out. We expect that we will hear more in regard to that at the end of October. I’ll ask my deputy minister to explain further on that. Mr. Chairman, to Mr. Suvega.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega (interpretation): Thank you, Mr. Chairman. The airport buildings or (interpretation ends) air terminal buildings (interpretation) that move forward are based on a study within our departmental (interpretation ends) 20-year capital needs assessment. (interpretation) However, this is just a study we use to review each case for the capital plans and projects.

Through the review, the projects move forward to capital plans in the future as we are still trying to finalize our areas we study as to which facility requires replacement. In looking at the situation now, it is hard to tell as there will be other projects that need to be undertaken, as the majority of the air terminal buildings are antiquated. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Chairman. I thank you for your response. Have you done an analysis on ATBs throughout Nunavut? Except perhaps Arctic Bay, I know they just got a new one, how many ATBs do you think over the next couple of years are really going to need to be looked at to be replaced? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. I don't have the information in front of me as to where we are going, so I will ask Deputy Minister Suvega to respond. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega (interpretation): Yes, it is almost impossible to respond to that question.

What I can state is that airport facilities, such as the airstrips and airport terminal buildings, and other resources are important to the department. They are our only means of travelling to and from the communities. What I can state at this time is that in analyzing the various buildings such as the age factors and which buildings need to be constructed first or alternatively, the buildings that are facing safety issues, those would be prioritized when being placed in the future plans.

I hope I responded to your question. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak.

Ms. Angnakak: Thank you, Mr. Chairman. That was going to be my last question, but something has come up.

Your department's 2015-18 business plan indicates that the 20-year capital needs assessment for Nunavut airports has been completed, and it was going to be tabled in the Legislative Assembly, which we haven't seen yet, I don't think.

On June 1, 2015, the minister stated in the Legislative Assembly that "The 20-year capital needs assessment is complex" and that your department "will be looking at this again in the fall..."

As of today, what is the status of your department's 20-year capital needs

assessment for Nunavut airports? I think ATBs would perhaps be included in that assessment. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. I have a little bit of information in front of me here, but I have more information at my other desk.

For capital projects, I don't have a copy of that, but I can try and respond to you from memory. We haven't made any plans in the 20-year capital needs assessment. It would have to be approved by cabinet. At this time, we're working on how we can move ahead with some of them. This hasn't been completed yet. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Ms. Angnakak is done. Before we proceed to another member for questions, we will take a five-minute break. Thank you very much.

>>Committee recessed at 17:07 and resumed at 17:18

Chairman (interpretation): Thank you very much. We will continue with our meeting. We are on page K-3. Following my list of names, Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. I just have a supplement to make.

When Ms. Angnakak was asking a question, I heard the response, but I recall having asked in the past about which communities were being

considered for air terminal buildings. I asked the minister before and I don't exactly recall who it was at the time, but three communities were identified when they responded to my question.

I know the Naujaat Air Terminal Building was one of them and I don't quite recall the other two, but I think one of them was for Gjoa Haven. Are there any specific air terminal buildings that they are planning or where one is needed? She said that there was no decision, but I recall quite clearly last year that they identified three communities. Are those communities not on the list anymore? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. He asked about air terminal buildings in the communities. Is that about equipment in the building? Can you specify that more clearly? I'm sorry, Mr. Chairman.

Chairman (interpretation): Thank you very much. Please clarify your question. Mr. Mapsalak.

Mr. Mapsalak (interpretation): There is something written here about an air terminal building for Taloyoak and it has been allocated \$2 million. I asked before which communities they were looking at prioritizing for air terminal buildings. They identified three communities to me before. I remember clearly that Naujaat was one of them. Don't you have that list anymore? I seem to have heard that you still haven't identified which community airports will get new air

terminal buildings. Maybe that's clearer. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. Naujaat's air terminal building was built in 1981. The Chesterfield Inlet Air Terminal Building was built in 1984. Whale Cove, Taloyoak, and Kimmirut are being looked at, but to date, we have not decided how we will proceed. All of them need work. I'll let my deputy minister respond to that more clearly. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega (interpretation): Thank you, Mr. Chairman. We have tried to identify which buildings will be replaced, but before they're studied or identified, we cannot respond to that definitively.

With respect to the communities identified in our future plans to determine which terminal buildings need replacement or new facilities, we base our decisions on the review of terminal buildings or other airport-related matters. We're reviewing these issues as part of the capital estimates approvals. When projects aren't approved, it can lead to safety issues. We try to identify which facilities are the priority, but it is mainly just a review of the plans. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. I have stated before that there are just over 1,000 people living in Naujaat now and the terminal building is extremely small. I have stated that some people have to wait outside if they're leaving the community because the terminal building is too full. I have stated in the past that even the residents of the community ask, "When do we get a new terminal building?" They have to wait outside even in the wintertime. I would like them to be aware of that.

Moving along, I have also asked this question before. We have to approve the money set aside for Iqaluit on an annual basis. I recall very clearly that I asked about the funding that is allocated for the terminal building that is being built in Iqaluit. I asked if they would not be spending more than \$30 million and they said yes, but I know that they have added some more funding to that. Right now, they have requested almost \$60 million. How long will funding be provided? Is it until the day it's finished or is more funding going to be made available even after it is finished? Will they be providing this much funding or is there a limit to how many millions have to be allocated? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. First of all, I will answer that many of the terminal buildings in Nunavut are old, more than 25 years, and we're aware that they need improvements or replacement. Right now, they're being reviewed by our staff as to which terminal buildings can go

ahead so we can move forward. There are many buildings and we would have to request funding; some of it from the federal government. Once we start planning for these projects, we want to start working on many projects with the Canadian government.

I would like to say that the Iqaluit airport project does not affect any other projects that need to be done. For the amount of funding that he asked about, I'll have the finance person, Ms. Winmill, respond to that question. Before I pass it along, our first priority is the safety of people. That is the first thing that should be looked at as to whether there are safety concerns. Thank you, Mr. Chairman. I'll pass it over to Ms. Winmill to answer part of the question.

Chairman (interpretation): Thank you very much. Ms. Winmill.

Ms. Winmill: Thank you, Mr. Chairman. The allocation for the airport project we're requesting is almost \$60 million this year and then next year, it's \$48 million. That's for the construction of the air terminal building, the combined services building, the updated lighting, and the runaway repairs.

Going forward after that, as part of the contract over the 34 plus years that AILP has the contract to operate and maintain the airport, is the scheduled rehab to be done throughout it because when they turn back the airport after 34 years, everything needs to be in a certain condition. We have guaranteed that condition through this project throughout the 34 plus years or 35 years. There is rehab to be done on it, but the bulk of the money is finished with the appropriation in the 2017-18 fiscal year.

I hope that answers what you're asking. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. In the response the minister gave about the terminal building in Iqaluit, before I talked about that, she stated that safety concerns are addressed first for terminal buildings in the communities. In my view, there are safety concerns when people have to wait outside in the winter.

Exactly how much is the government going to spend for the project in Iqaluit? I asked that question too. What is the limit of the funding that will be allocated for the construction? What is the limit of the funding that will be made available for this project? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. This is a financial matter, so I would like Ms. Winmill to respond to that. Thank you.

Chairman (interpretation): Thank you very much. Ms. Winmill.

Ms. Winmill: Thank you, Mr. Chairman. The cost of the project, if I remember correctly, is \$285 million and then we get funding from P3 Canada. I can't remember what the final number was. The financial quote was somewhere around \$70 million and that is then it for the construction for this part of the project. Going forward, it is a 30-year

contract and there are costs after the initial one going forward. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. I understand it is just under \$300 million and they will not spend more than that and not exceed that number. Do I understand that correctly? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. We have stated over and over again that the project is going ahead properly, it is within budget, and it is on schedule. Today, that is the same situation; they're caught up on the project. I cannot see into the future and I cannot state that we will spend more than that. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. Indeed, I suppose that it is limited. Any capital project has a set budget and funds specific to the construction costs. However, I just heard earlier that the government will provide further funding over 34 years. We have no idea how much it would accrue over that period. For this capital funding over the 34-year time period, will this be funded entirely from the capital funding? I refer to the 34-year lifespan that was alluded to as having to be from the capital funds. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. Yes, it is through an agreement and the agreement indicates exactly how much is going to be set aside every year for 35 years. I will have Ms. Winmill respond to that question. Thank you.

Chairman (interpretation): Thank you very much. Ms. Winmill.

Ms. Winmill: Thank you, Mr. Chairman. There are many components and this agreement is very complex. There will be a repay back because the private partner is financing part of this project on our behalf, so we're paying that back over 30 years. That's a component on top of it. The price for the construction comes in at \$285 million and we pay back a portion of that over 30 years because they financed it for us, as well as we're paying them a stream of funding monthly to operate and maintain the airport, and then there are components also to do work and to rehabilitate mostly runway work throughout the 30 years.

There are different components in the contract. It's not just to do the initial build of the ATB, the CSB, and the runway and lighting. There's also an operations and maintenance component to it, as well as the payback of the debt. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): Thank you, Mr. Chairman. I didn't hear a

response to the question. This money will be coming from the Nunavut government to be used for the airport improvements. Will the money that is coming from the Nunavut government be coming out of the capital budget and will this money always come from the capital estimates for 35 years? Are these monies always going to be from here or not? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Yes, it will come from the capital estimates, but there are also the O&M costs that are not coming from this line item. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Mapsalak.

Mr. Mapsalak (interpretation): I wanted that response and thank you. We have these monies that will be used for the international airport improvements. Is there going to be a pot of money set aside for the Iqaluit airport every year for 35 years and is it going to be around \$59 million to \$60 million? I'm sure that will go up to \$1 billion some time along the way. That's the understanding I got.

I know that we do need an air terminal in Iqaluit, but we have to pay for it for 35 years or so. Do I understand that before the improvement is completed, we might not see another air terminal being built in the other Nunavut communities? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Chairman. I have been saying repeatedly that the air terminal in Iqaluit is not going to have an effect on the building of infrastructure or air terminals in the other Nunavut communities. If that was the case, we wouldn't even be considering Taloyoak. Taloyoak is also included here and we will be looking at having it approved by the Legislative Assembly. We wouldn't even be seeing Taloyoak if the building of the Iqaluit air terminal had an effect.

Mr. Chairman, it's going to be constructed in three years. We are at the second year and the third year is going to be the final year. At the completion, we will see a gradual decrease in the amount of funding in the later years. Yes, we will see an eventual decrease over the years. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Following the list of names, we are on (interpretation ends) Economic Development and Transportation. Branch Summary. Transportation. K-3. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. I just want to go back a bit again to Ms. Angnakak's question about the 20-year capital needs assessment for Nunavut airports. In the 2015-18 business plan, you stated that it was complete, but you haven't tabled it. Mr. Suvega also said that they've got to talk with other departments and Finance before it's tabled.

I don't understand why it's so hard to table and publish it because there is no funding attached to this airport needs assessment. I don't see it any different

than if the housing corporation does a housing needs assessment. They just tell you what you need. They're not asking for any money. They're just telling you, "Okay, these are the priorities of houses. This is the needs of Nunavut for housing," if housing did one. This is the Nunavut airport needs study. It's just telling you that these communities need airports. This is the need. There is no money involved. It's just a needs assessment study.

I'm having a hard time [understanding] why it's so hard to table it if it's finished. It was finished back in June, I believe. I will just ask the minister: what is the problem to table a document that has no financial strings attached to it? Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk: Thank you, Mr. Chairman. Back then, that's how I thought too before I started reading the capital needs assessment. Unfortunately, it came to us with dollars attached to it. That seems to have become a problem. We do not want to break any capital process. We are still internally working with other departments to address how it fits in the GN capital process or how it does not fit into the GN capital process.

I have asked my department to look at the document again and whether or not we should just completely take out the dollars from the document because I am committed to tabling it and we need to find a solution on how I can get it to the members. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. I thank the minister for the explanation. I think that what she suggests about taking the dollar figures out and tabling it will be just fine because it would have to go through the capital process anyway, and then we could look at the dollar figures. I think most members just want to know what the needs are with Nunavut airport buildings and runways or whatever all this assessment study does. I would encourage the minister to do that.

At the current time, we would just like to see what is needed, not on how much it would cost to fix to the problem. We can deal with the financial part of it when it goes through the five-year capital plan. We don't want to see the Government of Nunavut's overall capital plan being hijacked by one study. We just want to know what's needed. Does Gjoa Haven need it really badly? Does Repulse Bay? Does Arviat? We would like to know what is needed. That's just a comment on that.

To go on a different matter now, my counterpart, Mr. Enook, talked about MVIS a little bit too and I would just like to go back to talking about that. You have asked for \$500,000 to complete it. In your opening comments, you also stated that after the RFP, you realized that it is going to cost more than what you budgeted. If the \$500,000 is not enough for the project, what is a figure that will be enough? Thank you.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk: Thank you, Mr. Chairman. I don't think I can exactly say how much it will cost in the

end. We have an idea, but until we go through this budgeting process that we're currently under, and we also have to go back to the preferred proponent to see if we cannot communicate with them on how we can reduce our costs, we don't exactly know what the actual end amount will be at this time. Thank you, Mr. Chairman.

Chairman: Thank you. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. Back in 2014-15, \$2.8 million was allocated for MVIS and then in 2015-16, there is \$1.2 million allocated, which comes out to \$4 million. You're asking for another \$500,000 for 2016-17. How much of the \$4 million to date has been spent? Thank you.

Chairman: Thank you very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk: Thank you, Mr. Chairman. None.

Chairman: Thank you. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. You have \$4 million sitting there that has not been spent and you're asking for another \$500,000, and you know that it is not enough for a budget. I don't know the workings of government, but how did you figure out it's not enough without spending any money? Did you just put out a bid? No money has been spent and you know that the money that is allocated is not enough. I was just wondering how you came to that conclusion. Thank you.

Chairman: Thank you. Minister Ell-Kanayuk

Hon. Monica Ell-Kanayuk: Thank you, Mr. Chairman. Initially when this was first estimated, it was thought that it could be purchased for \$4.5 million. However, after the request for proposals was out and closed this fall, it was determined that the preferred system would be at a higher cost. Thank you, Mr. Chairman.

Chairman: Thank you. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. Just for the benefit of the members here because we're not familiar with how all this stuff works, when you ask for a request for proposals, are they free or does the government pay for someone to write a proposal? Thank you.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk

Hon. Monica Ell-Kanayuk: Thank you, Mr. Chairman. A request for proposals is normally a request to ask vendors to let us know what their cost would be to do XYZ. In this case, it's software and systems for the Motor Vehicle Information System. To the actuals, I will ask Deputy Minister Suvega to answer that question. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Suvega.

Mr. Suvega: Thank you, Mr. Chairman. As the minister mentioned, we do work with the Procurement Division of Community and Government Services to try and determine what some of these projected project costs might be. Sometimes the bids will come back at a higher price and we have to rethink or

redetermine what the request might be going forward and that has happened in this case.

A few factors to mention in that the market for these types of systems, the market price for things like software and design increase this year. It's not something within our control. We are looking at this with the Department of Community and Government Services to see how we can best look at dealing with this requested increase. Depending on the direction or the decisions coming out of here, we will have to relook at these options, but it will be in partnership with Community and Government Services. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr. Chairman. Thanks for the explanation. I don't think we have any qualms about the cost of the project because that is out of your control, but it's just the process here that I'm questioning. You have \$4 million that you have not spent. You're asking for another \$500,000, which you absolutely know for certain is not enough and you're going to ask for a supplementary appropriation to come up with an appropriate amount.

In my opinion or in my way of thinking, wouldn't it be easier not to even ask for this \$500,000 and just include it in a supplementary appropriation? You know that this \$500,000 that you're requesting is not enough. The total budget you have is not enough and I'm just wondering why it's being done like this. I'm just questioning the process of how you're going for the money, "piecemealing" it instead of just coming back and say,

"Okay, this is how much the project costs, it's out of our control, and we need this much more extra money to do the complete job." I would just like an answer on why this way. Thank you.

Chairman (interpretation): Thank you very much. Minister Ell-Kanayuk.

Hon. Minister Ell-Kanayuk (interpretation): Thank you, Mr. Chairman. We're here right now for the purpose of getting our capital estimates approved. I'm not a finance person, but for things like this, we need to plan way ahead of time as to how much these capital projects are going to cost. When it was initially discussed, we worked with other departments and we had options.

There was a \$4.5 million price tag. We put the request for proposals together this spring, the RFP came out this summer in 2015, and it closed in September, I believe it was, or it might have been at the end of August. When they were looking at the RFPs, it became very obvious that the whole thing is going to cost more. That's all I can say.

There's no infrastructure put up with the project that we're working on. There's no building. It's a computer system and the price of computer software really fluctuates out there and we cannot control that. We can't even estimate or we can't even say exactly how much the system will cost at the end. I really don't know how to answer that question, Mr. Chairman.

Chairman (interpretation): Thank you very much. Mr. Savikataaq.

Mr. Savikataaq: Thank you, Mr.

Chairman. I'm not questioning the amount of the project. I would just like to see it completed because we all hear the stories where it takes a year to renew your driver's licence and it takes forever before you can get your ID, and you have to have these IDs to travel, even if it's for medical.

We would just like to see the project started and completed. If you need more money, then ask for it. When is the sup bill going to come? We need this project to go ahead because we have heard so many stories about people taking so long to get their driver's licence or their general ID. We have been talking about it since I have been elected and it is two years now. Maybe they talked about it before that, but when do we expect to see a sub-bill to complete this project or to at least start it? Thank you.

Chairman (interpretation): Thank you, very much. Minister Ell-Kanayuk.

Hon. Monica Ell-Kanayuk

(interpretation): Thank you, Mr. Chairman. Once the RFP has ended, negotiations will commence with the company in collaboration with CGS and my department. If these discussions go well, we expect in the winter session to get the assistance of the finance department to help us put together a (interpretation ends) supplementary (interpretation) request at that time. Thank you, Mr. Chairman.

Chairman (interpretation): Thank you, very much. The member is done. Mr. Enook.

Mr. Enook (interpretation): Thank you, Mr. Chairman. I move to report progress.

Chairman: We have a motion on the floor to report progress and the motion is not debatable. We will reconvene with the other members tomorrow. All those in favour of the motion. All those opposed. The motion is carried. I will now rise to report progress to the Speaker. Thank you.

(interpretation) Sergeant-at-Arms, please escort the officials out.

Speaker: Item 20. Report of the Committee of the Whole. Mr. Mikkungwak.

Item 20: Report of the Committee of the Whole

Mr. Mikkungwak (interpretation): Thank you very much, Mr. Speaker. Your committee has been considering Bill 3 and the capital estimates, and would like to report progress. (interpretation ends) Also, Mr. Speaker, I move that the Report of the Committee of the Whole be concurred with. Thank you, Mr. Speaker.

Speaker (interpretation): Thank you. (interpretation ends) There is a motion on the floor. Is there a seconder? Mr. Enook.

>> *Laughter*

(interpretation) Thank you. (interpretation ends) The motion is in order. (interpretation) I apologize. (interpretation ends) All those in favour. Opposed. The motion is carried.

Item 21. Third Reading of Bills. Item 22. *Orders of the Day*. Mr. Clerk.

Item 22: Orders of the Day

Clerk: Thank you, Mr. Speaker. A reminder to members that there's a meeting of the Standing Committee on Legislation at 10:00 a.m. in the Nanuq Boardroom.

Orders of the Day for October 22:

1. Prayer
2. Ministers' Statements
3. Members' Statements
4. Returns to Oral Questions
5. Recognition of Visitors in the Gallery
6. Oral Questions
7. Written Questions
8. Returns to Written Questions
9. Replies to Opening Address
10. Petitions
11. Responses to Petitions
12. Reports of Standing and Special Committees on Bills and Other Matters
13. Tabling of Documents
14. Notices of Motions
15. Notices of Motions for First Reading of Bills
16. Motions
17. First Reading of Bills
18. Second Reading of Bills

19. Consideration in Committee of the Whole of Bills and Other Matters

- Bill 1
- Bill 2
- Bill 3
- Tabled Document 107 – 4(2)
- Tabled Document 149 – 4(2)

20. Report of the Committee of the Whole

21. Third Reading of Bills

22. Orders of the Day

Thank you.

Speaker (interpretation): Thank you. (interpretation ends) This House stands adjourned until Thursday, October 23, at 1:30 p.m. (interpretation) The documents are written incorrectly. It should read October 22. I apologize.

Sergeant-at-Arms.

>>*House adjourned at 18:03*

Appendix – October 21, 2015

Return to Oral Question

Asked by: Mr. Akoak

Asked of: Nunavut Arctic College

Number: 7-4(3)

Date:

Subject: Need for Improved Adult Basic Education

Question:

“In February of 2012, Prime Minister Stephen Harper announced funding of over \$11 million from 2011 to 2016 to improve adult basic education programming across Nunavut.

Can the minister provide an overview of what these funds have been spent on to date and specifically how adult upgrading programs have been improved as a result of this spending?”

Response:

The additional funding has been used improve and expand program delivery with a focus on investing in research in best practices. Highlights of Nunavut Arctic College’s enhancement of Adult Basic Education include investment in:

- Researching on a wide range of topics including the best ways to collaborate with elders, using project-based learning, improving Inuktitut language, making English assessments more relevant and accurate, and integrating new learning technologies to benefit ABE learners;
- Increasing professional development for instructors including assessment, essential skills, and Inuktitut language instruction;

- Developing and adapting resources focusing on culturally relevant curriculum materials, processes, and assessments. The College's new resources and instructional processes adhere to high national standards for ABE, built on a foundation of Inuit knowledge and learning.

As a result of this funding and dedicated work from Nunavut Arctic College staff and its partners:

- The new Nunavut Adult Placement Assessment (NAPA) was completed and is being implemented. NAPA is Canada's first culturally relevant placement tool developed for a college system. It assesses English reading and writing levels using Nunavut specific reading prompts. It was developed and piloted over 27 months with a College team of educators and students.
- The new ABE Inuit Language Curriculum is now completed. It includes new course outlines, integrated teaching and learning resources, as well as evaluation rubrics and assessment tools.
- The Adult Basic Education program is using a number of new Nunavut specific Inuktitut and English instructional resources. Other resource development and program development is ongoing.

With the help of this funding, the college has been able to expand the delivery of the program and increase interest as well as enrollment. In 2011-12 academic year, 47 students were enrolled in ABE courses. In 2014-2015 academic year, the college delivered 29 Adult Basic Education programs across 25 Nunavut communities to 214 adult learners.

Details of the improvements are detailed in the Innarnut Ilinniarniq: Enhancing Adult Basic Education in Nunavut report, which I tabled this in the Legislative Assembly on March 10, 2015 and included as an attachment to this return to oral question.

Innarnut Ilinniarniq

The *Innarnut Ilinniarniq* logo is inspired by the ingenuity and creativity of a traditional fishing lure crafted by respected Elder Mariano Aupilarjuk for use in his teachings. He said the fish lure is a family feeder; it lures the fish to come to you as they never would on their own. He added that our great ancestors were the inventors of this lure, which became the survival tool to feed the family. Aupilarjuk stressed that the knowledge about the fish lure is important as it brings many a fish to some who may have gone hungry. Widely recognized and honoured for his wisdom and teachings of traditional knowledge, Aupilarjuk provides inspiration to adult learners.

To our partners, staff, supporters & students

We have set out on an exciting journey to enhance our Adult Basic Education (ABE) program to enable Nunavut adult learners to succeed in the workforce, support their families, and strengthen their communities.

Over the past three years, we have developed our ABE Essential Skills program to meet national standards in numeracy and literacy to prepare people to enter the modern workforce.

At the same time, we recognize the profound importance of culture and place as we seek to make ABE programs relevant to our students. Our new initiatives prioritize the revitalization of Inuit culture, language and governance systems. As we work to incorporate Inuit ways of knowing, being and doing, we aim to improve retention and motivation for student success.

I am excited by the interest and investment in Adult Basic Education being made by our leadership – recognizing the role ABE plays as a foundation for lifelong learning. The presence, support and participation from the Minister of Education, the Honourable Paul Quassa at the 2014 Northern Adult Basic Education (NABE) Symposium helps to inspire all of us working in ABE.

The five-year investment by Canadian Northern Economic Development Agency from 2011-2016, along with the support from the Nunavut Arctic College board and management ensures ABE services will continue to evolve and grow well into the future.

I want to thank the adult educators for your initiatives, ideas, and your efforts at taking a bold new approach in your teaching. You are the backbone of ABE success in Nunavut, and your continued willingness to try new approaches, learn new ways of doing things, and sharing your ideas and successes across the North will ensure long-term benefits for your students for many years.

It has also been a privilege to work with our partners across the North – Aurora College and Yukon College, as well as the many content and process experts from both Nunavut and the South in building our new ABE program.

Overseeing this ABE initiative has been a wonderful opportunity for me personally, taking me full circle back to my roots when I started as an adult educator in Pangnirtung in 1989. It has been an honour to work with the many dedicated and talented College managers and faculty over the years.

And last but not least, I want to pass on my sincere thanks to all the students in ABE who continually challenge us to do better – to make our programs more relevant, more effective, and more successful, so you can gain the knowledge, skills, confidence and experience to succeed in Nunavut's future. I wish you the best of luck in your journey ahead.

Executive Summary

Enhanced Adult Basic Education provides more opportunities for learner success

Nunavut Arctic College is enhancing Adult Basic Education (ABE) to better serve adult learners, by developing and delivering culturally relevant, sustainable ABE services based on best practices. Our ultimate goal is to support Nunavut adult learners to succeed in their learning goals, and benefit from opportunities in Nunavut's growing economy.

By investing in Nunavut-specific, culturally relevant ABE services that adhere to high standards, we will increase the participation and graduation rates of our adult learners, enabling Nunavummiut to achieve social health and self-determination, as they gather the necessary skills to obtain employment.

A five year investment: 2012-2016

This report, *Innarnut Ilinniarniq: Enhancing Adult Basic Education in Nunavut* documents Nunavut Arctic College's aggressive, five-year investment plan in ABE made possible with significant funds from Canadian Northern Economic Development Agency through the Northern Adult Basic Education Program (NABEP).

Today, there are 7,500 working age people in Nunavut without a high school diploma. Many people in Nunavut want to change their future, and upgrading through ABE is a first step toward better employment, supporting families, and building stronger communities.

ABE includes education activities that assist adults in achieving sufficient levels of literacy, numeracy and other essential skills to obtain a job, benefit from occupational training, or gain entry into post-secondary studies. For educators, ABE is seen as the foundation for lifelong learning.

Building a sustainable program

At our three year mark, we have taken the time to reflect on our investments that have focused on building long-term benefits for the College's capacity to successfully and effectively deliver enhanced ABE into the future.

1. Invest in research

We have conducted research on a wide range of topics, including the best ways to collaborate with Elders, use project-based learning, improve Inuit language, make English assessments relevant and accurate, and how to integrate new information and learning technologies to benefit ABE learners in Nunavut. As we move through our five-year plan, we are actively evaluating the impact of our efforts through formal surveys with students and educators, as we work to continually improve our ABE services.

2. Invest in people and relationships

We are building long term College capacity by increasing professional development for instructors working on new and effective ways to succeed with an increasing number of adult learners. Important partnerships have been forged between Aurora and Yukon Colleges and the Department of Education for long-term collaboration. We are also investing in Nunavut companies and not-for-profit organizations with the capacity to indigenize education resources and processes. These investments in people and relationships are a key to building long term sustainability.

3. Invest in culturally relevant resources and processes

We are putting Nunavut adult learners at the heart of our program – developing and adapting resources focusing on the cultural relevance of curriculum materials, processes, and assessments. Our new resources and processes are adhering to high national standards for ABE, while recognizing and embracing Inuit knowledge and processes that will lead to better retention and student completion of ABE programs.

An overview of our initiatives

Essential Skills

The new innovative ABE Program includes an Essential Skills (ES) curriculum designed specifically to prepare students for entry-level positions in the Nunavut workplace, and at the same time increase their academic levels to prepare them for further study.

English placement assessment - A new cultural approach

Placing students into the correct English course depends on accurately assessing their existing abilities. But North American standard assessments with southern-biased questions have not worked well in Nunavut in the past. This project has introduced Inuit culture into English assessments, with excellent results.

President of Nunavut Arctic College, Mike Shouldice, recognizes the accomplishments of outstanding Adult Educator Rex Willie at the NABE Symposium as he presents Rex with the *2014 Outstanding Adult Educator Award for Nunavut*.

Photo: Archbould.com

Inuit language resources

There is a pressing need to improve Inuit language learning processes and resources to better prepare adults to enter a workforce that increasingly expects higher levels of speaking, reading, writing and computer use in Inuktitut for managing the future of the Territory. New resources are meeting this need.

Culturally relevant language resources

College ABE Programs aim to produce bilingual and bicultural students and require excellent Inuit cultural resources in both Inuktitut and English. Using new bilingual resources, students improve their first and second language reading skills while gaining valuable Inuit cultural knowledge.

Collaborating with Elders

When Elders join students to work on a project, teach a skill, or discuss Inuit ways of knowing, Inuit language and culture naturally become an integral part of the ABE Program. But hidden benefits abound – as the role of Elders increase, so too does the confidence and motivation of students – a key to successful learning.

Project-based learning

ABE learners have a lot to offer their communities as they work together on projects that can help others. The College's new Pijitsirarniq Module helps instructors use a project-based learning model for community development that sees ABE learners develop and practice their skills as community workers.

Career preparation

The College has partnered with a number of organizations to deliver targeted career training in short, focused courses that last a few weeks and are designed to help more advanced ABE learners get ready to move into the workforce or prepare for further training on their career path.

Integrating Information and Learning Technologies

Information and Learning Technologies (ILTs) designed to bring a wide range of content, teachers and students together over vast distances seems like an obvious choice for Nunavut ABE Programs. The College conducted extensive research and is investing in pilot projects to expand learning opportunities for ABE students.

Partnerships leading to launch of mature high school graduation program

The groundbreaking partnership between the College and the Government of Nunavut's Department of Education resulted in the creation of the Pathway to Adult Secondary School (PASS) Graduation Program. Now fully funded through base funding from the Government of Nunavut, adult learners can obtain a Nunavut secondary school diploma accredited by the Department of Education – delivered through the College's Distance Learning department designed for Nunavut PASS student success.

Building capacity

We are building our internal capacity to provide a wider range of ABE services to more adult learners in all Nunavut communities, while also delivering higher quality ABE programs than ever before.

Sharing our knowledge

One of our key objectives in enhancing ABE is to build a Northern community of practice to understand current trends in adult education in the North. We are working with both Yukon and Aurora Colleges, avoiding the duplication of effort by sharing our research and resources as we all work to improve Adult Basic Education services in our territories.

Our results to date

New curriculum and culturally relevant resources have been developed and piloted. We are fully staffed in our Community Learning Centres, with Inuit language instructors, and culturally relevant assessments. Students now have a wider range of ABE options than ever before and the number of adult learners taking ABE programs and courses are increasing.

We look forward to the 2014-2015 academic year, where we expect our enrollment in ABE Programs to continue to climb, along with our completion rates and success for adult learners moving into jobs or further studies for the benefit of the entire territory.

Nunavut Arctic College:

Providing Adult Basic Education Opportunities for All

"I am glad the college offers this program for young adults so they can have a chance to learn and find jobs they always dreamed of..."

ABE Essential Skills student,
Rankin Inlet
Photo: J. Hidalgo

Adult learners on the path to success

Growing up in Iqaluit, Vicki Kooneeloosie left school in Grade 8. In 2012, she decided to change her life, and get the skills she needed to work toward getting her dream job. After a year in Pre-Employment studies at Arctic College, Vicki was one of the first students to take the new Essential Skills ABE program in 2013. Today, Vicki appreciates the program's focus on her culture and heritage and credits the program for giving her confidence to move forward with her career plans in office administration. One day, she plans on having children and hopes to inspire them, as her father inspired her to go back to school.

Makayak Nipisak of Rankin Inlet completed the ABE Essential Skills (ES) program in the spring of 2014 and plans to take heavy equipment operator training and mechanics next. His dream is to build a family business one day with his brother. The ABE ES program helps Makayak to plan out what he is going to do with his future and at the same time, get the upgrading he needs to succeed. He believes that if young people are thinking about going back to school, they should do it, and be an inspiration to all the younger people.

Trevor Ohokak of Cambridge Bay is 28 years old, and plans on a career in the trades - either as an oil burner mechanic or an electrician. He did well in high school, making it as far as grade 11 when he was a teenager. Today, he is only a few credits short of finishing his high school diploma. So Trevor enrolled in the new Pathway to Adult Secondary School (PASS) Program in April of 2014, and is half way through his Social Studies course online after only two months. Already proficient in using computers, he found the leap to distance learning easy - with lots of support from his instructor and local facilitators. He enjoys completing the assignments, passing the tests online, and learning new things - things he said he probably had the chance to learn the first time around, but just wasn't paying attention back then. Next, Trevor plans on taking English and Math online, and expects to complete all of his required courses to obtain his Nunavut high school diploma through PASS.

Until the 2013 school year, there were no specific programs designed for people like Makayak to get caught up, or for Vicki to build her confidence to succeed, and no way for Trevor to obtain a certified high school diploma for adults. In Nunavut, there are thousands of people who have similar stories to these three students - people who for one reason or another may decide to go back to school as a route for taking control of their futures.

"I notice a lot of confidence in all of us... I feel more confident than I did when school started until now. I will be able to take my confidence with me to the trades – mechanics and heavy equipment operator."

Makayak Nipisak, graduate of ABE Essential Skills, Rankin Inlet

Access to Adult Basic Education key driver for future prosperity

The economic future of Nunavut is bright, with the recent economic report card from the Conference Board of Canada¹ handing out grades of A+ in the growth of employment and labour productivity for 2013. Unfortunately, Nunavut received a D for its high unemployment rate of 13.5%, even though the economy showed impressive growth in 2013. We believe the high unemployment rate persists in our hot economy because of the education levels of those who have difficulty obtaining work.

According to the Canadian Northern Economic Development Agency (CanNor), there are 17,000 working age Northerners across the three territories who have not completed grade 12. Of these Northerners, 44.5% live in Nunavut², totaling more than 7,500 people.

The 2013 Nunavut Economic Outlook draws the link between the low levels of education (formal and traditional), and poverty, stating "...the divide between haves and have-nots in Nunavut can be traced almost precisely along the same line that separates those with and without at least a high school education."³ In other words, if you are an adult living in Nunavut without a high school education, there is a good chance you live in poverty. When almost half the adult population requires upgrading to have a chance to get a decent wage-earning job in an expanding economy it is clear action is required.

We know there are multiple issues facing Nunavut – from housing and health care shortages, to profound infrastructure and geographic challenges, to massive cultural shifts. We also know that long term solutions can only occur if there are more Nunavummiut with the necessary skills, knowledge, confidence and strength to be part of the solution to our many challenges.

Providing appropriate Adult Basic Education (ABE) services is an affordable and effective first step to ensure everyone has a chance to contribute to, and benefit from economic opportunities – an investment in our collective future.

Adult Basic Education defined

In Nunavut, Adult Basic Education (ABE) is the foundation for lifelong learning. For the purposes of the Northern Adult Basic Education Program (NABEP), Adult Basic Education includes the education activities that assist adults in achieving sufficient levels of literacy, numeracy and other essential skills to obtain a job or benefit from occupational training.

Credit and non-credit ABE programs are available to any of the 7,500 adults in Nunavut who did not have the opportunity to obtain their high school diploma, who wish to start on the path toward achieving their learning goals, such as:

1. increasing education and/or certification levels;
2. gaining prerequisites for further training or employment;
3. enhancing life skills, independence and self-sufficiency; or
4. learning skills in specific areas (such as technological literacy, communication skills, or portfolio development).⁴

But simply replicating Adult Basic Education programs and delivery methods designed by and for a different culture in a different place has not traditionally worked – not in Nunavut – not anywhere. In Nunavut, we want to ensure people can obtain the skills they need, supported by their culture, language and the people in their community.

4 - This concise list of ABE learning goals was adapted from the Department of Education, Government of Saskatchewan

Nunavut Arctic College: Providing Adult Basic Education Opportunities for All (continued)

A new approach

In 2012, Arctic College set out to change ABE to better serve students, with the goal to:

Develop and deliver culturally relevant, sustainable ABE services based on best practices for Nunavut learners to succeed and benefit from opportunities in Nunavut's growing economy.

Our new approach to ABE includes initiatives such as:

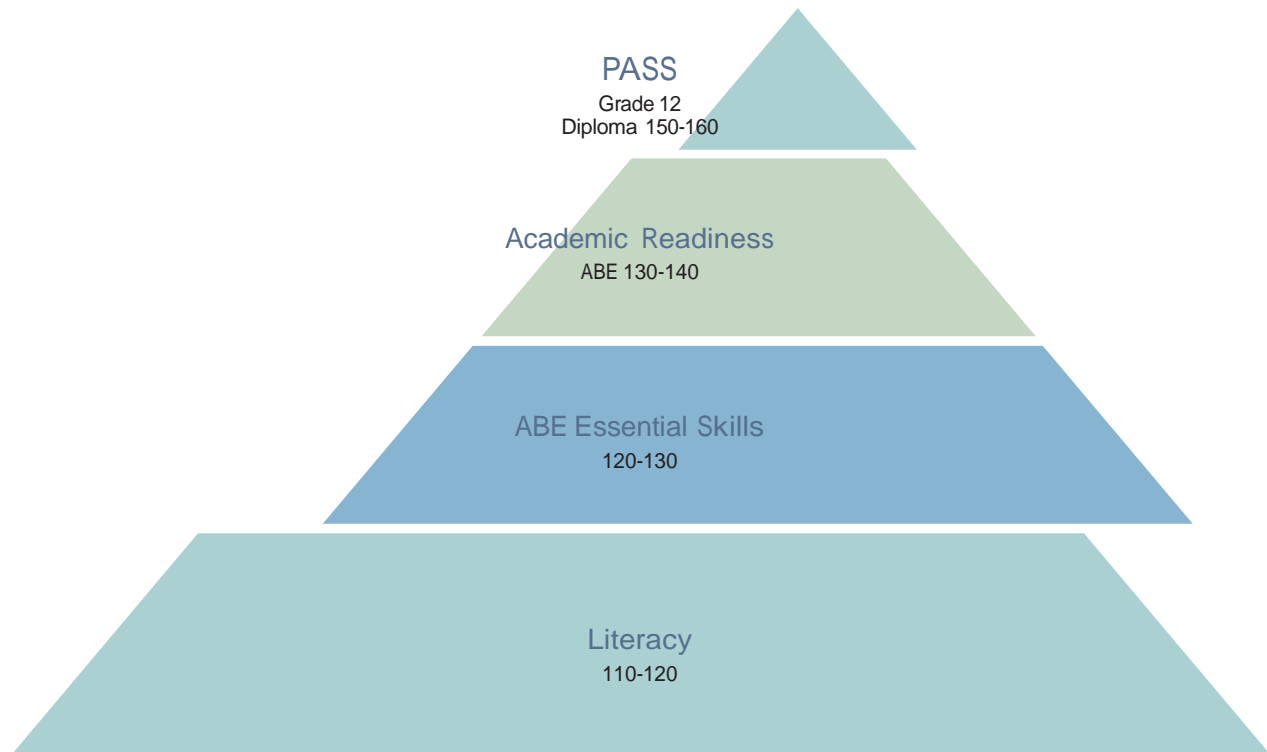

- ensuring our assessments and programs adhere to nationally recognized ABE standards;
- creating culturally relevant curriculum;
- respecting and incorporating the values and principles of our Elders;
- integrating Information and Learning Technologies to increase access to more learning opportunities;
- connecting to community and economic opportunities through project-based learning, portfolio development and career development activities;
- developing partnerships and sharing of knowledge and best practices across the North and beyond; and
- investing in our people and our local organizations and companies to improve our ABE services for many years to come.

At Nunavut Arctic College, adults are invited to upgrade their skills and knowledge through ABE programs that range from basic English, Inuktitut, and numeracy at the 110 level through obtaining a fully accredited high school diploma – no matter where they live in Nunavut.

A key innovation is the development of an entire ABE Essential Skills program that combines national standards of excellence at the 120-130 level with culturally appropriate learning materials and processes – providing better supports to assist students to meet their learning goals.

We have also forged a partnership with Nunavut's Department of Education to offer the Pathway to Adult Secondary School (PASS) Graduation Program so Nunavut ABE students can take high school credit courses through the College's new Distance Learning program launched in collaboration with Alberta Distance Learning Centre.

By investing in Nunavut-specific, culturally relevant ABE services that adhere to high standards, we aim to increase the participation and graduation rates of our adult learners, ultimately enabling Nunavummiut to achieve social health and self-determination.

Adult Basic Education Pyramid

Evaluation and evolution

In an effort to continually improve our new program initiatives, we collected detailed feedback in two comprehensive surveys conducted in May 2014 – one designed for educators and one designed for students. Many of the quotes and data used in this report were collected in these online surveys.

A total of 24 adult educators and instructors from 22 different Nunavut communities answered the 2014 ABE Adult Educator Survey. A sample of 31 ABE learners from 9 different communities answered the 2014 Student Survey. The new Student Survey has been designed for all ABE learners and will be administered by instructors to all ABE students in future years.

Adult educators and Instructors were asked which of the new ABE initiatives were most effective at helping students complete their 2013-2014 year of Essential Skills. As indicated in the chart below, incorporation of Elders in the classroom was seen as one of the most positive initiatives from the instructors' perspective in encouraging students to stay in their program. The comprehensive survey provides detailed feedback on the initiatives, lessons learned, and ideas for improving ABE into the future.

Data from the 2014 ABE Adult Educator Survey

Students were also asked their opinions on what initiatives motivated and engaged them in their learning. The 31 respondents reported that all of the new initiatives motivated them, but the inclusion of Elders stood out, with 93% of respondents saying they were motivated, of which over half reported being extremely motivated.

There are many ideas in the data provided by instructors and students for improvements to ABE, and we will continually work to integrate and improve programs based on their ideas and feedback.

“They teach us respect, to be careful, and about Inuit past”

A student identifying what they learned in activities with Elders that improved their course in the 2014 Student Survey

Survey Question: Of the following activities, new resources, and new approaches – which do you think were the most helpful in retaining students in your Program?

Using new Inuktitut and English language resources focused on

Incorporating Elders in the teaching and learning process

Engaging in Community-based projects

Increasing the use of Inuktitut in the classroom environment

Increasing focus on Career preparation activities, such as portfolio

Integrating technologies in the classroom

“It would be helpful if everyone who dropped out of school took this program.”

Student response when asked how to improve the Essential Skills Program in the 2014 Student Survey

Innarnut Ilinniarniq:

A Five-Year Investment in ABE 2012-2016

Nunavut Arctic College's aggressive, five-year investment in Adult Basic Education, Innarnut Ilinniarniq, was made possible with significant funds from Canadian Northern Economic Development Agency (CanNor), from the Northern Adult Basic Education Program (NABEP).

All of our ABE initiatives are implemented in an Inuit environment, and our work respects and includes Inuit knowledge, experience and perspectives in order to be successful. The foundation to Nunavut Arctic College's ABE efforts is to truly recognize the culture and place in which we work.

We are just over half way through our journey on this project, focusing on three foundational investments:

1. Research
2. People & Relationships
3. Resources & Processes

1. Invest in research

Objective: Build partnerships, conduct research, learn from best practices, gather Nunavut experience involving students and instructors, evaluate efforts and continually improve ABE services over the five year period.

We are carefully documenting what has worked, and what has not worked in Nunavut and elsewhere, learning from students, adult educators, Elders, curriculum developers and partners across the Arctic and the South, applying lessons learned every step of the way over the course of our five-year investment. At the completion of five years, we will know exactly what is working best and what needs to improve so that we can spend the next 20 years on the right track.

2. Invest in people and relationships

Objective: Build College capacity by increasing professional development for instructors, providing mentoring and administrative support to integrate new resources, and investing in Nunavut companies and not-for-profit organizations with capacity to indigenize education resources and processes, building long term sustainability.

The people involved in developing and delivering ABE are the key to our success starting with the creation of the ABE Manager position responsible for pulling all of the new ABE initiatives together. We are also doing obvious things like investing in training and support for ABE instructors to raise the quality of instruction in the classroom. We are also making subtle, but equally important investments by hiring Nunavut firms, not-for-profit organizations, and Elders to produce relevant materials and processes to better engage students. These investments in people and relationships will pay off for many years to come by strengthening the capacity of people in our Territory to create new and better ways to deliver ABE.

3. Invest in culturally relevant resources and processes

Objective: Develop and adapt resources focusing on the cultural relevance of curriculum materials, processes, and assessments (also known as indigenization), leading to better retention and student completion of ABE programs.

From initiatives like integrating learning technologies in the classroom, to revising Essential Skills curriculum, to developing better ways to include Elders in the learning process – the College has developed a whole new suite of learning materials, processes and methods that better respect Nunavut culture and values. These efforts will lead to increased success rates for adults to learn the essential skills and knowledge they need to move into jobs or further training to succeed in today's economy, and to strengthen their families and communities.

Innarnut Ilinniarniq: A Five-Year Investment in ABE 2012-2016 (continued)

Adult educators, instructors and staff celebrate at August Professional Development outcomes, 2013.
Photo: Arctic College staff

Expected results and economic benefits

We aim to build a legacy of sustainable, enhanced delivery of ABE programming for Nunavut learners, increasing the number of adults successfully completing their ABE programs not only in this five year period, but for years to come.

In 2012, Nunavut Arctic College set out on this journey to enhance ABE services to:

- A. Increase the number of adult learners in Nunavut who have the basic skills to enter the workforce or to begin vocational and post-secondary training;
- B. Build the College's human capacity to deliver enhanced adult basic education;
- C. Improve first language outcomes for adults, thereby improving employability and intergenerational social capital;
- D. Reach more learners to increase student participation, retention, and completion;

- E. Improve high school graduation rates through increased access to mature graduation program and diploma;
- F. Provide support to educators to better assist them in helping learners achieve their learning objectives;
- G. Improve on-line learning capacity for greater flexibility;
- H. Revise and update existing ABE programs to reflect northern and cultural contexts, and best practices in adult basic education for Aboriginal adults;
- I. Build a Northern community of practice in adult basic education to understand current trends in adult education programs in the North.

We envision permanent improvements in College capacity, curriculum and processes to support ABE learning into the future.

Our Initiatives:

An Overview of Our First Three Years

Collaborators, partners & contractors

There are many people, organizations and companies involved in the research, creation, piloting, and revisions of our initiatives both inside the College and out. While our investments supported capacity building inside the College, they also helped support not-for-profit organizations and private firms to build their own knowledge base too, as they worked with the College to create programs that will benefit Nunavut students and ultimately others around the country.

Taking stock

Since January 2012, we have made remarkable progress with our investments into research, people, and resources to develop a series of activities and projects to enhance ABE. It is time to take stock of what has been achieved, as we plan our next two years of delivering enhanced ABE.

Continuing investment

In the next two years, we will continue to invest in people, resources and research, while tracking student successes and ensuring accountability to our funding partner and the adult learners in Nunavut. In addition we will continue through research and assessment to ensure the College is meeting the labour market and educational requirements in Nunavut. We will work to improve the outcomes for ABE students in every Nunavut community, as ABE graduates take their rightful place in Nunavut's future.

The chart on the next two pages provides a summary of the key initiatives and their expected outcomes, followed by detailed descriptions of each initiative.

Our Initiatives: An Overview of Our First Three Years (continued)

NABE Initiatives by year				
	2011-12	2012-13	2013-14	Expected Results
1. ABE Essential Skills curriculum for Nunavut p. 14	<ul style="list-style-type: none"> Complete community needs identification research Align ABE with Essential Skills course design & assessments 	<ul style="list-style-type: none"> Complete ABE course outlines to include new ES Collect & integrate Nunavut examples into ES materials Match ES NOC profiles to Nunavut jobs 	<ul style="list-style-type: none"> Complete new ES materials Pilot new ES materials & assessments in new ABE ES Program in 18 communities Gather feedback and begin revisions 	<ul style="list-style-type: none"> ii Increase the number of adult learners with the basic skills to enter the workforce or begin vocational training

ABE Essential Skills

The new innovative ABE Program includes an Essential Skills (ES) curriculum designed specifically to prepare students for entry-level positions in the Nunavut workplace, and at the same time increase their academic levels to prepare them for further study.

In the fall of 2013, Nunavut Arctic College piloted its new ABE Essential Skills Program in 18 communities – designed as a 28-week full-time ABE Program. For many Nunavut adults, their primary reason to come back to school is to get the skills they need to get a job. So we set out to ensure students in this program could learn the Essential Skills they need to qualify for an entry-level job upon graduation from the full-time program.

Using the College's community needs assessment data, we identified 33 entry-level occupations common in Nunavut. Working with Pathways to Possibilities (PTP) – a nationally recognized community-based literacy provider specializing in communications and numeracy essential skills curriculum – we identified the National Occupational Classification (NOC) of each of the occupations. This matching exercise allowed us to identify the exact communications and numeracy Essential Skills students in Nunavut would need to master in order to meet the national standards required to fill Nunavut's entry-level jobs.

Our adult educators and ABE Managers worked closely with Pathways to Possibilities staff to create and pilot this Nunavut-specific program, and includes:

- ES Communications & Numeracy 1 curriculum
- ES Communications & Numeracy 2 curriculum
- Instructor teaching resources
- Evaluation Guide, containing comprehensive student assessment tools

Assessment is key to effective adult literacy and numeracy programs

The ES Communications and ES Numeracy courses include short assessments that educators gave to students throughout the year, to measure their progress. We know from research that assessments play a critical role in keeping adult learners actively engaged in their own learning. The assessments are administered at points when learners have acquired the abilities to complete the assessments successfully. These short assessments are directly related to the learning objectives covered in the course content.

In addition to these on-going short assessments, two end-of-term Essential Skills assessments were developed. End-of-term Assessment 1 evaluates whether learners have acquired the abilities taught to the mid-point in the program and point to areas that require further development. End-of-Term Assessment 2 is administered at the end of the program and identifies how well the learner acquired the skills and abilities taught in the ABE Essential Skills Communications and Numeracy courses.

“ES Communications and Numeracy had excellent assessment tools in each session, with set assessments. A similar assessment tool for different courses would be helpful. Where the learner had to perform tasks and assignments and give back to the instructor, and the instructor follows a set guideline to assess the learners.”

Adult educator response to question on how to improve assessment process, 2014 ABE Adult Educator Survey

Cultural inclusion and collaboration at core of new ES

In preparing a Nunavut-specific ES curriculum, PTP and College staff formed an Essential Skills Working Group, and together, collected almost a thousand examples of documents used in local workplaces. They gathered Nunavut input on activities and themes and built in real-life examples into the curriculum, ensuring the creation of authentic materials to put all learning into a Nunavut context.

At our three-year mark of our ABE initiative, we have just completed the first year pilot of this program, and are collecting feedback from instructors to revise and improve this program for the 2014-2015 year.

Nationally, there are 9 Essential Skills including Reading, Document Use, Numeracy, Writing, Oral Communication, Working With Others, Thinking, Computer Use, and Continuous Learning. But in Nunavut, an additional three were added to reflect the cultural realities of Nunavut and include:

- Inuktitut Literacy
- Understanding the Concepts of Inuit Values
- Creating and Nurturing Personal Wellness

Additional courses were developed as part the ABE Essential Skills program to ensure students could gather the Essential Skills they need to succeed not only in Canada, but most importantly – in Nunavut.

Nunavut's own Essential Skills

In response to the need for Nunavut-specific Essential Skills, the College has developed the *Preparing for Change* course and *ABE Inuit Language* courses, which form an important part of the ABE Essential Skills program. In *Preparing for Change*, students develop an understanding of the rapid transitions in Nunavut, and identify healthy responses to change. They examine the practices and values around 'work' over the past century as it relates to the Inuit concept and practice of *Inuruqsainiq* (creating an able human being.)

The *ABE Inuit Language* course is an important part of the Essential Skills program, and students appreciate the opportunity to improve their Inuktitut skills. When asked in the 2014 Student Survey how using Inuktitut in the classroom affected the learning environment, students were very positive about the experience, stating:

- *I learned to read better in Inuktitut syllabics, and understand more in Inuktitut.*
- *It was really good to learn about Inuktitut and other things, such as our culture, our ancestors, and our knowledge.*
- *It had a good effect on the learning environment.*

The Canadian Career Development Foundation (CCDF) selected the new program as one of 10 case studies in Canada that best embody its "12 Markers of Promising Practice" – factors that contribute to the success of Aboriginal programming and resource development. See CCDF *Northern ABE Enhancement Initiative – Nunavut Arctic College* at www.fimesip.ca/node/122

"Instructors see a key benefit of the ABE Enhancement Program as having the ability to relate the ES content to real world activities and work tasks the learners see in their own community"

English Placement Assessments – A New Cultural Approach

“It is common to see people working to make curriculum culturally relevant, but I believe this is the first time to my knowledge that anyone in Canada has attempted to make a culturally relevant assessment for a college system. It is surprising it has not been done before.”

Dr. Pat Campbell, Grass Roots Research, presenting at the NABE Symposium, 2014
Photo: Imaituk Inc.

Placing students into the correct English course depends on accurately assessing their existing abilities. But North American standard assessments with southern-biased questions have not worked well in Nunavut in the past. This project has introduced Inuit culture into English assessments, with excellent results.

The College set out to create a new English assessment package in 2012 with the aim of basing English assessments on an Inuit and Nunavut-focused set of questions and concepts. College staff felt that Nunavut learners could better demonstrate their skills in English using materials that reflected their world-view. The hope was that a new assessment would allow the College to better place and serve students.

The project objective was to develop an English language reading and writing assessment to effectively assess ABE English language reading and writing levels. The assessment determines whether students are functioning at Level 110, 120, 130, or 140, in terms of reading and writing skills.

The resulting assessment package called the Nunavut Adult Placement Assessment (NAPA) is Canada’s first culturally relevant placement tool developed for a college system. But it took far more than a simple “search and replace” of content.

Extensive research and inclusion of students and educators

To create the new assessment, the College hired Dr. Pat Campbell, a national leader in reading assessment development with Grass Roots Research. Experienced Nunavut educators joined Dr. Campbell to create the Nunavut Adult Placement Assessment Working Group to guide the development of the assessment, and ensure the tool produces valid results in a Nunavut context. Post-secondary faculty reported an increasing need to assess reading as a key skill determining academic readiness. So the working group wanted to ensure this new assessment tool would place a bigger emphasis on assessing reading skills more than writing skills.

The NAPA Working Group conducted 15 student focus groups with 97 participants to learn about which books and magazines are commonly found in Nunavut they are likely to access. Students identified their favourites: in the fiction category, they liked adventure, humour, mystery and legends; in the non-fiction category they preferred true stories, culture and tradition, history and biography.

Creating and validating the assessment

The Grass Roots team set out to create text structures using Nunavut themes, stories and ideas for the new assessment that would be familiar to Nunavut students. In the first round of development, Grass Roots created two separate assessment forms – one to assess students who were thought to be at the 110 or 120 level, and a second more difficult assessment form to use with students who were thought to be at the 130 or 140 level. The two assessment forms were separated in this way to ensure 110-120 level students were not overwhelmed.

To find out if the assessment would properly assess the students' abilities, Nunavut Arctic College (partnering with Aurora College), conducted a formal 'validation study' in 2013. This involved administering the draft assessment to 128 college applicants in NWT and 90 applicants in Nunavut.

The applicants' answers to the draft assessment were put through a rigorous analysis to determine the assessment's reliability. The analysis was conducted by Dr. Phillip Nagy, a statistician who is a validation expert for the Canadian Language Benchmarks.

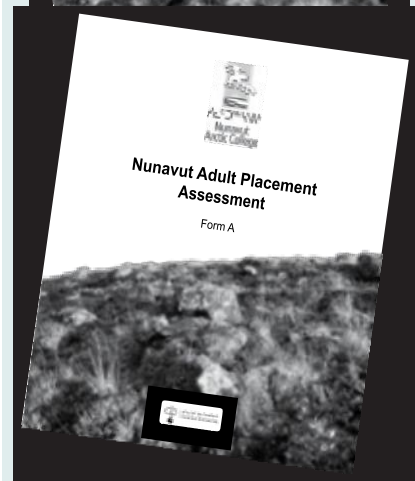

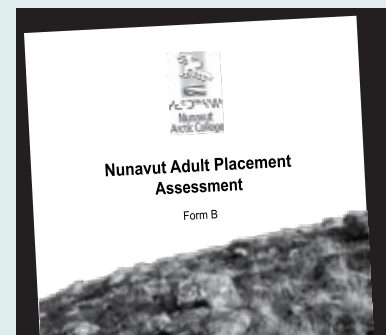

Dr. Nagy's analysis showed that the majority of the 110-level passages were too easy for the Nunavut sample. So the team revised their original plan, reducing the number of 110-level passages, and combining all four levels into one form. The final assessment contains ten passages and 50 questions that get progressively more difficult as the student works through the assessment. This final assessment ensures the results will identify the existing level of any student who completes the assessment.

Final product: two parallel assessment forms

Based on the findings of its research, Grass Roots produced two new assessment forms. Instead of two assessment forms separated between 110-120 and 130-140 levels as originally envisioned, the revised parallel assessment forms both assess students along a continuum of 110-140 levels.

The official names for the two new assessment forms are *Nunavut Adult Placement Assessment – Form A* and *Nunavut Adult Placement Assessment – Form B*. Each is 24 pages long, in booklet form. With this system, students can take Form A, and if they need to do the assessment again in 6 months or a year, they would use Form B with an entirely new set of questions.

Form A and Form B are easy to administer, fair and equitable, culturally relevant and most importantly, the results are valid and reliable for properly placing students in the appropriate program into the future.

Nunavut Adult Placement Assessment features:

- Two parallel assessment forms
- Corresponds to levels 110-140 for reading
- Updated writing prompts & matrix
- Administration guide & scoring keys
- Culturally relevant, fair and equitable
- Content reflects student prior knowledge
- Valid and accurate placement

Inuktitut Renewal

“Comprehension of traditional language is very empowering, and we need original Inuit language literature in future years that is both inspiring and challenging. Written knowledge must become the norm for our learning centres – it is our doorway to the future. Educators are the implementers of the learning process for the learner.”

Leena Evic, Executive Director, Pirurvik Centre, demonstrates how Inuit language is taught through experiential learning at the NABE Symposium
Photo: Imaituk Inc.

There is a pressing need to improve Inuit Language learning processes and resources to better prepare adults to enter a workforce that increasingly expects higher levels of speaking, reading, writing and computer use in Inuktitut for managing the future of the Territory.

While Inuit make up 85% of the population of Nunavut, almost 100% of ABE students are Inuit. Depending on the region, history of settlement, opportunity and life experience, adult learners enter the ABE Program with very different levels of Inuit language proficiencies.

Formal needs assessments conducted by Iliitaqsiniq Nunavut Literacy Council for the College, showed Inuit language instructors needed more support in order to meet the demands of ensuring all students can increase their Inuit language proficiency, including:

- Updated Inuit language curriculum, including additional language and cultural resources;
- A process to share instructional resources and effective practices;
- Strengthen ways of working with Elders;
- More Professional Development related to Inuit language and culture;
- More research on effective adult learning and acquisition of the Inuit language.

Languages like English and French have thousands of people creating written curriculum worldwide. For Inuit, this kind of knowledge transfer – teaching Inuktitut through written material and professional development for teachers rather than relying solely on the oral tradition of language learning – is comparatively new, and needs people with very specialized skills.

Local Nunavut firm leads development

The College contracted the Pirurvik Centre in Iqaluit to help with research, assessments, curriculum, and Professional Development. “Pirurvik,” meaning “a place of growth” is a unique centre of learning dedicated to Inuit language, culture and wellbeing, specializing in the creation of innovative programs, services and productions.

Pirurvik founder Leena Evic believes that reading and writing in Inuktitut is as important as speaking Inuktitut for the long-term retention of the Inuit language.

Pirurvik researched best practices for teaching the Inuit language to adult learners. For example, a proven best practice in teaching is to embed learning of Inuktitut into activities in the classroom.

Assessing students' Inuit language skills

Pirurvik set out to identify four levels of Inuit language competency. In their system, a score of 0 would mean the student is unable to communicate in the Inuit language, and 4 represents the ability to communicate at a professional level. They developed an assessment tool that assisted instructors to identify students' Inuit language proficiencies in reading, writing, speaking and comprehension.

The assessment was piloted in a number of communities in 2012 and 2013, and revisions were made for implementation in the coming year. Dialect differences require instructors to be involved in regionalizing the assessments to better reflect their students' dialectal differences.

Creating the curriculum

Pirurvik built course content pulled from their extensive archive of Inuit knowledge collected from Inuit experts—both recently and from years past. These resources provide a lot of content for the instructors to draw upon in teaching this content to their class. Initial training was conducted with adult educators in August 2013 and initial materials were piloted in all Inuktitut-speaking communities offering ABE programs.

Incorporating feedback from instructors, Pirurvik completed the impressive set of modules in the spring of 2014, called "Inuit Language ABE Curriculum" divided into four modules:

- Cultural Skills
- Family
- Environment
- Community, Leadership, and Workplace

To provide further assistance to instructors, Pirurvik completed a Facilitator Resource Manual providing lesson plans, worksheets, powerpoints and tips for utilizing the materials effectively in the *ABE Inuit Language* course. This manual provides the foundation for a fully resourced Inuit language curriculum. One of the strengths of the curriculum design is the focus on themes and learning activities that assist instructors in teaching their own dialect within a cultural context. More Professional Development is planned for instructors in the coming year in the use of the assessments and materials.

Pirurvik's work is an extremely important resource for adult learners to access a comprehensive, quality, bilingual and bicultural ABE program that will improve first language outcomes, and better prepare them for work and continued study into the future.

Culturally Relevant Language Resources

Inhabit Media co-founders and College faculty Neil Christopher and Louise Flaherty respond to audience questions during the panel presentation on *Indigenizing through Language Resource Development* at the NABE Symposium.

Photo: Imaituk Inc.

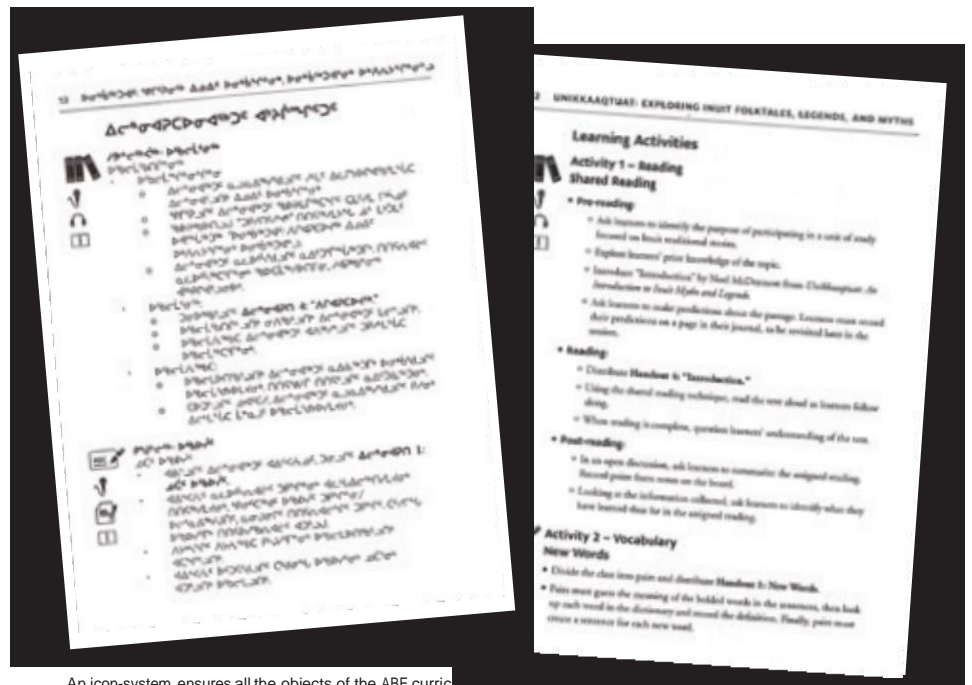

College ABE programs aim to produce bilingual and bicultural students and require excellent Inuit cultural resources in both Inuktitut and English. Using these resources, students improve their first and second language reading skills and at the same time, gain valuable Inuit cultural knowledge.

The College hired Inhabit Media – an award-winning independent Inuit-owned publishing company – to create learning resources ABE instructors could readily use in the classroom to meet the College’s bicultural and bilingual learning goals. Part of the revitalization of ABE was the new emphasis on reading skills in both English and Inuktitut, so more relevant resources were needed to achieve the new reading learning objectives.

Creation based on Nunavut experience and best practices

Inhabit Media’s Neil Christopher began working with a group of experienced educators in early 2012 to pick the right Inuit cultural books and resources ideal for this project. They selected books from Inhabit Media’s extensive publication list, as well as other books, resources, and archival materials needed to create twelve unique integrated instructional resources.

They also identified activities and best practices educators used in the classroom to successfully teach Inuit cultural concepts contained in the books and resources they selected. They identified 20 different types of activities that work well in Nunavut, and created a unique template and style guide so that instructors could quickly and easily bring the concepts contained in the books to life in the classroom.

An icon-system ensures all the objects of the ABE curriculum

Uqalimaarummaq Reader Series

Over the past two and a half years, Inhabit Media has been researching, writing, reviewing, editing, and publishing the unique unit plans conceived in 2012 in the form of a Reader Series called *Uqalimaarummaq*, meaning “loves to read.”

Today, there are 12 Uqalimaarummaq Readers published – following the style guide and template designed at the start of the project. Many of the Readers include the entire content from the original book or resources selected, so that the unit of study can be completed, even if the original book is not available in a community. They contain literacy, comprehension and community outreach activities – all of which contribute to the learning process and meet the ABE objectives of reading, writing, viewing and listening.

For example, in the Giant Bear Book Study, students explore themes surrounding survival and hunting. They examine some of the differences between modern life and Inuit traditions. Learners examine traditional and modern-day survival skills, do a research project on Arctic animals, explore the theme of courage, and create their own folktale.

UQALIMAARUMMAQ READERS (available in Inuktitut and English):

1. Unikkaaqtuat: Exploring Inuit Folktales, Legends, and Myths
2. A Walk on the Tundra Book Study
3. Joy of Apex Novel Study
4. Ava and the Little Folk Book Study
5. The Country of Wolves Graphic Novel Study (Amaqquut Nunaat)
6. The Giant Bear (Nanurluk) Book Study
7. Walking with Aalasi Field Study
8. Inuit Family Values, Beliefs, and Customs
9. Skraelings Novel Study
10. Hunting Stories: Examining Traditional Knowledge
11. The Hidden (Alianaqtut) Book Study
12. Arctic Giants Book Study

“I took all the books [used in the Reader series] home to read to my children, they were very much interested in the books and asked where to get a copy of these books from. If possible I would like to order these copies for home use.”

“I loved reading Ava and the Little Folk in English and Inuktitut, and A Walk on the Tundra, Experimental Eskimos, and Aupilarjuk – those were my favourite.”

Student responses when asked what they thought were the most engaging and motivating Inuit cultural materials or Nunavut-focused materials they used in the past year in the 2014 Student Survey.

“It is significant that Inuit have survived in barren lands. We’ve made shelter out of nothing, catching animals where there was very little. We have been able to survive dire conditions. Because of our ancestors’ resiliency, we are here today. Our Elders today have a wealth of experience and also knowledge they’ve gained from stories they’ve heard. They can draw on that knowledge to help learners navigate life today.”

Qulaaq Pilakapsi
Elder contributor to the
Collaborating with Elders to Enhance ABE Took Kit for Adult Educators

ABE Essential Skills students in Kugaaruk made kakivaks with local Elders. Photo: Arctic College staff

When Elders join students to work on a project, teach a skill, or discuss Inuit ways of knowing, Inuit language and culture naturally become an integral part of the ABE Program. But hidden benefits abound - as the role of Elders increase, so too does the confidence and motivation of students - a key to successful learning.

We have long recognized that Elders play an important role in learning. As part of enhancing ABE, we set out to determine how to bring more Elders into our learning and teaching process – on an institutional-wide, formal basis so that every Community Learning Centre could successfully collaborate with the Elders in their community.

There are significant differences between typical formal education practices and the way many Elder instructors understand the learning process. The role of the adult educator is to help learners achieve specific defined ABE learning objectives. Elders generally approach learning in a holistic way. Combining these two ways of knowing and being for the benefit of student learning takes experience and commitment by both the adult educator and the Elder.

A learning process for our institution

In our first year, we invited adult educators to apply to an “Elder Inclusion” fund created with NABEP funding to pay for labour and supplies to formally include Elders in the classroom. This early attempt for territory-wide roll-out was a learning experience for us as an institution.

Many of our adult educators have strong relationships with Elders in their community and have worked with Elders in formal classroom settings before. For others, collaborating with Elder instructors in a formal classroom setting is new – for both the adult educator and the Elders.

Experienced adult educators applied to the fund, obtaining the resources they needed and engaged local Elders. Other communities didn’t apply, and the Elders Inclusion fund was undersubscribed in the first year.

It was clear more training, support from the ABE Manager, and planning were needed to make this program work everywhere. Some instructors suggested the College produce guidelines that could assist them to better integrate Elders, particularly in teaching specific ABE course objectives in topics other than Inuit language and traditional culture.

So we asked experienced Elders and adult educators what factors led to their successful collaboration, and then worked to develop a way to share these best practices in all Community Learning Centres.

Creating a practical tool kit

The Nunavut Literacy Council conducted the research for the College, and documented best practices to help all adult educators connect with local Elders. The resulting guide, *Collaborating with Elders to Enhance ABE: A Tool Kit for Adult Educators*, was completed in the summer of 2013.

The Tool Kit features a step-by-step process that provides strategies and sample project ideas, and acts as an essential guide to respectful collaboration with Elders in all ABE programming. Some features of the Kit include:

- helping Elders feel welcomed and guidelines for working with Elders in a formal classroom setting;
- best practices on embedding Essential Skills development in projects with Elders;
- how to access Elder Inclusion funding from the College program, including a detailed worksheet guide and submission form.

In August of 2013, a one-day training event provided adult educators with hands-on practice in how to write an Elder project proposal, and assist them in identifying the specific learning objectives and evaluation approaches that could be used.

This workshop, along with the Tool Kit and practical project proposal preparation resulted in a huge change in the 2013-2014 year, with more adult educators planning and collaborating with Elders not just once, but throughout the entire year.

Collaborating with Elders set to grow

Adult educators increased their collaboration with Elders, and together helped students achieve their learning objectives in various ABE Essential Skills courses, including Inuit Language, Preparing for Change, Portfolio Development and Career Development.

Elders redirected the learning into other environments too – outside, into the community, and out on the land. They provided counseling and traditional supports to both the instructors and the learners, while also creating a strong Inuit language environment.

In fact, of all new initiatives in the past year, students identified having Elders in the classroom as their top motivator, and adult educators selected “incorporating Elders in the teaching and learning process” as the top initiative last year in helping to retain students.

We fully expect Collaborating with Elders projects to increase as both adult educators and Elders find new ways to teach and learn together for the long term benefit of ABE students across Nunavut.

* In 2011/2012, Elders inclusion was used to engage & motivate students to return to ABE.

** This includes students from 4 ABE programs in 3 communities (Cambridge Bay, Iqaluit, & Arctic Bay)

Pijitsirarniq:

Serving and leadership for the common good. This principle is based on the belief that each person has important strengths to share and is a valued contributor to the community. We each have a responsibility to share our strengths and to welcome others to share theirs.

“We had to fundraise to get a budget for the food bank, and ask most of the Inuit owned businesses to help with our funds. We also had to talk to our SAO to get more information from their committees on how they were running the food bank. Then we planned just to get the basic food items, and collect them one by one door to door in our community. It was a success – all the food we got was all used for the community.”

2014 Student Survey

ABE learners have a lot to offer their communities as they work together on projects that can help others. The College's new Pijitsirarniq Module helps instructors use a project-based learning model for community development that sees ABE learners develop and practice their skills as community workers.

In the ABE Essential Skills course *Preparing for Change*, students examine the issues and choices facing Nunavummiut today in the face of rapid change. Their final assignment is to work as a team to build their community through project-based learning, founded on the principle of *Pijitsirarniq* (the Inuit concept of serving others).

Project-based learning is an instructional model that involves students in investigations of compelling problems that culminate in authentic products. Projects grow out of challenging questions that cannot be answered by rote learning and put students in an active role such as: problem solver, decision maker, investigator, or documentarian.

Creating a project-based learning module

Nunavut Arctic College contracted Ilitaqsiniq Nunavut Literacy Council to develop *The Pijitsirarniq Project: Facilitator's Guide and Feedback Journal* – the College's first effort at creating a formal Project-based learning curriculum.

Developer of the guide, Anna Ziegler, asked everyone to imagine what could be achieved if ABE learners were viewed as community builders. The perfect opportunity arose for ABE learners to show everyone what they could achieve.

The Government of Nunavut's *Makimaniq Plan: A Shared Approach to Poverty Reduction* grew out of an urgent need to develop a shared, collaborative approach to addressing poverty in Nunavut. The Board of Governors directed the College to partner in engaging with this Nunavut imperative.

So, with the vision from the College's Board of Governors, that yes, ABE learners can build community, learners in the *Preparing for Change* course set out to investigate ways they could help to reduce poverty in their community.

Success stories

In Igloodik, where there was no food bank, students started a food and clothing bank, using the Community Learning Centre (CLC) to collect and distribute over 200 boxes of food to over 40 families in one month. They created a clothing exchange at the CLC providing the needed space and opportunity for people to donate, trade and receive clothing.

In Rankin Inlet and Arviat, students discussed poverty issues within their community and created a list of problems and potential solutions. Then they got to work, getting out into the community to encourage people to donate 'meal bags' to the food bank. They also created grocery lists containing inexpensive and nutritious meals. They even wrote letters to the Premier of Nunavut and the President of Nunavut Tunngavik Inc. to highlight their findings.

At the completion of these projects, the instructor reported that students recognized:

- everyone can make a difference;
- every person's opinion counts;
- poverty affects everyone in Nunavut;
- working together will help achieve greater results.

The future of project-based learning

ABE learners have a lot to offer their communities. Now that many adult educators and students have had a successful project experience, the College will be revising the Pijitsirarniq Project manual to include a wider range of topics, and support for facilitators and students to determine what project they will take on to make a difference in their *Preparing for Change* course.

The goal of future project-based learning activities is for learners to identify a project that reflects Pijitsirarniq values. Imagine what they will think of next.

In the 2014 ABE Student Survey conducted in May of 2014, 64% of the students said after their project-based experience, they are more likely to take on volunteer work in their community in the future.

Igloolik food bank and clothing exchange at the local Community Learning Centre Photo: Arctic College staff

"We as the students had to choose a project, and we chose food/clothing bank. People were coming to get some food and clothing. We did it successfully...We helped a lot of people."

Student course evaluation, 2012-2013 Igloolik

Instructor Karen Deagle and project developer Anna Ziegler presenting at the NABE Symposium Photo: Imaitik Inc.

Igloolik food bank and clothing exchange at the local Community Learning Centre Photo: Arctic College staff

"We opened up a food bank at the local college and volunteered to run it. Many people were helped during the holidays."

2014 Student Survey

“Students worked together to identify the qualities, values and attitudes demonstrated by those who lived in Traditional Camps. We compared this list to another chart where students identified the qualities, values and attitudes employers look for in employees today. Students discovered many similarities between the 2 charts.”

Course Final Report,
by College Instructor

Photo: Arctic College staff

The College has partnered with a number of organizations to deliver targeted career training in short, focused courses that last a few weeks and are designed to help more advanced ABE learners get ready to move into the workforce or prepare for further training on their career path.

The NABEP funding for Adult Basic Education enhancement is designed to ensure people can access additional education to be better prepared to take on new jobs – many of which will be created as a result of mining activities in Nunavut.

Some of the new jobs will require people to be ready to work in a setting that is unfamiliar, like mining or exploration sites. Other jobs will draw upon people’s knowledge of the land and build on their traditional skills, such as the work of environmental monitoring personnel.

We have provided some examples of courses delivered in the past year and a brief summary of the Career Development Workshop Resources used by adult educators and career development officers for community members.

Workplace Readiness Training for Kivalliq Mine Training Society

The College was invited to design and deliver a three-week Workplace Readiness Training course to 12 students in Rankin Inlet, in partnership with the Kivalliq Mine Training Society (KMTS).

Drawing upon some of the resources used in the ABE Essential Skills course, the College instructor provided students with an opportunity to develop and expand their employment and related skills.

The College’s Prior Learning Assessment Recognition (PLAR) facilitator’s guide was a very useful resource for students to build skills-based resumés. Activities in the Communications and Numeracy 1 (Module 2) resource helped students to gain a better understanding of financial terms and products, reading bank statements, balancing budgets and learning ways to borrow and save money.

The students took time to focus on traditional skills, and identify which of those skills are transferrable to the modern workplace.

This short course was focused on preparing students to successfully apply and be selected for an entry level job in the mining sector. All of the students completed their resumés, and the course culminated in a mock job interview with KMTS staff and the instructor – which students identified as one of the highlights of the course – giving them practical experience for future real-life job interviews.

We will be offering Workplace Readiness Training courses again in the 2014-2015 academic year.

Preparing for jobs in environmental monitoring

As mining and exploration activities increase in Nunavut, so does the need for environmental monitoring. Jobs that require people to conduct fieldwork regularly in Nunavut can be an excellent fit for many Nunavummiut who possess land skills necessary for working out in the field.

Partnering with Nunavut Research Institute, the College used NABEP funding to deliver two month-long Building Environmental Aboriginal Human Resources (BEAHR) training courses – one in Kugluktuk in April 2013 and a second course in Arviat in February 2014.

The BEAHR training program is designed for Aboriginal learners who may not have completed high school, or who have been out of school for an extended period of time and want to work in the environmental field. The course is delivered at a grade eight level in math, science and literacy skills, and was developed and licensed by the BEAHR Learning Institute.

Students learned the basic environmental skills necessary to work in the environmental sector at an assistant level. Instructors included a series of data collection exercises to expose students to sampling methods, use of monitoring equipment, data collection protocols and report writing. The course highlight for students were the learning activities with local Elders who taught them how to apply Inuit knowledge in monitoring work.

After completing their successful training course, some students planned to apply to take the College full-time environmental technology program in Iqaluit.

Career Development workshop resources

Using NABEP funds, the College partnered with the Department of Education to translate a series of Career Development instructor resources and student workbooks designed to be used in short workshops. They cover a range of topics that help people understand their career options and plan their future work, including:

- Apprenticeship
- Banking and Budgeting
- Career Planning
- Early Childhood Planning
- Interview Skills
- Job Search
- Portfolio Building
- Resume Writing
- Stress Management
- Time Management

These resources are used both at the College by adult educators and by career development officers in both English and Inuktitut.

Rankin Inlet Workplace Readiness students applied their job preparation skills through applying for a position, customizing their resumé and cover letter, and participating in a mock interview.

Photo: Arctic College staff

Recommendation 3-3: Arctic College to ensure all ABE programs that integrate ILTs will have an adult educator in person, as the primary support to the ABE student's learning activities.

Addressing Barriers: Expanding Options report, p. 28

80% of ABE learners said they were motivated and engaged using ILTs in their learning in the 2014 ABE Student Survey.

"Digital story telling! I would be very interested in learning more about it as well as facilitating the project. I think it would be a great asset to teaching media literacy and an understanding and engagement with social issues. Very exciting!"

Educator response to a question about ILT initiatives in the 2014 ABE Adult Educator Survey

Information and Learning Technologies (ILTs) designed to bring a wide range of content, teachers and students together over vast distances seems like an obvious choice for Nunavut ABE Programs. The College conducted extensive research and is investing in pilot projects to expand learning opportunities for ABE students.

ILTs are simply defined as any information and communication tools used to enhance learning – and both students and instructors are very interested in making use of these new technologies to increase learning opportunities in Nunavut communities.

But there are challenges to be overcome before Nunavut Arctic College can successfully implement new learning opportunities through technology that truly benefit ABE students in Nunavut – challenges that are gradually being met with innovative new programs.

Expanding our options

The College asked Lorraine Thomas of Imaituk, a recognized innovator in Arctic communications and former instructor, to recommend ways to meet the ILT challenges facing the College. She asked educators across Nunavut as well as NWT and Yukon to identify barriers they faced in their learning and teaching environments and how to make new programs using ILTs work for their students.

The resulting report, *"Addressing Barriers, Expanding Options: A practical strategy for the integration of Information and Learning Technologies in Adult Basic Education"* was published online in early 2012 at abe.arcticcollege.ca.

Strategies specifically for ABE students

Drawing upon lessons learned from our own experience as well as best practices from other jurisdictions facing similar challenges as Nunavut, the report provides practical strategies for effective use of ILTs to specifically serve ABE students within the College. Topics include recommendations on pedagogy, instructor training and support, content development, software, hardware, connectivity and technical support.

As most participants in the research recognized, ILTs are only tools. Even with better connectivity, we can't just plug in computers and expect the entire population to start effective e-learning. An entire way of thinking about technologies, learning, and pedagogy with appropriate support will be necessary to successfully use ILTs to provide more options for students and achieve better learning outcomes in the long term.

Investing in pilot projects with early adopters

One of the recommendations in the *Addressing Barriers, Expanding Options* report is to recognize and support instructors – particularly the early adopters – who are ready and able to share their materials by providing them with the necessary support to make it possible for them to pilot ILT projects.

Early adopters are instructors who integrate new technologies, with minimal management, technical or institutional support, as ILTs evolve at a pace that institutions simply cannot match.

Neil Christopher, an instructor in the College's Teacher Education Program, is one such early adopter. He wanted to work with a select group of College instructional staff to create an online environment and online tools to connect and collaborate on a pilot course delivery based on the *A Walk on the Tundra Book Study* developed by Inhabit Media. Through NABEP funding, he was contracted to develop and pilot a new ABE online learning project.

NABE Online pilot project

To create the Northern Adult Basic Education (NABE) Online Project, the instructor selected his tools carefully to match the needs of the students, the local adult educators, and the connectivity and hardware limitations facing Community Learning Centres.

To address ease of use he selected NING, a closed social media site with a familiar interface similar to public social media sites, to act as their private online meeting place for students and instructors to share content and ideas. He also registered nabe-online.com as the project's domain name, and assigned email addresses for every student.

To solve the hardware and connectivity challenges, the College provided iPads and Qiniq modems hooked up to a wi-fi router. And finally, he worked directly with participating adult educators, who in turn acted as in-person facilitators who helped students in their learning process using the new tools.

Using content and activities from *A Walk on the Tundra*, students worked through materials with their local adult educator, connecting with other students in nine communities and Neil via NING over a month-long period. The course provided lots of opportunities for hands on learning related to local plants and differing local environments in Nunavut.

A learning success!

The final assignment was an ambitious online collaborative project that would involve all communities interviewing local elders with the help of the plant photo cards provided. Students translated and summarized the information for each plant and each community added their work to a group ethno-botany publication being developed on a Wiki. The ethno-botany wiki publication was a huge success. This document gathered traditional knowledge from around Nunavut to contribute to a pan-Nunavut online publication.

The final course report lays out a series of recommendations on lessons learned, and today, the College is implementing many of those recommendations as we invest in further course development using NABE Online.

"I see lots of potential in using the NING site to connect students throughout Nunavut. I think the use of technology in the classroom will engage the students and enhance their learning. For example, using the iPads more effectively. These could be used for Math apps/games to practice new math skills. They can also be used for creating schedules, setting alarms, research, and new ideas like digital storytelling."

Educator response to a question about ILT initiatives in the 2014 ABE Adult Educator Survey

"I'm interested in distance learning programs, supplemental activities and learning about new technologies, and getting new technology."

Educator response to a question about ILT initiatives in the 2014 ABE Adult Educator Survey

Chris McCarthy – Manager of Distance Learning at the College, and Amy McCall – Acting Director of Adult and Early Childhood Learning Services and Educational Initiatives Division of the Department of Education describe their successful partnership for managing the PASS Program in “*The NABE Legacy: Connecting Communities of Learning through Partnership*” panel at the NABE Symposium.

Photo: Imaikut Inc.

Building partnerships is a foundation for success for many of our Northern ABE initiatives. But the groundbreaking partnership between the College and the Government of Nunavut’s Department of Education is the best proof of the power of partnership and its potential to achieve sustainability for important ABE programs.

The Pathway to Adult Secondary School (PASS) Graduation Program is a partnership between the Department of Education and Nunavut Arctic College to provide an alternative way for adults in Nunavut to obtain a Nunavut secondary school diploma. This ABE Program addresses the Government of Nunavut’s Tamapta priority #6, which calls for the development of a Mature Graduation system.

Partnership in action

NABEP funding was used to develop the partnership and planning process between the College and Education to create the PASS Graduation Program. After research and consultations facilitated by the Genesis Group were completed, we created a joint Business Case in September of 2012 and submitted it to the Government of Nunavut’s budget appropriation process requesting long term base funding.

This collaborative effort resulted in the approval of funds in late 2012 for the new PASS program for advanced ABE learners wishing to obtain their grade 12 diploma. The investment of funds, time and energy into this joint initiative is the most tangible, sustainable results of our NABE investments to date, securing permanent funding for the new PASS Program.

The challenge: ten months to launch new PASS program

The new funding stipulated that the College and the Department of Education had to launch the new PASS Graduation Program by the fall of 2013 – as the old GED program was slated for cancellation nationally. In addition, the program had to be designed so that any person in Nunavut's 25 communities could enroll.

Any students who passed their required high school courses through PASS would receive a fully accredited Nunavut High School Diploma awarded by the Department of Education. So curriculum had to be approved by the Department of Education, and delivered by accredited high-school level teachers – a far better program than the old GED, but much more complex to deliver. It was the College's responsibility to make sure a system was set up to meet all of these requirements as the delivery agent of the PASS program.

Distance learning delivery design built on 2012 research

The College and Department of Education decided that distance delivery was the best option to effectively reach individuals across the many Nunavut communities who may only require one or two courses to complete their high school certificate under PASS.

Building on the ideas in the 2012 *Addressing Barriers, Expanding Options* report on integrating ILTs into ABE, the College used NABEP funds to work with Imaituk, College managers, early adopters, and Department of Education to complete a detailed action plan for delivering the PASS graduation program by the fall of 2013. The action plan was informed by the research done in 2012, without which the PASS program could not have been designed and launched in the time available. The plan included details on:

- A blended distance learning model structure;
- Human resources required, including job descriptions for the new PASS staff;
- Connectivity solutions, using Qiniq modems;
- Hardware and software, including testing of Chromebooks and related gear;
- Application requirements, such as the Learning Management System, and synchronous tools;
- Technical support requirements;
- Detailed schedule.

In June of 2013, the team approved the plan, and met with the Alberta Distance Learning Centre (ADLC) to discuss a potential collaboration for content and support.

Over the summer of 2013, PASS distance learning staff were recruited, the recommended technology was tested by early adopters, and a contract was negotiated with ADLC to provide accredited content and Learning Management System support.

New College Distance Learning staff launch the PASS Program

Chris McCarthy, a former instructor with the College with a background in distance learning, was hired in August of 2013 to manage the new Distance Learning division. He worked with a team to create the Introduction to Online Learning course specifically for Nunavut students, and created a reliable, complete technology and support package for every PASS student to successfully participate by distance.

Today, he has a staff of 2 full-time people in Iqaluit, and 5 part-time instructors in different communities who act as local facilitators for students as they learn by distance from the accredited high school teacher based in Iqaluit, using the accredited Alberta curriculum. This program is fully funded by the Government of Nunavut, and does not rely on any NABEP funds.

By March, 2014, there were 21 students enrolled in PASS in 7 different communities, taking a variety of high school programs. The PASS program is an important initiative in meeting our objectives of ensuring all Nunavut adults who wish to obtain their high school diploma, now have an option to do so – thanks in part to the NABEP funds that helped us initiate and plan this successful partnership program.

We expect the Distance Learning division will continue to grow to serve the PASS ABE learners, and over time, the capacity being built within the College in serving Grade 11 and 12 level learners will spread to support future initiatives at all levels of ABE for the benefit of the entire College.

Photo: Imaituk Inc.

Building our internal capacity to be able to provide a wider range of ABE services to more adult learners in all Nunavut communities, while also delivering higher quality ABE programs than ever before is a welcome challenge.

Recognizing the NABEP funding is time limited, we focused our investments on training existing staff, bringing in new instructors in communities (particularly Inuktitut-language instructors) where required and adding minimal management staff. This approach was deliberately taken in order to build capacity with our existing staff that will not disappear once the NABEP funding is complete in 2016.

Managing the new ABE initiatives

Only one management position was created with NABEP funding - the Manager of ABE. The Manager plays a key role in ensuring the many initiatives we set out to achieve with our partners, collaborators and contractors were completed with appropriate Nunavut direction and input, working with many of the contractors, formal and informal Working Groups that provided input into the various new resources being created. The position responsibilities include organizing training and pilot testing of materials with adult educators and instructors, and acting as an instructional mentor to people using the new resources delivering new courses.

The Manager of ABE participates in numerous conference calls, workshops, facilitation sessions, media interviews, reports and coordination of training and meetings. He also negotiates and organizes the bulk purchase and distribution of books and learning materials the College purchases for use in the ABE Program, as well as distribution of new materials. He shipped over 2500 documents to Nunavut Community Learning Centres between 2012 and 2014.

The role of Manager of ABE has been instrumental to the coordination of the massive changes required within the Community and Distance Learning Department to achieve our objectives. The NABE manager was also a member of the NABE Symposium Project Planning Committee and critical to the high quality of presentations and the overall organization of the event.

New instructors in our communities

Nunavut Arctic College has permanent adult educators in 24 Nunavut communities responsible for delivering education to their ABE learners, as well as managing their Community Learning Centres where other short and long term courses are offered and taught by other visiting instructors as needed in the community.

With the launch of the new ABE initiatives, we asked our adult educators to increase their work load to participate in the development of the new resources, take on more students, and pilot these new projects.

Using NABEP funds, we hired an additional 26 ABE support instructors in the 2012-2013 school year, and 14 ABE support instructors in 2013-2014 school year. Depending on the size of the community and the number of ABE learners, some of the new instructors were hired full-time and some part-time.

Adult educators and instructors gather new skills

When adult educators were asked if participation in piloting the new resources helped them better understand the new materials, 75% agreed it did. This informal learning is an important initiative in building the capacity of our educators as we have few opportunities to gather in person.

Since the start of our initiative, we have held two in-person training sessions to familiarize adult educators with the materials as well as gather their input into their development.

In October 2012, we held the first NABE Training Event in Iqaluit. Adult educators, ABE practitioners, and ABE support staff from all over Nunavut flew in to participate in our information sessions and consultation processes on various NABE initiatives such as the Inuktitut assessment tool. There was also specific instructor training such as project-based learning teaching techniques and effective use of journaling in ABE.

In August of 2013, a second NABE training event in Iqaluit focused on how to use the many new courses and integrated teaching resources developed over the prior year, including training and information sessions on:

- how to use the new Inuktitut language resources;
- how to use the new ABE Essential Skills courses and integrated resources;
- how to collaborate with Elders through project-based learning;
- learning about decolonizing Education, for *Preparing for Change* course;
- feedback on the student online NING projects last year;
- details on the new Pathway to Adult Secondary School (PASS) graduation program.

Elders, developers, managers and experienced educators all contributed to the training sessions, including examples of integrating best practices, to ensure adult educators could pilot the new materials effectively in the 2013-2014 school year.

Training in the future

In the 2014 Adult Educator Survey, we asked adult educators what courses, training or workshops would be most useful for improving their effectiveness as an adult educator of ABE in Nunavut.

The top request was for training on how to use information technology in the classroom (66.7%), followed by project-based learning at 54.2%. Half of the respondents selected teaching Inuit cultural knowledge and adult learning theory, and under half of the adult educators selected the other nine options provided in the survey. Educators offered up other ideas for workshops too, with a number requesting courses on counseling and mental health to help students who need further support beyond the classroom.

In the fall and winter of 2015, training will focus on instructor development skills and the use of the new language curriculum with particular focus on the use of distance learning, integration of learning technologies, and project-based learning as pillars of student and educator success in ABE.

Adult educators learn to incorporate language instruction into a traditional Inuit bone game during a training session in Iqaluit, 2013

Photo: Arctic College staff

Adult educator responses to the Survey question “What courses, training or workshops would be most useful to you in improving your effectiveness as an Adult Educator of ABE in Nunavut?”

Response	Percentage
Conducting Assessments	41.7%
Teaching Essential Skills	37.5%
Teaching Math	33.3%
Teaching English	41.7%
Teaching Inuktitut	37.5%
Adult Learning Theory	29.2%
Teaching Methods	50.0%
Lesson Planning	25.0%
Project Based Learning	54.2%
Teaching Portfolio Development	33.3%
Teaching Career Readiness	41.7%
Using Information Technology in the Classroom	66.7%
Teaching Courses through Distance Learning	45.8%
Teaching Inuit Cultural Knowledge	50.0%
Working with Elders	41.7%

"I thoroughly enjoyed 'Taking a snowmobile down the information highway'. I believe that distance learning technology and programs will fill in the holes in education, particularly for the small communities and offer more opportunities to those who are the most isolated. ie: PASS."

Response to the question "Which sessions at the Whitehorse Symposium do you think were most helpful to adult educators in Nunavut?" 2014 ABE Adult Educator Survey

Nunavut's Minister of Education, Hon. Paul Quassa looks on while Valerie Royle, Deputy Minister of Education, Yukon, tries her hand at tending the qulliq during the *Indigenous Language in ABE* session at the NABE Symposium

Photo: Imaituk Inc.

One of our key objectives in enhancing ABE is to build a Northern community of practice to understand current trends in adult education in the North, and to learn from each other as we all work to improve Adult Basic Education services in our territories.

It requires concentrated effort to create the conditions in which to share knowledge. We need to build mechanisms between the three Northern Colleges. We need to create partnerships with our territorial learning institutions, and find ways to connect adult educators. Finally, we need to share the research and resources created by the many people and organizations who have worked with us on enhancing ABE initiatives.

Sharing between governments

Sharing between the Northwest Territories (NWT) and Nunavut started at the top, with the signing of the *Adult Literacy and Basic Education Curriculum and Resources License Agreement* by the Government of the NWT (as licensor) and the Government of Nunavut and Nunavut Arctic College (as licensees). This agreement allowed Nunavut to use GNWT ABE curriculum and resources without cost for ABE programming – providing enormous fiscal and human resource savings for Nunavut.

For example, Nunavut's PASS Program saved time and money by relying on the NWT's Adult Literacy and Basic Education (ALBE) curriculum, which was already articulated with the K-12 system used by Nunavut for granting high school equivalency.

Sharing between colleges

In 2012, Nunavut Arctic College, Aurora College and Yukon College signed a Memorandum of Understanding, agreeing to share program resources created and research data compiled under the NABE project.

We have collaborated on a number of projects such as contracting Yukon College to provide a variety of Student Success course services for use in Nunavut and partnering with Aurora College to test our Nunavut Adult Placement Assessment. But the biggest collaboration toward building a community of practice was our joint effort to launch the NABE Symposium.

In early 2013, we started planning the largest-ever gathering of adult educators north of 60. In just over 16 months, the Project Planning Committee organized 43 sessions, coordinated 50 presenters and panelists, and arranged the travel logistics for over 250 people to attend the NABE Symposium in Whitehorse from April 29th to May 1st 2014.

Delegates came from all over the Arctic and shared their ideas, challenges, lessons learned, and success stories with each other. We made friends, exchanged email addresses and promises of future connections with each other. The sharing of cultural traditions and knowledge was a key part of the conference, as educators shared their cultural practices in workshops, materials and performances, and leaders of our territories connected.

The success of the NABE Symposium is testimony to the high level of efficiency, commitment, planning and cooperation between the three colleges and the members of the Project Planning Committee. The Symposium was the start of a pan-territorial community of practice on adult basic education of which we can be very proud.

Sharing within our organization

In our many ABE initiatives, from building Essential Skills curriculum and developing culturally relevant placement assessments, to trying new ways to teach Inuktitut and integrating learning technologies, we involved many adult educators, instructors and managers in working groups and pilot programs. They provided ideas, feedback, experience, lessons learned, and even gathered up hundreds of samples of local documents for use in various materials. The 'official' Working Groups are listed on page 11 of this report, but there were many more informal groups working on every project.

We have also launched the comprehensive ABE Survey for adult educators in May of 2014 gathering adult educators' input on what worked, what didn't and what needs to be improved on every new NABE initiative. The results from this survey are a rich source of information to guide the College in its next steps in each of the various ABE initiatives.

Sharing with our collaborators, partners and contractors

In the back of this document, we have provided a complete list of the resources, independent research papers, and specialized programs delivered under the Northern Adult Basic Education (NABE) Program.

We welcome feedback, comments, and continued collaboration, partnerships and future contracts with the many talented people who helped build the many resources we will be using to enhance ABE into the future.

“Sessions that provided information on the types of programs/projects that have been done successfully. These sessions provided an example that an adult educator can build on or change to accommodate their own students... The sessions provided an amazing opportunity to explore new ways to engage students and keep them engaged in hands on (real-life) learning experiences.”

Response to the question “Which sessions at the Whitehorse Symposium do you think were most helpful to adult educators in Nunavut?” 2014 ABE Adult Educator Survey

Delivery of Enhanced Adult Basic Education Programs

A fresh start

With the approval of NABEP funding in November of 2011, the Community and Distance Learning Department was able to truly invest in ABE – in people, in the creation of resources, and in research that helped us develop our new approach.

The NABEP funding allowed us to make a fresh start for ABE at the College, as we aim to enhance our ABE programming and prepare more Nunavummiut with the basic skills to enter the workforce and to move onto further training.

Increasing enrollment

In the 2011-2012 fiscal year, we focused on developing the foundation of a stronger ABE program. Funds for research, planning, and development of resources began in January of 2012, once our NABEP funding was in place.

In the 2011-2012 school year, prior to the announcement and implementation of the NABEP funding, only 47 ABE students were served. This reflects the number of students typically served in prior years.

As the chart below indicates, in the 2012-2013 school year, with the NABEP investment, the number of ABE students enrolled in ABE skyrocketed to 233* – the highest number of ABE students served in a single year since the creation of Nunavut.

In our most recent school year, 2013-2014, enrollment increased again, with 246 students participating in 20 different communities. Of the 246 students who started, 21 are PASS students who are working on their own schedule for completion in the coming months. For the remaining 225 ABE students who took programs that ended by May 30th this year, 104 successfully passed – a completion rate of 46%.

Next year, with the expanded capacity of our adult educators, our improved curriculum and resources, and effective teaching strategies, we expect even higher enrollment and completion rates. The achievement of these intermediate outcomes are critical to achieving our long term results: increasing the number of adult learners with the basic skills to enter the workforce.

Reporting Statistics Submitted to Canadian Northern Economic Development Agency's Northern Adult Basic Education Program (NABEP)

	2012/2013	2013/2014
Communities offering adult basic education:	20	20
Training programs for adult learners:	22	26
ABE Students Served:	233*	246
ABE Students completed ABE program:	77	104
Additional local ABE Instructors hired: Aboriginal	17	10
Additional local ABE Instructors hired: non-Aboriginal	9	4
Local Elder Instructors contracted:	79	98
Aboriginal educators (ABE and Elder instructors):	96	108
ABE Products:	15	40
ABE Services:	11	132
New or enhanced ABE materials and curriculum put into use	26	12

*Includes 58 Baffinland Workready Students funded by NABEP who were not enrolled in the formal College student records system so their completion rates are not included in the chart above. The 2012-2013 ABE students formally enrolled in College ABE Programs totalled 175, of which 77 students completed their ABE Program for a completion rate of 44%.

“Knowing who I am – my identity – who I came from – my ancestry – and how we (Inuit) have lived and survived is what we were taught growing up, so that is where I start my courses from.”

Saa Pitsiulak, Instructor
Preparing for Change and ABE Inuit Language

Angie Kublutook, Triak Parr, and Saa Pitsiulak, Nunavut Adult Educators at the NABE Symposium Photo: Arctic College staff

Increasing learning options

Students require a full range of learning options to serve a wide range of learner needs.

In the 2013-14 school year we expanded our program options with the launch of the new ABE Essential Skills Program in 2013 – working to more directly prepare students for entry level jobs. This new program also aims to assist students in making career plans, which includes continued learning, even as they enter the workforce.

We also created the PASS program, which provides options for more advanced ABE students to obtain their mature high school graduation, opening doors for students to move into higher level jobs and post-secondary training.

These programs accounted for the increase of training programs made available from 20 in 2012-2013 to 26 in 2013-2014 as can be seen in the previous chart.

We will continue to expand our program offerings to increase flexibility for students.

Inuit and Nunavut-focused materials and process

We have invested heavily in developing and piloting new resources and teaching processes that reflect Nunavut and cultural contexts. We have worked with adult educators on these resources and participated in the piloting and training of Inuit language resources, Essential Skills, Assessments, and Inuktitut and English Readers – all of which reflect Nunavut and Inuit culture.

In the chart on the previous page, there were 15 ABE Products produced in 2012-2013, more than doubling to 40 in 2013-2014. Similarly there were 11 ABE Services in 2012- 2013 increasing to 132 in 2013-2014.

Many of the new resources were recently completed, and will be put into use in the 2014-15 academic year, so there will be a significant increase in the category of ‘new or enhanced ABE materials and curriculum put into use.’ For a complete list of resources developed, please see the following pages.

Most importantly, adult educators are hiring Elders to work with students - collaborating to help students reach their learning goals. In the chart on the previous page, the number of Elders hired increased from 79 to 98. The effect of sustained presence of Elders in the classroom has been overwhelmingly positive.

Building capacity to deliver higher quality ABE services

In 2012-2013, we hired an additional 17 Inuit instructors and 9 non-Inuit. The following year, we hired another 10 Inuit and 4 non-Inuit instructors. We also conducted training sessions on the use of the new resources and processes throughout the past two years.

The many initiatives undertaken with NABEP funds all add up to higher quality ABE services, which in turn, will result in more Nunavummiut succeeding in obtaining work or moving onto further study.

Investments by year			
	2011/ 2012	2012/ 2013	2013/ 2014
Revenue:	\$745,800	\$2,939,137	\$2,895,668
Expenditures:	\$726,913	\$2,637,494	\$2,850,967
Variance:	\$18,887	\$301,643	\$44,701

“Continue towards the idea of work. People...should keep busy like our ancestors did and [they will] have no time for troubles. We need to promote education and find ways to attract individuals into changing...and working towards something positive. Offer different level programs like here [in my community], we’ve been offering 110-120 levels for four years with the same target group when there is a huge target group at the 130-150 level. When students are ready, they will succeed. Leading them up to that readiness, and recognizing their readiness is important.”

An adult educator’s response to the question ‘What are your ideas to improve Inuit and Nunavut-focused materials and activities in the future to support student learning and successful completion,’ 2014 Adult Educator Survey.

Return to Written Question

Asked by: Simeon Mikkungwak, MLA Baker Lake

Asked of: Hon. Keith Peterson, MLA
Minister responsible for the Workers' Safety and
Compensation Commission

Number: 1-4(3)

Date: June 2, 2015

Subject: Administration and Enforcement of the Workers
Compensation Act.

Question:

1. Within the meaning of section 134 of the *Workers' Compensation Act*, what were the results of each inspection conducted by the Workers' Safety and Compensation Commission between January 1, 2013 and May 31, 2015, within the municipality of Baker Lake and at the Meadowbank mine site?
2. Within the meaning of section 135 of the *Workers' Compensation Act*, what were the results of each search conducted by the Workers' Safety and Compensation Commission between January 1, 2013 and May 31, 2015, within the municipality of Baker Lake and at the Meadowbank mine site?
3. Within the meaning of section 141 of the *Workers' Compensation Act*, what penalties were paid between January 1, 2013 and May 31, 2015, by entities located within the municipality of Baker Lake and at the Meadowbank mine site?

Response:

Mr. Speaker, the information that is requested is considered confidential under the *Access to Information and Protection of Privacy Act*, S.N.W.T. 1994, c. 20 as amended by s. 76.05 of *Nunavut Act* and as further amended by statutes of Nunavut.

In particular, the information sought by the Honourable Member is not collected under the *Workers' Compensation Act*, that is, safety inspections are conducted either under the *Safety Act* or the *Mine Health and Safety Act*, depending on the nature of the enterprise. Further, the results of such safety inspections are subject to the protection of privacy legislation under the *Access to Information and Protection of Privacy Act*, cited above, and in particular, s. 24(1) which states,

- „, the head of a public body shall refuse to disclose to an applicant
- (b) financial, commercial, scientific, technical or labour relations information
 - (i) obtained in confidence, explicitly or implicitly, from a third party, or
 - (ii) that is of a confidential nature and was supplied by a third party in compliance with a lawful requirement;

Based on these points I am not at liberty to release this information.

Return to Written Question

Asked by: Joe Savikataaq, MLA

**Asked of: Hon. Monica Eil, MLA
Minister of Economic Development and Transportation**

Number: 002 – 4(3)

Date: June 2, 2015

**Subject: Expenditures and Activities under the Strategic
Investments Program**

Question:

The Government of Nunavut's 2012-13 (Tabled Document 34 – 4(1)) and 2013-14 (Tabled Document 44 – 4(2)) annual reports on grants and contributions identify recipients of funding under the Department of Economic Development and Transportation's Strategic Investments Program. Recipients are categorized as "municipal governments," "non-profit organizations," or "businesses." As of June 1, 2015, the electronic versions of the Department of Economic Development and Transportation's Strategic Investments Program Policy that are available to the general public on its website (http://www.gov.nu.ca/sites/default/files/strategic_investments_program_policy.pdf and http://gov.nu.ca/sites/default/files/files/SIP_Policy_eng.pdf) indicate that the policy expired on March 31, 2011.

1. As of June 2, 2015, what is the date of expiry of the Department of Economic Development and Transportation's current *Strategic Investments Program Policy*?
2. At which URL can the Department of Economic Development and Transportation's current *Strategic Investments Program Policy* be located?

3. With respect to contributions made to “businesses” under the Strategic Investments Program during the 2012-13 and 2013-14 fiscal years, as listed in Tabled Documents 34 – 4(1) and 44 – 4(2),

a. Which contributions were made through the Nunavut Equity Investment Fund?

b. Which contributions were made through the Nunavut Economic Foundations Fund?

c. Within the meaning of the “Eligible Activities” sections of the *Strategic Investments Program Guidelines – Nunavut Equity Investments Fund (Schedule A)* and the *Strategic Investments Program Guidelines – Nunavut Economic Foundations Fund (Schedule B)*, what was the purpose of each contribution made to “businesses” during the 2012-13 and 2013-14 fiscal years?

d. Within the meaning of the “Program Monitoring and Evaluation” sections of the *Strategic Investments Program Guidelines – Nunavut Equity Investments Fund (Schedule A)* and the *Strategic Investments Program Guidelines – Nunavut Economic Foundations Fund (Schedule B)*, what have been the results of each contribution made to “businesses” during the 2012-13 and 2013-14 fiscal years?

4. The *Strategic Investments Program Policy* provides that the Minister of Economic Development and Transportation “will table annually in the Legislative Assembly a summary of contributions detailing the amount of each contribution, the investment being supported, [the] name of the recipient and community.” As of June 2, 2015, what is the status of the preparation of the Minister of Economic Development and Transportation’s annual reports for the 2012-13 and 2013-14 fiscal years under this provision of the *Strategic Investments Program Policy*?

Response:

1. The date of expiry for the Strategic Investments Program Policy cited in my colleague’s written question is correct. The department continues to implement the existing policy while a new policy is being drafted. We expect to introduce a new policy by fall 2015.
2. As my previous answer indicates, my colleague is already in possession of the most current version of the Strategic Investments Program Policy, the one that is currently being used to implement the program. The policy and other Strategic Investments Program materials are available at this URL: <http://gov.nu.ca/edt/programs-services/strategic-investments-program>.

3. The attached table provides responses to questions 3. a., b. and c. The acronyms NEIF and NEFF are used to indicate the Nunavut Equity Investment Fund and Nunavut Economic Foundations Fund, respectively.

Under the policy, businesses are eligible for funding under the Nunavut Equity Investments Fund; societies, not-for-profit corporations and municipalities are eligible for funding under the Nunavut Economic Foundations Fund.

As noted in the table, a handful of entities which received Nunavut Economic Foundations Fund contributions were mis-labeled as businesses in the tabled Grants and Contributions reports. These are the Alianait Entertainment Group, Nunavut Fisheries and Marine, Aboriginal Peoples Television and Arctic Watch Beluga Foundation.

The table's "Purpose" column provides a description of each project funded, and in some cases additional information on the project. I recognize that this is not a direct response to the Member's question 3. c., which makes reference to the Eligible Activity categories cited in the guidelines. While these categories are helpful for applicants and program managers alike, they are not necessarily exhaustive, and many projects have elements of two or more of these categories. In practice we do not track which of these categories a given project falls under. However, it should be clear from the project descriptions provided which eligible activities are present in the various projects.

d. With respect to the results of the contributions to businesses, except as noted in the table, contribution recipients have completed the projects for which they received funds and have met the accountability requirements contained in the contribution agreements.

The on-going monitoring and evaluation of project results has proven challenging for two principal reasons:

- i. The department lacks an automated real time system to allow program management staff to collect meaningful monitoring and evaluation data; such a system would allow headquarters division to conduct effective program monitoring and evaluation activities.
- ii. The program is administered across four regional Community Operations offices, as well as headquarters. In most respects this decentralized administration is a strength, allowing equitable access to the program in all communities and ensuring that program managers have an understanding of applicants' local and regional business and economic context. However, it is also difficult to ensure the consistent collection of meaningful monitoring

and evaluation data across offices in five communities across the territory

without an automated system to generate data for analysis.

4. Annual reports summarizing the details mentioned in the Member's question have not been tabled in the Legislative Assembly. The Grants and Contributions reports tabled by the Minister of Finance indicate the amount of each contribution and the name of the recipient, but not the investment being supported or the community.

I can commit to the Member that either the missing details will be added to the reports tabled by the Minister of Finance or that program-specific annual reports are prepared such that I can table them in the Assembly. I would also like to reassure my colleague that the forthcoming renewed Strategic Investments Program Policy will clarify this matter.

Attachment to Return to Written Question 002 – 4(3): Expenditures and Activities under the Strategic Investments Program

2012-13 Contributions to Businesses under the Strategic Investments Program

Recipient	Amount	Category	Sched.	Community	Purpose
Arctic Villas	300,000	Business	NEIF	Iqaluit	Construction of 42 new housing units by a Nunavut-based, Inuit-owned company.
Niqitaq Fisheries Ltd	300,000	Business	NEIF	Baffin region	Upgrade and increase the Nunavut ownership of the fishing vessel <i>Oujukoaq</i> , which has since been renamed <i>Sikivut</i> . The department believes that this project is complete, however final project reporting has yet to be submitted and the amount will remain a receivable on the department's books until reporting is received.
Piksuk Media Inc	250,000	Business	NEIF	Iqaluit	Upgrading the Astro Theatre. The department believes that this project is complete, however final project reporting has yet to be submitted and a portion of the amount (\$50,000) will remain a receivable until reporting is received.
R & T Enterprises Ltd	100,000	Business	NEIF	Rankin Inlet	The project involved building renovations and the purchase of equipment, tools and supplies to establish a restaurant. Ultimately the project was scaled back to a catering business rather than a restaurant; accordingly, the contribution received was scaled back to \$47,086 from \$100,000.
Mis-labeled Category 2012-13					
Recipient	Amount	Category	Sched.	Community	Purpose
Alianait Entertainment Group	100,000	Business	NEFF	Iqaluit/Pan-Nunavut	Supporting the Alianait Arts Festival, as well as three arts industry events. Alianait Entertainment Group is a society, not a business.

Attachment to Return to Written Question 002 – 4(3): Expenditures and Activities under the Strategic Investments Program

2013-14 Contributions to Businesses under the Strategic Investments Program

Recipient	Amount	Category	Sched.	Community	Purpose
994458 Nunavut Limited	500,000	Business	NEIF	South Kivalliq	Upgrade former Ennedai Lake Lodge and re-open it under Nunavut ownership as the Arctic Haven Wilderness Lodge. Upgrades include a state-of-the-art renewable energy system, renovations to kitchen, staff housing, air strip and guest accommodations.
Jago Services Inc.	300,000	Business	NEIF	Cambridge Bay	Construction of the Umingmak Lodge B&B, a 12-bed facility in Cambridge Bay.
Ottenhiemer Baker <i>(for Arctic Fishery Alliance)</i>	232,445	Business		Baffin region	The project was to conduct exploratory turbot fisheries near Grise Fiord and Qikiqtarjuaq, as well as to conduct a collector vessel operations feasibility study. The recipient of the funds was the Arctic Fishery Alliance, a partnership of the Hunters and Trappers Organizations of Qikiqtarjuaq, Arctic Bay, Resolute Bay and Grise Fiord. The law firm noted as recipient received the contribution in trust for the Arctic Fishery Alliance members.
Arctic Kingdom Polar	140,000	Business	NEIF	Various in Baffin and Kitikmeot, Arviat	Investment in Arctic Safari Camp infrastructure (Baffin region and Arviat), Iqaluit Region Tour Program and Development of Kitikmeot Tourism Offerings.
Cambridge Bay Restaurant and Café	124,200	Business	NEIF	Cambridge Bay	Leasehold improvements, furniture and equipment, freight and start-up costs for a new business venture. The department believes that this project is complete, however final project reporting has yet to be submitted and accordingly a portion of the amount (\$24,840) has yet to be disbursed to the recipient.
Inukshuk Enterprises Ltd.	87,571	Business	NEIF	Cambridge Bay	First phase of a project to expand the business through the construction of a new 5000 square foot building incorporating a 3-bay garage and retail parts and supplies showroom.
Cheticamp Boatbuilders Ltd. <i>(for Peters Expediting & Outfitting)</i>	68,480	Business	NEIF	Pangnirtung	To purchase and equip a 40 foot vessel for commercial fishing in Cumberland Sound. This is the same project as the amount noted for Peters Expediting & Outfitting, below. This portion of the project was a third party payment to the builder of the vessel. The department believes that this project is complete, however final project reporting has yet to be submitted and the amount will remain a receivable on the department's books until reporting is received.

Recipient	Amount	Category	Sched.	Community	Purpose
Tukumaaq Inc.	65,607	Business	NEIF	Clyde River	Design and planning for a project to establish a nine-unit suite accommodation facility, including a coffee and snack lounge, exercise room, catering and cooking class facility. This was the first year of a multi-year agreement.
Peters Expediting & Outfitting <i>(see also Cheticamp Boatbuilders Ltd.)</i>	17,120	Business	NEIF	Pangnirtung	To equip a 40 foot vessel for commercial fishing in Cumberland Sound. This is the second portion of project – at this point the vessel had been purchased and the costs noted here have to do with equipping it. The department believes that this project is complete, however final project reporting has yet to be submitted and the amount will remain a receivable on the department's books until reporting is received.
Mis-labeled Category 2013-14					
Recipient	Amount	Category	Sched.	Community	Purpose
Nunavut Fisheries and Marine	201,000	Business	NEFF		Providing small commercial vessel operator training in four communities across Nunavut's three regions. The department believes that this project was completed, however final project reporting has yet to be submitted and accordingly a portion of the amount (\$40,200) remains as a receivable. The Nunavut and Marine Training Consortium is a not-for-profit corporation, not a business.
Aboriginal Peoples Television	50,000	Business	NEFF	Iqaluit	Hosting national Aboriginal Day event in Iqaluit. APTN is a not-for-profit corporation, not a business.
Arctic Watch Beluga Foundation	40,000	Business	NEFF	Resolute Bay	To host the annual Steve Amarualik Youth Expedition at Cunningham Inlet, Somerset Island, for Nunavut youth participants to learn relevant skills in tourism. The project came in under budget; the final contribution paid was \$35,847. The Arctic Watch Beluga Foundation is a not-for-profit corporation, not a business.

RETURN TO WRITTEN QUESTION

Asked by: Pat Angnakak, MLA for Iqaluit- Niaqunnguu
Asked of: Hon. Keith Peterson, Minister of Finance
Number: 003-4(3)
Date: June 5, 2015
Subject: Administration and Enforcement of the *Tobacco Tax Act*

Question 1:

Broken down by product type and community, what volume of tobacco was sold in Nunavut by registered tobacco retail dealers during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 1:

Please refer to Table 1 (attached)

Question 2:

Broken down by product type and community, what amount of tobacco taxes were collected by the Government of Nunavut during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 2:

Please refer to Table 2 (attached)

Question 3:

What percentage of tobacco tax revenues raised during the 2012-13, 2013-14, and 2014-15 fiscal years were allocated for smoking prevention and cessation programs?

Response to Question 3:

None. Tax revenues are deposited as general revenues, and are allocated to departments through the annual budget process. Starting in 2013-14, the GN increased the Department of Health's budget by \$2.5 million annually to support additional tobacco reduction and

enforcement initiatives. The amount of this increase approximates the additional revenue the GN collects each year as a result of the February 2012 increase to tobacco tax rates.

Question 4:

Within the meaning of section 5 of the *Tobacco Tax Act*, broken down by community, how many import permits were issued during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 4:

None.

Question 5:

Within the meaning of section 7 of the *Tobacco Tax Act*, broken down by community, what were the results of inspections conducted during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 5:

None.

Question 6:

As of June 1, 2015, within the meaning of section 22 of the *Tobacco Tax Act*, broken down by community, what entities are registered tobacco retail dealers?

Response to Question 6:

Please refer to Table 3 (attached)

Question 7:

Within the meaning of section 22.1 of the *Tobacco Tax Act*, how many refusals were made during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 7:

None.

Question 8:

Within the meaning of section 22.1 of the *Tobacco Tax Act*, what were the circumstances of each refusal made during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 8:

None.

Question 9:

Within the meaning of section 22.2 of the *Tobacco Tax Act*, how many cancellations or suspensions of a permit were made during the 2012-13, 2013-14, and 2014-15 fiscal years?

Response to Question 9:

None.

Question 10:

Within the meaning of section 22.2 of the *Tobacco Tax Act*, what were the circumstances of each cancellation or suspension of a permit made during the 2012-13,2013-14,and 2014-15 fiscal years?

Response to Question 10:

None.

Question 11:

Within the meaning of sections 23, 23.1,23.2,24 and 25 of the *Tobacco Tax Act*, what offences and punishments were investigated and prosecuted during the 2012-13,2013-14,and 2014-15 fiscal years?

Response to Question 11:

None.

Question 12:

What was the disposition of each matter referred to in question #10?

Response to Question 12:

None.

RETURN TO WRITTEN QUESTION

Asked By: George Hickes. MLA for Iqaluit-Tasiluk

Asked To: The Honorable Johnny Mike, Minister of Community and Government Services

Number: Question No. 004-4(3)

Date: July 31, 2015

Subject: Expenditures under Standing Offer Agreements

Q1. Broken down by department, Crown agency, territorial corporation, and vendor, what expenditures were incurred during the 2012-13, 2013-14, and 2014-15 fiscal years under standing offer agreements (SOA's) entered into on or after January 1, 2010?

A1. Please see the attached report for the Government of Nunavut (GN). This report is organized as follows:

- A. By fiscal year (2012-13, 2013-14, and 2014-15)
- B. List of expenditures, project name, description
- C. Client / Department
- D. The SOA number

For information related to Crown agencies and territorial corporations, please see the attached information received from Qulliq Energy Corporation (QEC), Nunavut Housing Corporation (NHC) and the Nunavut Business Credit Corporation (NBCC). Each corporation has provided their respective information related to SOA contracts and expenditures. (This

information will be made available in Inuktitut once translations are completed).

Q2. What was the purpose of each expenditure referred to in question #1?

A2. In the Government of Nunavut’s contract report, the purpose of each expenditure is briefly outlined in the column entitled **Project Name**. Please note that 70% of the total number of contracts, for the three years, are composed of frequently required goods and or services in the following 19 general categories:

• Relocation of staff, Finance	• Training courses, GN
• Specialized residential care, Health, Family Services	• Medical Supplies, Health
• Tender advertising newspapers, CGS	• Polar bear research, Environment
• Office supplies & Furnishings/equipment, GN	• Cabling, CGS
• Air travel for circuit court, Justice	• Teleconferencing equipment, GN
• Vehicles, snowmobiles, ATV’s, GN	• Tank farm maintenance services, CGS/PPD
• Translation & interpretation, GN	• Audit & accounting services, GN
• Agency nurses, Health	• Catering, GN
• Printing services, GN	• Design & print, GN
• Executive search, Finance	

For information related to Crown agencies and territorial corporations, please see the attached information received from QEC, NHC and the NBCC. Each corporation has provided their respective information related to SOA contracts, vendors and purpose of expenditure. (This information will be made available in Inuktitut once translations are completed).

Q3. Which vendors and/or individuals employed or contracted by a vendor receiving payment from a Government of Nunavut department, Crown agency, or territorial corporation during the 2012-13, 2013-14,

and 2014-15 fiscal years under a standing offer agreement were previously employed as members of the Nunavut public service on or before January 1, 2012?

A3. The Government of Nunavut cannot provide this information because this type of information is currently not being tracked.

Please see the attached information from QEC, NHC and the NBCC which contain their respective responses to this question. (This information will be made available in Inuktitut once translations are completed).

Q4. What regulations, rules, guidelines, or other forms of formal written direction have been approved by either the Executive Council of Nunavut or the Financial Management Board with respect to the awarding of contracts or the making of payments under standing offer agreements by Government of Nunavut departments, Crown agencies, or territorial corporations to individuals who are former members of the Nunavut public service?

A4. The Nunavut Public Service Code of Values and Ethics (the Code) was approved by the Executive Council and tabled in the Legislative Assembly in 2015. The Code establishes standards for post-employment activities of public servants who acquired confidential information during their employment. It is in the best interests of the public to ensure that the information gained by these senior manager public servants is not exploited for personal gain.

The Human Resources Manual directive 205 was approved by Cabinet in 2015 and provides further direction to public servants regarding the post-employment restrictions contained in the Code.

The onus is not on the GN to determine if a former senior manager was employed by the GN in the year immediately preceding their seeking standing offer agreements. Public servants are responsible for adhering to the Code both during and post-employment. In the case of senior managers, if they apply for contracts with the GN, it is their responsibility to disclose the fact that they were senior managers for the GN in the year prior to applying for contracts. In such circumstances, they are entitled to apply for an exemption from these provisions of the Code.

The Department of Community and Government Services (CGS) issues Request for Proposal (RFP) documents that include a reminder to contractors. The information reads as follows: "For one year from the date their employment ceases, former GN senior officers may not own, operate, control or be employed by any business enterprise in which they may be in a position to unduly exploit knowledge they gained while employed by the GN". This is included in all RFP documents.

Please see the attached information from QEC, NHC and the NBCC which contain their respective responses to this question. (This information will be made available in Inuktitut once translations are completed).

Response from Qulliq Energy Corporation concerning:

Written Question 004 – 4(3): Expenditures under Standing Offer Agreements

1. Broken down by department, Crown agency, territorial corporation, and vendor, what expenditures were incurred during the 2012-13, 2013-14, and 2014-15 fiscal years under standing offer agreements entered into on or after January 1, 2010?

See table

2. What was the purpose of each expenditure referred to in question #1?

See table

3. Which vendors and/or individuals employed or contracted by a vendor receiving payment from a Government of Nunavut department, Crown agency, or territorial corporation during the 2012-13, 2013-14, and 2014-15 fiscal years under a standing offer agreement were previously employed as members of the Nunavut public service on or before January 1, 2012?

None that QEC is aware of.

4. What regulations, rules, guidelines, or other forms of formal written direction have been approved by either the Executive Council of Nunavut or the Financial Management Board with respect to the awarding of contracts or the making of payments under standing offer agreements by Government of Nunavut departments, Crown agencies, or territorial corporations to individuals who are former members of the Nunavut public service?

1. SUMMARY

1. Broken down by department, Crown agency, territorial corporation, and vendor, what expenditures were incurred during the 2012-13, 2013-14, and 2014-15 fiscal years under standing offer agreements entered into on or after January 1, 2010?

See attached spreadsheets by year, column labeled "Award Value"

2. What was the purpose of each expenditure referred to in question 1)?

See column labeled "Project Name" in the attached spreadsheets, by year.

3. Which vendors and/or individuals employed or contracted by a vendor receiving payment from a Government of Nunavut department, Crown agency, or territorial corporation during the 2012-13, 2013-14, and 2014-15 fiscal years under a standing offer agreement were previously employed as members of the Nunavut public service on or before January 1, 2012?

See column labeled "Former Employees" in the attached spreadsheets, by year.

4. What regulations, rules, guidelines, or other form of formal written direction have been approved by either the Executive Council of Nunavut or the Financial Management Board with respect to the awarding of contracts or the making of payments under standing offer agreements by Government of Nunavut departments, Crown agencies, or territorial corporations to individuals who are former members of the Nunavut public service?

We have followed ON procurement practices in establishing Standing Offer Agreements.

NOTE

The 2014/15 Contracting Report is yet to be finalized. As such, the information reported in the 2014/15 section herein could be subject to change when the Contracting Report gets finalized. Upon completion of the year-end audit, NHC will be able to provide a more wholesome and fully reconciled report.

1. Broken down by department, Crown agency, territorial corporation, and vendor, what expenditures were incurred during the 2013-13, 2013-14, and 2014-15 fiscal years under standing offer agreements entered into on or after January 1, 2010?

See attached spreadsheets by year, columns labeled "Award Value"

2. What was the purpose of each expenditure referred to in question #1?

See columns labeled "Project Name" in the attached spreadsheets, by year.

3. Which vendors and/or individuals employed or contracted by a vendor made his or her services from a Government of Nunavut department, Crown agency, or territorial corporation during the 2013-13, 2013-14, and 2014-15 fiscal years under a standing offer agreement were previously employed as members of the Nunavut public service on or before January 1, 2010?

See columns labeled "Former Employees" in the attached spreadsheets, by year.

4. What regulations, rules, guidelines, or other form of formal written direction have been approved by either the Executive Council of Nunavut or the Financial Management Board with respect to the awarding of contracts or the making of payments under standing offer agreements by Government of Nunavut departments, Crown agencies, or territorial corporations to individuals who are former members of the Nunavut public service?

We have followed GN procurement practices in establishing Standing Offer Agreements.

Actual expenditures: \$ 8,786
Translation services
No employees previously employed by the Public Service on or before January 1, 2012

Return to Written Question

**Asked by: Alexander Sammurtok, MLA
Rankin Inlet South**

**Asked of: Hon. Paul Okalik, MLA
Minister of Health**

Number: 005-4(3)

Date: Wednesday, June 03, 2015

Subject: Administration and Enforcement of the Public Health Act

Question 1: Within the meaning of section 25 of the *Public Health Act*, what inspection and enforcement activities, broken down by applicable regulation and community, were undertaken by the Department of Health during the 2012-2013, 2013-2014 and 2014-2015 fiscal years?

Response: The Department of Health undertakes inspection activities under the Public Health Act on a regular basis. During the time between the years 2012 to 2015, 2090 inspections were conducted by the Department. Please see attached table for a further breakdown by fiscal year, regulation and community.

Question 2: Within the meaning of section 23 of the *Public Health Act*, what prosecutions for alleged contraventions of the Act or regulations were undertaken during the 2012-2013, 2013-2014 and 2014-2015 fiscal years?

Response: During the years in question the department of Health has not undertaken any prosecutions within the meaning of Section 23 of the Public Health Act.

Question 3: What was the disposition of each matter referred to in question #2?

Response: N/A
